Budget Message Jackson County, Oregon 2006-2007

April 11, 2006

Members of the Budget Committee, Board of Commissioners and Citizens of Jackson County:

Presented today is the recommended budget for 2006-2007 for Jackson County, Oregon.

This year marks the final year of funding from the federal government under Public Law 106-393. It is not known if federal funds will be re-authorized. In fact, it may not be known until September 30, 2006 at the close of the federal fiscal year and well after this budget is adopted what fate federal funds will meet.

The county has known since 2000 that these federal funds may have a limited life span. Therefore, the county has amassed a "rainy day" fund for the general fund which is designed to provide reduced services for two years. There is an implementation plan designed to provide citizens with options for service. A similar "rainy day" fund exists for the road fund; the other fund severely impacted by Public Law 106-393.

This is not the year to expand programs without guaranteed sources of revenue.

The county will have achieved much if federal funds are maintained at a level that provides sufficient funding for most county programs. This budget represents only expenditures that can be linked to nearly guaranteed revenue as we enter the final year of federal funding.

The recommended budget recognizes that Jackson County cannot commit to new or expanded on-going expenditures. In fact, current operations, even with federal funding cannot be sustained at their current level. (See bar graph, appendix A).

Therefore, this recommended budget:

- Builds the rainy day fund (apart from reserves needed for cash flow) to \$23,971,246 to protect the county in the event of discontinued federal funding. This amount includes \$1,681,599 from the sale of property at the south Gateway site in 2005.
- Includes no on-going expenditures that cannot be sustained by on-going revenue with one exception. That exception is included in the assessment budget where 3.0 positions were added to increase property tax revenue. A corresponding increase in property tax revenue is reflected in the

recommended budget. Should the assessor's efforts to increase revenue not be successful, the budget committee will need to address the matter in 2007-2008.

In addition to the county's particular funding issues, the population continues to grow and demands on local government services continues to grow.

This budget reflects our best effort to address the issues we face and is balanced for all funds. A balanced budget means that revenues and expenditures match. There are sufficient funds carried forward from the previous year for uncompleted obligations. Sufficient funds are budgeted to provide appropriate cash flow for the following year. All funds that include debt service are balanced in accordance with Oregon municipal debt law.

This budget message is organized into five major categories designed to give the reader an overview of county issues, priorities, and finances. They are:

- County Mission Statement and Goals
- Long Term Financial and Other Matters that Impact the Recommended Budget
- Short Term Financial and Other Initiatives that Impact the Recommended Budget
- Significant Departmental and Fund Highlights and Issues for 2006-2007
- Processes Used to Develop the Budget and Organization

The preparation of a budget this complex would not be possible without the hard work and contributions of many. I would like to specifically acknowledge Harvey Bragg, fiscal planning and facilities director; Michelle Amberg, management analyst; and Linda Strickland, administrative assistant. Additionally, each of the department directors and program managers participated to complete this recommendation.

These challenges notwithstanding, this recommended budget provides as much service as possible, sets a solid plan for the future, and uses revenues conservatively.

The total recommended Jackson County budget is \$286,233,431. The revised budget for 2005-2006 totals \$286,813,879. The county's 2006-2007 budget is expected to increase upon final calculation of public works projects that will be carried forward into 2006-2007.

County Mission Statement and Goals

Several years ago, the county adopted a mission statement and a set of goals to guide it as it planned for the provision of service. The mission statement and goals are not in any priority order. They are numbered only to assist the reader with abbreviations used elsewhere in the budget. All goals are equally important. They are:

Mission Statement

Jackson County's mission is to provide public services that protect and enhance the quality of life in the county, as determined by the people, laws, and available resources.

Goals

1. Protect health, safety, and well-being of all citizens.
2. Serve all citizens fairly and ensure access to county government.
3. Provide opportunities for all citizens to prosper by promoting the economic development of the area.
4. Strengthen cooperation between public agencies.
5. Work to enhance the natural and man-made attractiveness of the area.
6. Encourage citizen understanding and participation in county government.

7. Make recreational, learning, and cultural opportunities accessible and available.
8. Provide and maintain multiple transportation systems.
9. Promote employee pride, high standards of performance, and productivity.
10. Make the best use of Jackson County's human and material resources.
11. Maintain public records to provide financial, historical, and statistical information.
12. Plan for the future.

The budget for each program reflects that program's contribution toward meeting these goals. The various contributions toward these goals appears on the budget pages for individual programs.

Long Term Financial and Other Matters that Impact the Recommended Budget

Federal Funds

A significant source of county general fund revenue is the federal Rural Schools and Community Self-Determination Act (O & C replacement funds or Public Law 106-393) which became law on October 30, 2000. This law provides counties and schools in rural areas of our nation with much needed revenue in lieu of declining O & C and Forest Service receipts. For Jackson County, **\$23,037,115** will be available for 2006-2007.

The funds are distributed in the recommended budget as follows:

General Fund	\$15,326,980
Road Fund	4,008,223
Subtotal	19,335,203
Title II	1,850,956
Title III	1,850,956
Grand Total	\$23,037,115

These funds may be used for the general operations of the county and are recorded in the general fund and the road fund where O & C and Forest Service timber receipts were previously recorded. These funds are available through fiscal year 2006-2007. Continuation of this funding will require Congressional action. Title III funds are limited to forest and forest interface projects. Title III projects for 2006-2007 have not yet been identified. Title II funds are retained by federal agencies for forest related projects and are not received by the county. They are included in this budget only for accounting requirements.

If these funds were not available and citizens desired to retain the services provided by them, additional taxes in the amount of \$1.85 on top of the \$2.0099 per \$1,000 of assessed valuation paid by property owners would be required.

The Board of Commissioners is committed to every possible effort through Congress to seek continuation of these funds.

A detailed table of projected federal revenues through 2006-2007 is included in Appendix B.

Property Taxes and Debt Limitations

The county is subject to a number of property tax and debt limitations imposed by Oregon law. A complete schedule of these limitations is found in Appendix C.

Debt Service

Information specific to debt and planned projects is included in Appendix D.

Rainy Day Fund

Because of the distinct potential for loss of federal funds, the Budget Committee directed that a rainy day fund be established for the general fund. For fiscal year 2003-2004, \$5.8 million was recommended for the total rainy day fund. The Budget Committee added nearly one million dollars for an adopted total of \$6.7 million. For fiscal year 2004-2005, \$10.7 million was adopted. For 2005-2006, \$21,471,246 was adopted. For 2006-2007, \$23,971,246 is recommended.

The significant recommended addition to the rainy day fund is the result of the sale of county owned property at the south Gateway, resulting in one time revenue in the amount of \$1,681,599 and careful spending on the part of county department directors who have been preparing for the potential end of federal funding for many years.

Special Service Districts

The library department is considering forming a special district and seeking funding. If the Board of Commissioners approves, and voters are asked to form and fund a district, it would most likely occur at the November 2006 election. Should the library district be successful, more than \$7,993,870 would be removed from the general fund, thus reducing the demands on the general fund that cannot be met.

Should the Board approve placing this matter on the ballot and the library is not successful, it is recommended the budget committee reconvene to consider further action.

Fiscal Policies

A complete list of adopted fiscal policies that have been applied to this budget are found in the final budget document.

This budget seeks to build the county's rainy day fund to the maximum extent possible in the face of possible loss of federal funds. Overall, the major guiding financial factor in this recommended budget is sustainability of the revenue to support the budget request.

Short Term Financial and Other Initiatives that Impact the Recommended Budget

There are a number of factors affecting the recommended budget for 2006-2007. Some may continue beyond 2006-2007. However, they are presented here as factors with a direct impact on this recommended budget.

PERS

The future of PERS and its cost to employers remains clouded by a number of lawsuits that have yet to be resolved. The county continues to expense against payroll for reserve funds that can be used to pay off liabilities that may arise from adverse decisions in these lawsuits.

PERS adjusts employer rates biannually, so the county's PERS expense for 2006-2007 is unchanged from 2005-2006, at 26.99 percent for general service employees and 30.19 percent for sworn law enforcement personnel. The PERS Board of Directors recently voted to use a portion of its reserves to offset employer costs, however any savings resulting from this move will not be seen until rates are adjusted for 2007-2008.

The 2003 Legislature created a new and separate retirement program, the Oregon Public Service Retirement Program (OPSRP), for employees hired after August 1, 2003. OPSRP functions like a 401k program, with employers contributing a fixed percentage of payroll and the employee contributing 6 percent of salary to a tax-protected retirement account that does not offer a defined benefit. Under our collective bargaining agreements, the county pays the employer rate as well as the employee contribution. Jackson County's OPSRP rate for regular general service employees is 15.62 percent, and 19.23 percent for sworn Sheriff's personnel.

Self-Insurance

A new cost allocation methodology introduced in 2005-2006 was intended, among other things, to stabilize the self-insurance fund and to eliminate the significant fluctuations in self-insurance chargebacks to operating departments. This new methodology has exactly that effect in the recommended budget. Most county departments will see no change in their chargebacks next year, although a few will see a slight increase resulting from vehicle damage claims, which are billed to departments on a pass-through basis.

Self-insurance reserves are strong, thanks to a higher-than-budgeted beginning fund balance in the current fiscal year. This should allow the self-insurance fund to make no charges to departments in 2007-2008 while maintaining reserves at actuarially acceptable levels.

Contingency

The 2006-2007 general fund budget includes a contingency in the amount of \$200,000. The contingency consists of one-time funds not available on a continuing basis. The contingency is included in the fiduciary portion of the general fund budget.

Cash Carry Forward

Each year the county carries forward funds necessary to meet cash flow projections until federal receipts and property tax payments are received. Those funds are included in the ending fund balance in the amount of \$9,769,252.

General Cost Increases

It was assumed net costs would increase by approximately 5 percent in 2006-2007, down from 9.3 percent in 2005-2006. This reflects cost increases of 13 percent, offset by expected revenue increases of 3.5 percent.

For 2006-2007, 3.24 percent has been included for OPEU salaries, the county's largest union. OPEU has a three year agreement in place.

For managers' salaries, 3.24 percent was included in the budget. For elected officials and elected department heads, 3.24 percent has been included. This information was included in the budget instructions provided to all county departments.

Significant Departmental and Fund Highlights and Issues for 2006-2007

Airport

General

The airport is an enterprise fund.

Capital Improvements

The airport is planning a major terminal replacement and renovation. This project, estimated to cost \$35 million over four years, will provide new passenger facilities. The Board of Commissioners approved utilizing a “design/build” approach to the project, which would have resulted in a larger terminal at less cost than a traditional “low bid” approach. The Federal Aviation Administration, however would only accept a traditional “low bid” which has slowed the project by several months.

In March 2005, Senators Gordon Smith and Ron Wyden announced that federal discretionary funds would be available to assist with the terminal project.

In addition to the terminal project, renovation is nearly complete for the apron near the general aviation section of the airport. This project is being funded by federal grants and passenger facility fees.

It is anticipated the county will initiate the process revenue bonds for the project in late summer 2006.

Assessment

General

Assessment is part of the county’s general fund.

The assessment department underwent a county internal audit as well as an audit by the state. The state has directed the county begin using the “recalculation” method to value property for tax purposes. This method should have the effect of increasing tax revenues to all taxing districts (except schools that are under a different formula) as long as the economy remains strong. The county audit recommended adding two appraisers and an office assistant. The county auditor’s recommendation is included in the recommended budget. Additional property tax revenue is also included in the recommended budget. Both the assessor and the county administrator will carefully monitor the revenue as the result of increased attention to property taxes.

Development Services

General

Development Services, formerly a part of Roads, Parks and Planning, was created as the result of an audit that recommended the county recognize the complexity of land use planning matters and create a separate department. While this budget recognizes the department as a separate entity as of July 1, 2006, it began operations in February 2006. A number of additional staff and services were recommended by the auditors and accepted by the Board of Commissioners. The recommended budget includes funding these positions and services through the community development fee.

Expo

General

The Expo and Fairgrounds is an enterprise fund.

Capital Improvements

The Expo and Fairgrounds completed the amphitheater. It did open in time for the 2005 county fair. The county has contributed \$1.8 million to the project including an early contribution of \$100,000.

Finance System

General

The accounting program of the finance department is part of the county's internal service fund.

As of July 1, 2003, the county reserved \$3.3 million in one-time revenues to install a new financial system. Contracts with JD Edwards and its partner AMX were executed in 2003. The company is now owned by Oracle. The estimated final cost for installation is \$3.4 million. The finance portion is installed as is payroll. Human resources and budget are currently being installed. All major system changes require tenacity and patience. The learning curve can be slow. However, there are already improvements to the quality and timeliness of financial information. The cost to maintain the system is less than that of some county systems that affect only a single function.

The recommended budget includes transferring an IT position to that of E1 trainer. The trainer will provide much needed assistance to all departments as we learn this complex system.

Justice Court

General

The justice court is part of the county's general fund.

At its meeting of March 31, 2004, the Board of Commissioners approved adding a second justice court to Jackson County for the purpose of receiving traffic citations. It was determined the existing justice court could not handle additional cases that will come to the court as the result of the sheriff's increased traffic patrols. Therefore, a second justice court was added.

During 2005, the justice of the peace for the northern jurisdiction resigned. The Board of Commissioners took immediate action to combine both courts into a single county-wide justice court.

The recommended budget includes supplemental funding for the traffic court which has not yet produced anticipated revenue.

Library

General

The library is part of the county's general fund. Debt service is included in the appropriate debt service fund.

The new Central Point library opened in 2005-2006, as part of the system-wide library construction and remodeling project approved by voters in 2000. Construction is underway or

will soon begin for new libraries in Phoenix, Talent, and Shady Cove, and remodeling plans are being reviewed for the Butte Falls library. These four libraries represent the third and final tier of the library construction program, which should be complete by the end of calendar year 2006 or early 2007.

In early 2006, the county “re-funded” some library bonds. (Series 2000). The result of this re-funding is a savings to taxpayers in interest payments of just over \$2,000,000 during the 15 year life of the bonds.

Sheriff

General

The sheriff’s department is part of the county’s general fund.

The sheriff’s budget includes \$867,530 as expenses for a new traffic safety team. Jackson County has one of the highest traffic death rates in the state of Oregon. To reduce death and injuries, the sheriff has proposed adding traffic officers. Citations issued by the traffic officers will be processed through the county’s new southern justice court. It is anticipated fine revenue will be sufficient to cover the cost of the traffic officers and the court. However, revenues are not yet sufficient to maintain the costs of traffic officers and the share of fines attributable to provide security in the adult court building. The court security fund has been fully supporting the cost of security in the justice building.

White City Enhanced Law Enforcement District

The district contracts with the Jackson County’s Sheriff’s Department to provide law enforcement in White City.

Finances are tight for the district because of the presence of the urban renewal program that collects the increment for infrastructure and development improvements in White City. Code enforcement was reduced from a ½ time to a ¼ time position.

Processes Used to Develop the Budget and Organization

The budget format was changed extensively in 2003-2004 to be helpful to the Budget Committee and to citizens. The 2006-2007 budget reflects an organizational structure that explains the complexities of county government. The organizational chart as a whole can be found on page 20. For each county department there is a tab. All programs for each department are found behind the tab regardless of the various categories and programs within the department.

The service level accomplishments for the prior year and plans for the future year are included with each program. This section is intended to give the reader specific information about what is to be provided to the public, why and what the program expects to face in the next year. The critical decisions of the Budget Committee will surround services to be provided.

For each program, the budget reflects a statement of purpose, measures of effectiveness, and significant issues facing the department. Additionally, financial information is included.

Although the county has adopted a program budget format, the state of Oregon requires retention of a line-item budget format. Financial tables designed to meet the state’s requirements are included in this document in the section labeled “appropriations.”

The budget is organized around the county's mission, the functional areas established for the county, and the twelve goals identified by county employees. The county's mission statement and goals and objectives are described elsewhere in this message.

Throughout the budget, the specific goals that each program strives to meet are identified in a description of the particular program. The narrative for each program includes a statement of the revenues generated by specific programs.

Pursuant to Oregon law, the budget is reviewed and approved by a budget committee consisting of the three members of the Board of Commissioners and three lay members. Budget Committee review is scheduled for April 18 and 20, 2006. During each day of presentation and review, there will be scheduled opportunities for public input. Budget deliberations are scheduled to begin at the conclusion of the reviews on April 20, 2006. All Budget Committee meetings are open to the public.

The lay members of the Budget Committee serve as the county's elected official salary committee. That committee will meet April 18, 2006, at noon. At that meeting, they will develop a recommendation for elected officials' salaries and present it to the full Budget Committee for action. Following approval and publication of the Budget Committee's recommended budget, the Board of Commissioners is tentatively scheduled to adopt the budget on June 7, 2006. The Board of Commissioners also meets in public session and encourages public input. The Board of Commissioners is authorized to amend expenditures in the Budget Committee's approved budget, up to 10 percent of any fund, without reconvening the Budget Committee.

Conclusion

This budget has been prepared in a time of extraordinary financial stress for the state and local governments. County governments, which must provide state services at the local level—many of them without adequate funding from the state or entirely with local funding—face particularly difficult choices. There are many people whose lives will be directly impacted by the budget choices we must make. Ever mindful of that, we have worked hard to prepare a budget that preserves direct service to the greatest extent possible and to craft long-term strategies that will allow us to do so in the future. The citizen members of the Budget Committee are deeply thanked for their time, concern, and constructive insights. I wish also to acknowledge the Board of Commissioners' support and leadership in these most challenging times.

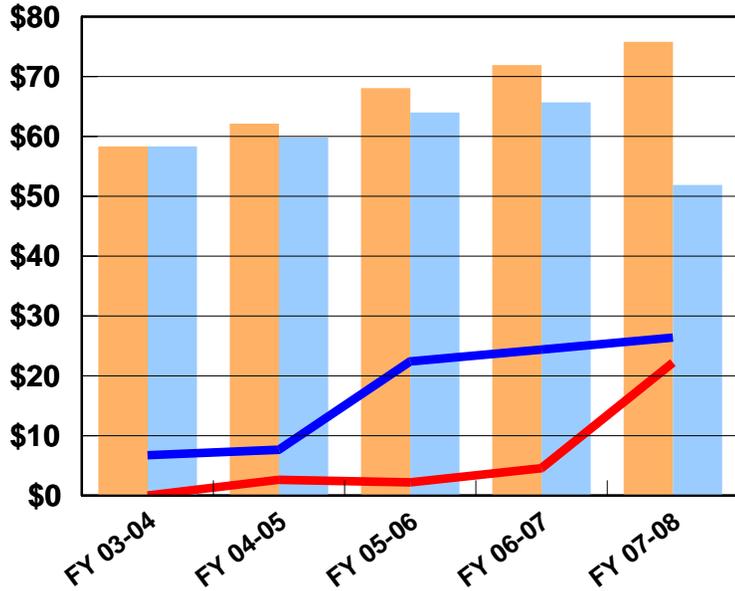

Respectfully submitted,

Susan E. Slack

County Administrator

General Fund Projections

Federal Timber Receipts Terminated

Federal Timber Receipts Extended

In Millions
■ Expenditures ■ Revenues — Rainy Day — Deficit

Expenditures = Total general fund less contingency, reserve and ending fund balance.

Revenues = Total general fund less interest income and beginning fund balance.

Rainy Day = General fund ending fund balance less amount reserved for cash flow requirements.

Deficit = Difference between revenues and expenditures, costs to add jail beds and additions to district attorney's office plus the difference in federal (PL 106-393) funding

Projections are based on current data and policy direction from the budget committee without modification to balance future year budgets.

Appendix B Federal Funding Schedule

Year	Former O&C Receipt Funding	Public Law 106-393 or RSCDA
1999-2000	\$10,141,351	\$0
2000-2001	\$9,706,721	\$0
2001-2002	\$ 9,272,092	100% -\$17,037,734 85% - \$14,482,074
2002-2003	\$8,837,463	100% -\$17,174,602 85% - \$14,598,412
2003-2004	\$ 8,402,834	100% -\$17,308,562 85% -14,712,278
2004-2005	Former timber receipts would have ceased completely or dropped to share of actual timber harvested.	100% -\$17,443,569 85% -\$14,827,034
2005-2006	Former timber receipts would have ceased completely or dropped to share of actual timber harvested.	100% - \$17,817,925 85% - \$15,145,237
2006-2007	Former timber receipts would have ceased completely or dropped to share of actual timber harvested.	100% - \$18,031,741 85% - \$15,326,980
2007-2008	Former timber receipts would have ceased completely or dropped to share of actual timber harvested.	\$? Federal legislation expires unless renewed by Congress.

Appendix C

Property Taxes and Debt Limitations

Property Taxes

The county will certify its state-provided permanent tax rate in the amount of \$2.0099 per thousand dollars of assessed valuation for 2005-2006. The total amount of property tax the county expects to levy on behalf of the general fund is \$26,495,160. Of this amount, the county expects to collect 95 percent for a net of \$25,170,402. This amount reflects the current assessed value plus 5.11 percent growth in the assessed value.

Property taxes collected for the White City Enhanced Law Enforcement District are collected for the district and then turned over to the county. They are budgeted as a contracted service revenue in the sheriff's budget.

Property Tax Limitations

In 1997, voters approved a constitutional amendment known as Measure 50. Measure 50 established a permanent tax rate limit for all local governments. Jackson County's rate is \$2.0099 per thousand of calculated maximum assessed value. The maximum assessed value is approximately 56.57 percent of real market value. This permanent rate is expected to generate approximately \$25 million for county services. This rate can never be changed according to the Oregon constitution.

Other limits were imposed by Measure 5, another constitutional amendment approved by Oregon voters. This measure limits all local governments to a combined total of \$10 per thousand real market value. Schools were limited to \$5 per thousand.

Debt Limitations

The county has a bonded debt limit of 2 percent of the real market value of all taxable property in the county. The county's bonded debt for the library and juvenile projects is only 9.4 percent of the 2 percent limitation.

Appendix D Debt Service

Airport

Debt service for the terminal project is found on page 91 of the budget. The budget for 2005-2006 included \$235,000 for principal and \$850,000 for interest for the first year as debt service. Due to construction delays previously described, bonds were not issued. The budget anticipates bonds will be sold in 2006-2007 in the amount of \$7,000,000. Other funding options including a bank line of credit are being considered. This project is financed by federal grants and passenger facility charges. Each ticket purchased by air travelers includes \$4.50 that reverts to the airport to be set aside for passenger facilities. Most airports in the U.S. utilize the PFC opportunity with ticket purchases.

Juvenile Center

Debt service for the juvenile center appears on page 240 of the budget. In November 2000, voters approved bonds in the amount of \$16,500,000 to construct a new juvenile center. The entire authorized amount was sold June 5, 2001. The 2006-2007 budget includes debt service in the amount of \$2,081,100. The bonds were sold at 4.18 percent to ABN AMRO Financial Services, Inc. The final payment will be made in 2011.

The county opened all 40 detention beds in order to take advantage of a \$4 million federal grant for the purpose of constructing the additional beds. The county is using the proceeds of the grant along with proceeds from the sale of the old facility to defease the bond measure approved by voters to construct the new facility.

Library

Debt service for the library appears on page 243 of the budget. In May 2000, voters approved bonds in the amount of \$38,940,000 to remodel or construct new libraries at 14 of the county's library branches. On August 8, 2000, the initial sale of \$20,365,000 was completed. Bonds were refinanced through Seattle Northwest Securities at 4.07 percent interest on March 21, 2006. The final sale occurred on December 19, 2002. The bonds were sold at 4.37 percent interest and were purchased by Salomon Smith Barney.

The 2006-2007 budget includes debt service payments in the amount of \$1,467,015 for the first and \$1,599,775 for the second library bond for principal and interest. The bonds will be paid in 20 years. Final payment on both issues will be made in 2020.

Before the initial sale took place, the county estimated a tax levy large enough to cover the debt service on the entire \$38.9 million bond amount. When the first sale took place it was determined to sell only part of the bonds to avoid unnecessary arbitrage costs. As a result, the county over-collected property taxes in the amount of \$973,298. The amount that was over collected will be carried into 2006-2007. It will be held in a reserve to call bonds with the highest interest rate in ten years and will result in a reduction in tax payments to be collected during 2010-2011. Interest income from the reserve will be used to offset the property tax until then.

This page is for notes.

BUDGET SUMMARY

BUDGET PREPARATION

2006-2007 Calendar

Planning

- **December 2005** - Budget Preparation Manual distributed to departments

Preparation

- **December 22, 2005 - February 24, 2006** - Budget submissions due from departments

Review

- **December 29, 2005 - March 7, 2006** - Administrative staff reviews department requested budgets
- **March 14, 16, and 17, 2006** - County Administrator reviews individual department budgets with full budget committee, the department director, and administrative staff

Approval

- **April 11, 18 and 20, 2006** - Presentation of recommended budget - public hearings

Adoption

- **June 7, 2006** - Board of Commissioners' public hearing to adopt 2005-2006 budget

Preliminary budget materials were distributed to the department directors and program managers in November 2005. Through a series of the department directors' meetings, budget targets were developed for all departments. Departments were then asked to identify program needs in the categories of personal services, materials and services, capital outlay, and other items necessary to maintain existing programs given the limited resources. Departmental budget requests were submitted to the county administrator's office for review and analysis beginning in December 2005. All departmental budget requests were evaluated in terms of the program's goal, outcomes under the four criteria, and the necessity of these goals toward achieving the goals and the mission statement of the county. Individual meetings were held between staff and department directors to discuss the department's request, establish priorities, and evaluate the effectiveness of the proposed programs. From these discussions, the staff prepared the recommended appropriation levels and revenue estimates and commented on changes in the programs and staffing levels.

The county administrator's formal review was held on March 14, 16, and 17, 2006. These meetings were held with the department directors and program directors, the county administrator, and the full Budget Committee. The county administrator's recommended budget was prepared and presented to the public on April 11, 18 and 20, 2006. The recommended budget was printed and open to public inspection. Notice for the meetings was published in the *Mail Tribune* on March 28 and April 4, 2006. Following its adoption by the Budget Committee, the budget was published in the *Mail Tribune* on May 31, 2006, indicating the time and place of the budget hearing—as required by Oregon Revised Statutes. On June 7, 2006, following the public hearing, the Board of Commissioners adopted the budget for fiscal year 2006-2007. It is important to note that this budget was prepared according to, and in compliance with, generally accepted accounting principles (GAAP) for modified accrual accounting. (**Note:** The budget document was prepared prior to the end of the fiscal year. Therefore, revised budget numbers may vary due to Board action after June 7, 2006. All prior year actual information is meant for comparison only. This information may be inconsistent with the audited numbers due to county reorganization; history was moved with the program in order to give the reader a sense of comparison for prior years.)

EXPENDITURE CONTROLS

While the budget establishes appropriation levels, specific procedures for controlling expenditures continue to be developed, expanded, and refined to ensure that day-to-day execution is in compliance with the adopted budget program. Department heads are responsible for reviewing all requests for expenditures to determine compliance with the adopted budget. The budget is adopted at the broadest possible level to give department heads maximum flexibility to meet unforeseen program needs. The administrative services department and county administrator's office perform an evaluation role.

In those instances where an expenditure is deemed necessary and desirable, but was not anticipated in the adopted budget program, a program adjustment may be made in accordance with the Board of Commissioners' established policy and state law. Under most conditions, an adjustment can be made within the program's own budget. In other situations, however, it may be necessary to transfer funds from another program's appropriation or to process a supplemental budget.

During the year, many changes can occur. A supplemental budget process is provided in Oregon law. If the change is less than 10 percent of the fund total, the Board of Commissioners can adopt a supplemental budget at a regular meeting with one public notice listing the amount of change to each fund. If the change is more than 10 percent, a more extensive notice must be published and the Budget Committee convened if ten or more citizens request a budget committee meeting. Publications include the source of revenue and the proposed expenditure.

These budget control procedures are important management tools that allow more effective use of the dollars spent in the total county program. As a necessary by-product, these procedures also ensure compliance with state financial statutes and policies of the Board of Commissioners, Budget Committee, and county charter.

FISCAL POLICIES

Revenue Policies

- ✓ Jackson County will strive for a diversified revenue base to ensure the stability of the county.

Rationale: Many of the county's services are highly dependent upon O & C replacement revenue. Since this source of revenue is stable until FY 2006-2007, the amount of increase (1/2 of the rural consumer price index) is not going to keep pace with service demands for expenditures.

- ✓ The county treasurer will keep all available funds invested at the highest allowable rates using instruments of investment allowed by state law while maintaining preservation of capital and necessary liquidity.

Rationale: The investment objectives for the county treasurer are safety (preservation of capital), liquidity (availability of funds), and yield (rate of return), in that order. Highest allowable rates are to be obtained, within these objectives, by investing in

investments permitted by Oregon Revised Statute (ORS) Chapter 294. The county is limited to investing in government agencies, treasuries, bankers' acceptances, certificates of deposit, and commercial paper. Investments are purchased for a period not to exceed thirty-six months.

- ✓ The county will charge user fees wherever possible to recoup all costs associated with service delivery.

Rationale: If an individual receives sole benefit from a service provided by the county, that individual should bear the full cost of the service. If the requested service benefits the general public in some proportion, that service should be subsidized by the public to that proportion.

Operating Policies

- ✓ Current operating expenditures will be financed by current operating revenues or from existing reserves.

Rationale: This policy is meant to assure that the county will be able to pay its obligation.

- ✓ The county will attempt to cover all grant-related administrative expenses through grant revenues.

Rationale: This policy is meant to assure that the county will be able to provide oversight and audit requirements associated with providing grant funded services.

- ✓ The county will strive to show the true cost of providing services.

Rationale: True costs of services are one of the best measures of efficiency. This policy is meant to help the county achieve maximum efficiency.

- ✓ Operating funds will include a reserve in excess of cash flow needs of no less than two months operating expenditures.

Rationale: This policy is meant to protect against the need to reduce service levels or to raise taxes or fees due to temporary revenue shortfalls or other emergencies.

Capital Policy

- ✓ Capital projects will be paid off completely during the project's expected useful life. Capital projects for this fiscal year (2006-2007) are included in the capital projects section of the budget.

Rationale: This policy is meant to assure that the county does not pay more in interest than is absolutely necessary and that the county is not left paying for equipment that is no longer useful.

Reserve Policy

- ✓ Sufficient fund balance must be maintained to cover operating cash flows from July 1 to receipt of O & C replacement payments expected each October.

Rationale: This policy is meant to assure that the county is always able to meet its financial obligations without incurring expensive, short-term debt.

COUNTY FUNDS

Public budgets are often divided into a number of funds that record revenues and expenditures for the purposes of controlling and accounting for specific activities. This method of organizing a governmental entity's budget is useful because it provides for controlling resources, measuring compliance, and produces operating statements that reflect the receipt and the related expenditure of public dollars.

The general fund is the largest fund within the Jackson County budget and is appropriately titled because most of the "general" operations of Jackson County are included in it. The general fund supports law enforcement activities, libraries, land use planning, and tax collection, among other services. Receipts from the county's tax base are included in the general fund in addition to the county's primary source of funding, O & C timber replacement receipts.

OTHER FUNDS

In addition to the general fund, Jackson County has a number of other funds, each of which supports specific activities. Most other county funds are self-supporting; that is, revenues are earned through the provision of service and require little or no contribution from the general fund. Sources of funding vary. For example, the parks and recreation enterprise fund and the exposition park fund depend on user fees and activity receipts; the airport fund relies on Federal Aviation Administration (FAA) grants and landing fees; and the road fund relies on a gas tax and forest replacement receipts for its funding. Funds, other than the general fund, that Jackson County uses include internal service funds, enterprise funds, trust and agency funds, special revenue funds, capital project funds, and special assessment funds.

Enterprise Funds

Enterprise funds account for "business-type" activities. Activities within these funds are supported largely by user charges, a method by which the county may become more reliant on non-tax dollars for the support of specific activities. However, some activity areas have not yet become financially independent and are supplemented through contributions from the general fund. Enterprise funds include the airport enterprise fund, exposition park fund, and recreation enterprise fund.

Internal Service Funds

Internal service funds are similar to enterprise funds except that services are not rendered to the general public, but serve Jackson County's other departments and activities. Internal service funds rely on revenues acquired by charging individual departments for services rendered.

These funds are self-insurance, motor pool, and other central services. This type of fund is used to help account for costs of services provided to the departments and to encourage accounting for those uses.

Trust and Agency Funds

Trust and agency funds account for assets held for county and noncounty organizations and for non-tax resources held by Jackson County under specific trust instructions. Taxes collected for and later distributed to other governmental units are accounted for in these funds. The Ted Gerlock, D. Houlihan, and E. J. Smith accounts are held, and interest income is used for library use.

Special Revenue Funds

Special revenue funds account for the receipts from revenue sources that have been earmarked for specific activities. Special revenue funds include: general road, health and human services, county schools, county trails, liquor enforcement, law library, solid waste management, court security, and the White City Enhanced Law Enforcement District.

Capital Projects Fund

Capital projects funds account for the acquisition of capital facilities, which may be financed out of bond issues, grants, or transfers from other funds. This type of fund is limited to accounting for the receipts and expenditures on capital projects. Any bond issues involved will be serviced and repaid by the debt service funds. An example of this type of fund is the city/county arterial fund that was specifically established for the improvement of city streets currently under the county's jurisdiction. Others include systems development, Greenway, capital projects, street improvement, and juvenile special reserve.

Debt Service Funds

Debt service funds account for the financing of the interest and retirement of the principal of general, long-term debt. Jackson County issued debt for the construction of airport hangars, libraries, and a new juvenile facility.

DIFFERENCES BETWEEN “ACTUAL” AND “BUDGETED” NUMBERS

Throughout the budget document there is a difference between the “actuals” (FY 2002-2003 to FY 2004-2005) and “budgeted” (FY 2005-2006 and FY 2006-2007) amounts. There are two main reasons for the differences: 1) It is against the law to over expend the budget, so the budgeted amount will always be higher than the actual expenditure; 2) The differences between the basis of accounting and the basis of budgeting.

BASIS OF ACCOUNTING

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types and

expendable trust funds are accounted for using a current financial resources measurement focus.

The modified accrual basis of accounting is used by all governmental fund types, expendable trust funds, and agency funds. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). “Measurable” means the amount of the transaction can be determined, and “available” means collection within the current period or soon enough thereafter to be used to pay liabilities of the current period. For example, the county considers property taxes as “available” if they are collected within 60 days after year end and “measurable” because they are determined on the basis of a tax rate and an assessed valuation, both determined in advanced. Expenditures are recorded when the related fund liability is incurred. All transactions occurring in the governmental, expendable trust, and agency funds are recorded using the modified accrual basis of accounting except for:

- ✓ Interfund transactions for goods and services that are recorded on the accrual basis;
- ✓ Revenues from grants that are recorded as earned; and
- ✓ Principal and interest on general, long-term debt that is recorded when due.

All proprietary fund types, nonexpendable trust funds, and pension trust funds are accounted for on a flow of economic resources measurement focus. The accrual basis of accounting is used by proprietary fund types, pension trust funds, and nonexpendable trust funds. Under this method, revenues are recorded when earned, and expenses are recorded at the time liabilities are incurred.

The basis of accounting desired above is in accordance with generally accepted accounting principles (GAAP).

BASIS OF BUDGETING

In compliance with Oregon budget law, all funds are budgeted using the current financial resources measurement focus. For Jackson County, this means that the modified accrual basis of accounting is used for all funds. Differences between the basis of accounting and budgeting are most notable in the treatment of beginning fund balances for all funds, and the treatment of capital outlays, vacation accruals and debt service in proprietary funds.

Beginning Fund Balance

Because Oregon budget law requires local governments to budget all available resources, beginning fund balances are budgeted as revenues (resources) every fiscal year. What distinguishes budgeting from accounting is that fund balances are not classified as revenues but either as fund balance or fund equity depending on the fund type.

Capital Outlay in Enterprise Funds

Oregon budget law requires local government to budget estimated expenditures for capital outlay. Capital outlay is defined as “expenditures that result in the acquisition of or addition to fixed assets.” Fixed assets are defined as “assets of a long-term character that are intended to continue to be held or used, such as land, buildings, machinery, furniture, or other equipment.” Depreciation is not budgeted. When capital outlay is expensed in an enterprise fund, the entry is reversed at year end and depreciation is posted.

Vacation Benefits

Vacation benefits are budgeted each year based on projected vacation earned but not taken. The accounting treatment of vacation is to expense earned vacation and post the corresponding amount to a liability account in each fund. As vacation is used, the first hour of that employee’s accrued vacation in the liability account is reversed, and the difference between their current wage and the value of the benefit when taken is posted as expenditure against the budget. The accounting treatment for proprietary funds includes a year-end entry to increase the liability to reflect all accrued vacation at current wages.

Debt Service

Oregon budget law requires that, “Debt service (expenditure) estimates shall include separate amounts for principal and interest of each bond issue in each fund.” However, since the principal portion of the debt is established as a liability when the proceeds of the bond are received (depending on the fund type), only the interest portion of the debt is posted as an expense when the debt payment is made to the creditor.

The County

The current population is 194,515—an increase of 3,315 in 2004 with an average growth rate of almost 2 percent a year for the past ten years.

Jackson County, Oregon, is arguably one of the most beautiful and livable areas of the Pacific Northwest—if not the country. Located in Southern Oregon, Jackson County borders California to the south and is surrounded by the majestic Cascade and Siskiyou Mountain ranges. It is centrally-located along Interstate 5 between Portland and San Francisco, and just hours from the Pacific Ocean coastline. Jackson County offers breathtaking scenery in every direction, a growing economic base, moderate weather, and superior quality of life.

Population/Cities

The sixth largest county in the state of Oregon in population, Jackson County covers more than 2,801 square miles. The current population is 194,515—an increase of 3,315 in 2004 with an average growth rate of almost 2 percent a year for the past ten years. Approximately 69 percent of Jackson County residents live in the eleven incorporated cities, which include Ashland, Butte Falls, Central Point, Eagle Point, Gold Hill, Jacksonville, Medford, Phoenix, Rogue River, Shady Cove, and Talent. The remainder live in the unincorporated areas of the county.

Medford, population estimated at 70,855, is the largest city within Jackson County and serves as its county seat. Medford is known throughout the country and the world for its pear orchards and is home to Harry & David's and Jackson & Perkins, one of the world's largest shippers of fruit, food gifts, and roses. Medford is a popular location for visitors who wish to access the nearby recreation areas.

The second largest city in Jackson County, Ashland (population 20,880), is home of the internationally famous Oregon Shakespeare Festival which runs from mid-February through October and sells more than 350,000 tickets a year. Ashland is also the location of Southern Oregon University. Another Jackson County town known for tourism is Jacksonville, located just five miles west of Medford. The entire city is on the National Historic Registry and is home to the Peter Britt Festivals, one of the largest summer music festivals in the United States.

Economy

The economic base in Jackson County is varied and growing. Government, including education, Bureau of Land Management, and Forest Services, is the largest employer in the county—not surprising for a county that is 52 percent owned by the federal government.

Once known for timber, this area has changed to reflect a more service-oriented economic base. Today, health care constitutes the largest, single group of employment in the private sector. Jackson County boasts several major and community medical centers and physician groups, with the Asante Health System being the largest, single employer. Retail, including the mail order business which includes Harry and David's, is the second largest employer followed by tourism, agriculture, manufacturing, and timber.

Visitors, as well as residents, enjoy a variety of unique, local shops, art galleries, book and retail stores—all offering no state sales tax.

The total budget for Jackson County in 2006-2007 is \$287,264,942.

Jackson County is also a popular retirement destination. The Rogue Valley Manor, which is perched atop a hillside overlooking the valley, is always listed in the top ten of national retirement communities.

Recreation

Southern Oregon offers an almost limitless amount of recreation and tourism opportunities. Within and near Jackson County, you'll find many rivers, lakes, hiking and biking trails, waterfalls, golf courses, and mountains. Other nearby attractions include Crater Lake National Park, Mount Ashland Ski Resort, Mount Shasta Ski Resort, Oregon Caves, Rogue River National Forest and much, much more. Within an 80 mile radius of Medford, there are 153 stocked streams for fishing, 17 lakes, boating, rafting and fishing on the famous Rogue River, and hunting and camping in 56 forest camps.

The area also boasts numerous bed and breakfasts, restaurants, hotels, and theaters. Visitors, as well as residents, enjoy a variety of unique, local shops, art galleries, book and retail stores—all offering no state sales tax.

Quality of Life

While Jackson County has seen tremendous growth in the last 10-20 years, what residents prize most are the small-town values of their communities, along with the cultural diversity usually found in larger cities.

The county is blessed with moderate weather. Unlike many regions in Oregon, Jackson County only receives around 19 inches of rainfall a year. While the weather is mild—average temperature in January is 39.1° and 72.7° in July—there are four distinct seasons.

The area is served by the Jackson County International-Medford Airport, offering convenient and affordable travel on several major airlines.

The median home sales price in Jackson County was \$266,900 in 2005. In 2003 (the latest figure available), the median household income in Jackson County was \$36,670, and in 2004, the per capita income was \$28,531.

County Government

Jackson County government strives to provide outstanding public service. We have been on the cutting-edge of local governments with our efforts for strategic planning, award-winning financial planning, budgeting and record keeping, and citizen involvement. Our goal is to be the best county government in the United States.

We encourage all of our employees to treat every member of the public as a valued customer, and we believe our employees share a commitment to outstanding public service that is rare in government.

Jackson County aims for a less bureaucratic/more entrepreneurial, less tradition-bound/more flexible approach to government. We take pride in our work and are privileged to serve some of the friendliest, most unique and independent people in the United States.

Jackson County is governed by a three-member Board of Commissioners, serving four-year overlapping terms.

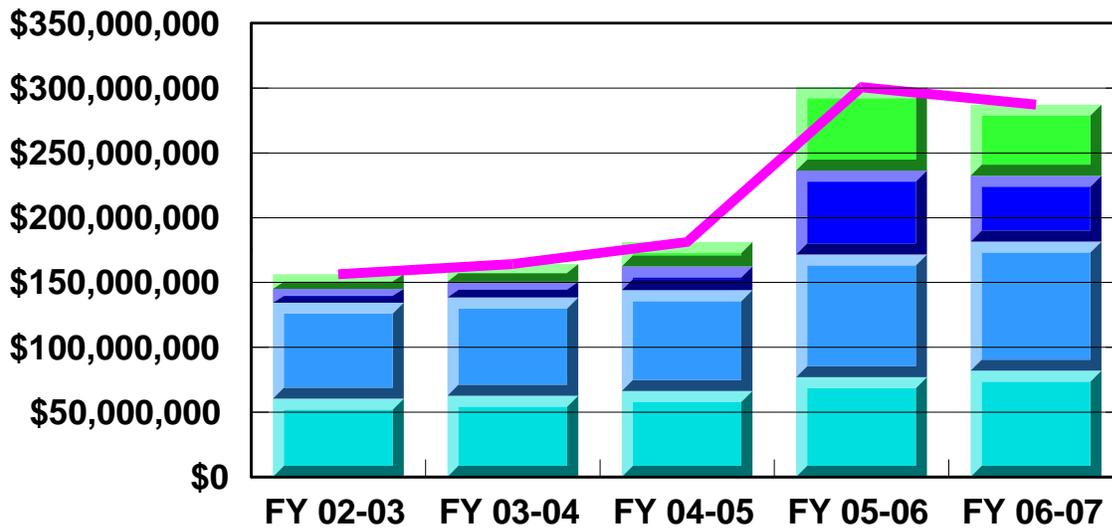

The County Administrator, a position created by ordinance, is appointed by and reports to the Board of Commissioners.

The total budget for Jackson County in 2006-2007 is \$287,264,942.

Numbers for FY 02-03 through FY 04-05 are actual revenues and expenditures. FY 05-06 represents the revised budget and FY 06-07 is the adopted budget. For an explanation of the differences between the actual expenditures and budgets, see the Differences Between "Actual" and "Budgeted" Numbers located in the Budget Summary section of this document on page 32.

The overall decrease in total county budget is due to the completion of several capital projects including libraries, a new juvenile facility and work being done on bridge replacements. For more information, see page 242 - Library Capital Projects-2nd Bond Issue; page 239 - Juvenile Capital Projects; and page 355 - Bridge Replacement.

EXPENDITURE SUMMARY EXPLANATION

This summary compares actual expenditures for fiscal year 2003-2004 against actual figures for fiscal year 2004-2005. It also compares budgeted figures for fiscal year 2005-2006 revised and fiscal year 2006-2007 recommended budgets. It would be inconsistent to compare actual numbers against budgeted numbers since Oregon law requires that each fund budget such items as unappropriated ending fund balance, which cannot be spent until the following fiscal year. The following is a general explanation of the percent change between the revised budget for fiscal year 2005-2006 and fiscal year 2006-2007 greater than or equal to 10 percent.

AIRPORT

- ◆ The increase of 33.79 percent is a result of the terminal construction project which began in March 2006.

ASSESSOR

- ◆ The increase of 17.73 percent is a result of increasing appraiser ad support staff FTEs.

BOARD OF COMMISSIONERS

- ◆ The increase of 12.5 percent is a result of increasing office staff FTE.

COUNTY ADMINISTRATION

- ◆ The increase of 21.39 percent is attributed to increased reserves in the self-insurance fund.

DEVELOPMENT SERVICES

- ◆ The increase of 16.41 percent is a result of several changes including adding FTE to the department as recommended by an external performance audit.

FIDUCIARY & SPECIAL FUNDS

- ◆ The decrease of 15.56 percent is a result of restructuring of county organization.

HEALTH & HUMAN SERVICES

- ◆ The increase of 10.60 percent is a result of a transfer from the health fund to a new health capital projects fund for a future construction project. This has the effect of counting \$2 million twice.

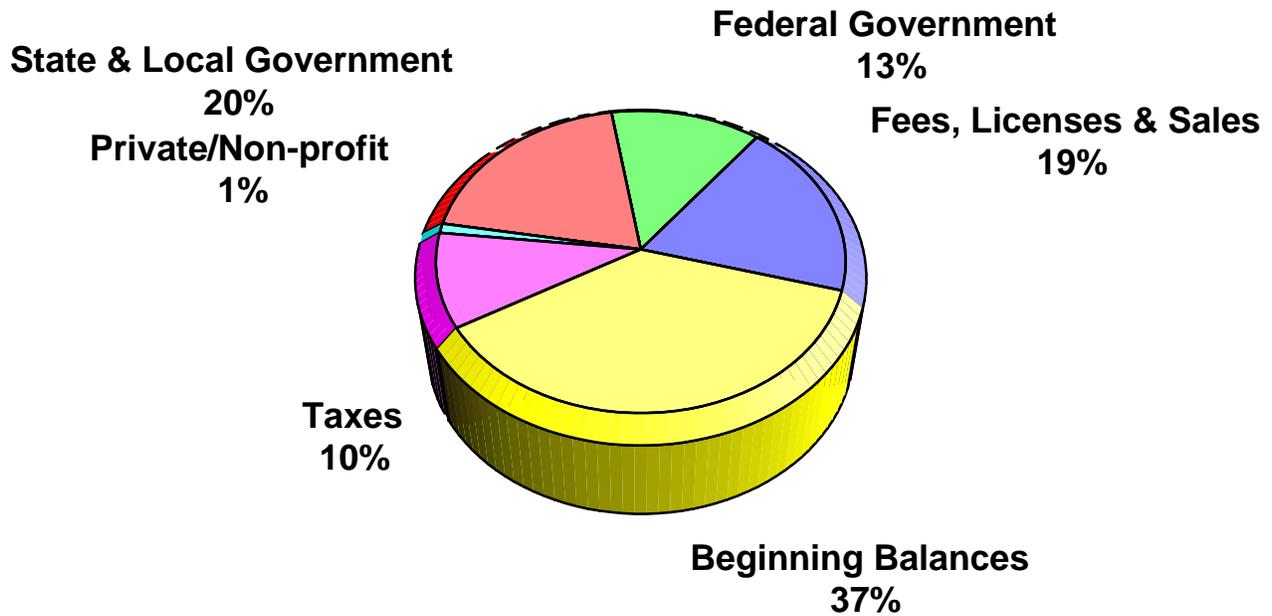

JUSTICE COURT DISTRICT

- ◆ The decrease of 17.84 percent is a result of greater than originally accounted for revenues in fiscal year 2005-2006.

ROADS & PARKS

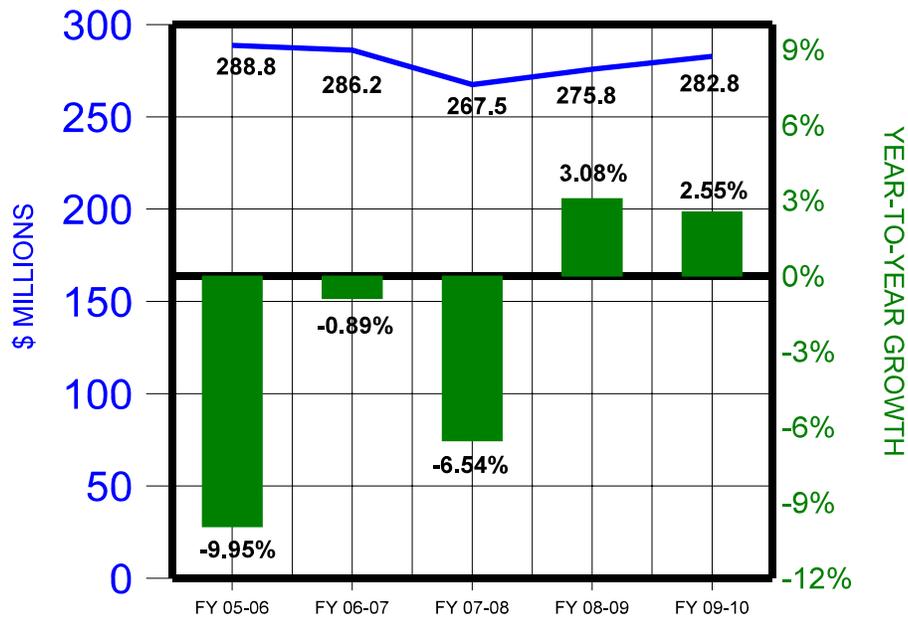

- ◆ The decrease of 32.16 percent is a result of completing bridge projects funded by a one time state grant received in fiscal year 2004-2005 totaling \$38 million.

REVENUE BY SOURCE FY 06-07

This graph shows revenues by major categories for the entire county. What follows is an explanation of these revenues by source and a projection to FY 2009-2010.

TOTAL COUNTY REVENUE FIVE-YEAR PROJECTION

The graph above shows a five-year projection of total county revenues from fiscal year 2005-2006 through fiscal year 2009-2010. The blue line on the graph signifies total revenue in millions of dollars. The green bars, on the other hand, show percent rate of growth between fiscal years. Revenue growth has been estimated conservatively based on the CPI. Many departments are working to develop additional revenue sources; however, because these sources are not a certainty at this time, they were not used for revenue projections.

Fiscal year 2006-2007 marks both the end of the library capital project fund due to estimated project completion and the ending of Public Law 106-393 (O & C). The loss of these revenues show in fiscal year 2007-2008.

The following is a description of the major categories of revenues included in the chart above. Additional information and graphics are included for those revenues preceded with an asterisk.

***Federal Government** - The major portion of this funding is Public Law 106-393 funds, or The Secure Rural Schools and Community Self-Determination Act of 2000 funds. These funds replace a revenue stream (O & C) set in place in 1916 when the county received logging revenue from federal lands once on the county tax rolls. This form of revenue is expected to increase by ½ of the urban CPI until FY 2006-2007 when Public Law 106-393 ends.

***State and Local Governments** - Except for capital project grants, the most significant portion of this revenue supports health and human services, primarily for mental health costs. The general road fund is the next most significant user of these funds in the form of gas taxes. Monies stemming from state gasoline taxes are dedicated for road improvements. The remaining revenues are scattered throughout the county to provide state-supported services.

Intrafund Charges - This source of revenue includes transfers that occur between funds and is used mostly for internal services and central service support. The growth rate for intrafund charges was set at 5 percent.

***Fees, Licenses, and Sales** - These are revenues the county receives for providing services to the general public. The Board of Commissioners, through public meetings, make decisions concerning what portion of the fees will be supported by county funds and what portion will be paid by those receiving the service. Currently, the planning and development programs are supported by fees for services. Parks programs also collect fees for park use, as does the airport for providing service to the air carriers, and health and human services for Title 19 (services to low income

patients paid for by the state). The five-year growth rate for this source of revenue was set at the urban CPI of 2.3 percent.

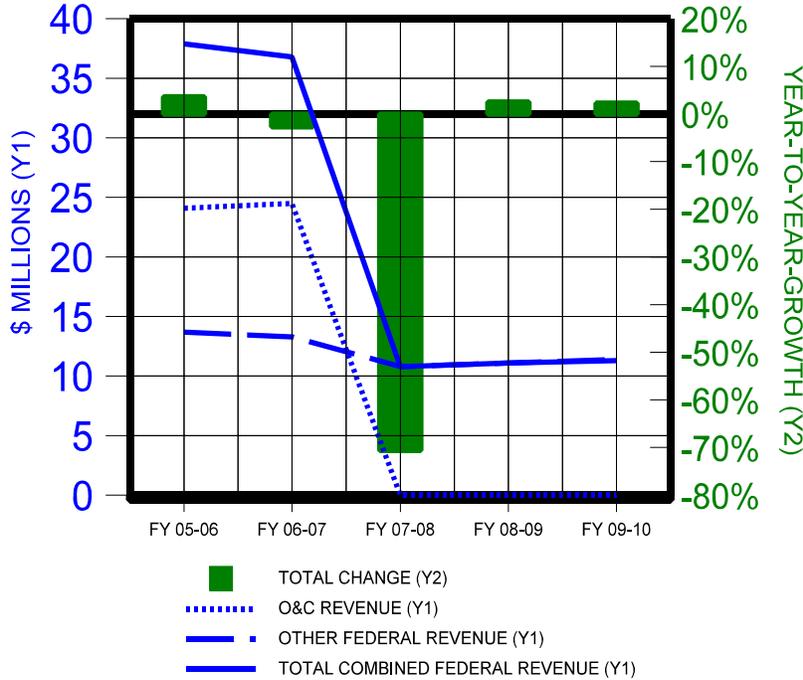

***Property Taxes** - All tax levies have been consolidated and converted to a permanent rate limit of \$2.0099 per thousand of maximum assessed value as required by Measure 50. Currently the maximum assessed value is approximately 55.3 percent of real market value. Taxes are also expected to be collected from bond issues for library debt service and juvenile debt service. The projected growth rate for total property tax collections for the county's operations budget is 5 percent per fiscal year.

Beginning Fund Balances - The beginning fund balances represent prior year Public Law 106-393 funds, interest income, and cash that is carried forward into the current fiscal year. Beginning fund balances derive from two primary sources. The first is carried forward revenues in special funds dedicated to a specific service or project and the second source is Public Law 106-393 revenues. A significant portion of this federal revenue is housed in a fund dedicated for projects conducted on federal lands. Both the juvenile capital project fund and the library capital project fund cause changes in this revenue stream due to bond sales and project completions.

Loan Proceeds - This form of revenue stems from the sale of voter approved or revenue bonds for capital construction projects.

Miscellaneous Revenue - These are revenues that do not fit under any other form of classification. The projected growth rate for miscellaneous revenue was set at 2.3 percent per fiscal year.

FEDERAL GOVERNMENT

Federal Revenue - Although much of the county's federal revenue comes in various forms such as grants, contracts, and reimbursements, a major source of revenue for Jackson County is federal O & C replacement funds from Public Law 106-393 which was enacted October 30, 2000. These funds replace a revenue stream (O & C) that was set in place in 1916.

O & C revenues originated in 1866 when the Oregon and California Railroad was building a rail line from Portland to California. As a way to fund this stretch of railroad, the federal government granted the railroad alternating sections of land along the rail line's right-of-way, which the railroad was to sell at \$2.50 per acre to draw settlers and promote development along the

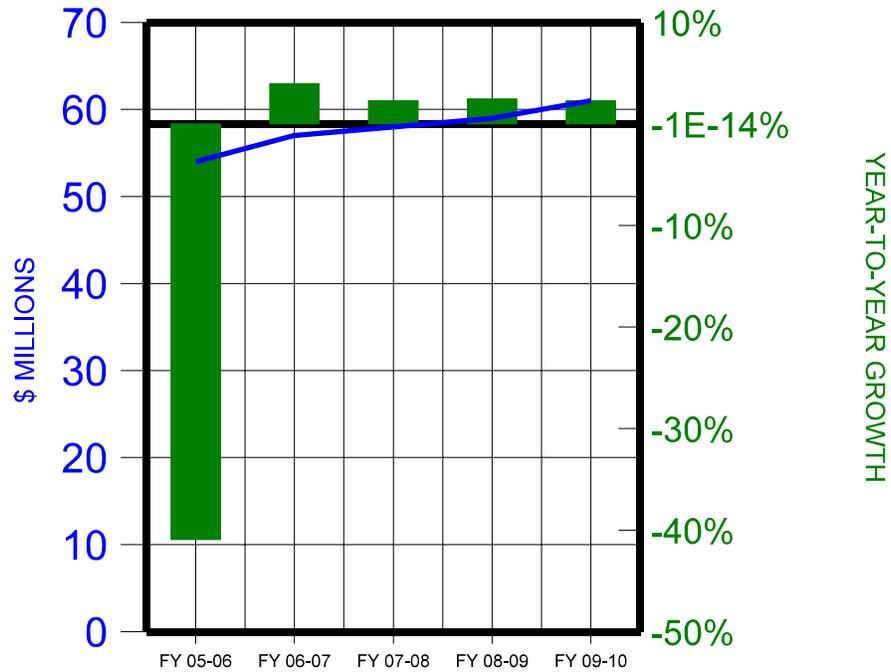

route. The Oregon and California Railroad ultimately went bankrupt and the land was purchased by the Southern Pacific Railroad.

In 1916, due to the Southern Pacific railroad selling land to speculators above the original price the federal government agreed to, the Oregon and California Railroads act was passed. This act placed the rail line properties back in the control of the federal government. Because these lands were once on the county tax rolls and the reinvestment of property took these properties off the county tax rolls, the federal government made provisions to split with the counties the revenues from timber harvest off these lands. These were revenues provided in lieu of tax payments that the counties would have received if the properties had remained on the tax rolls.

Because timber harvesting seriously declined in the late 1980's and 90's due to environmental concerns, counties situated along the O & C route have experienced significant reductions in federal revenues. To mitigate some of these losses, the federal government gave those counties that received O & C funding a ten-year guarantee of funding, but with a 3 percent reduction each year. Jackson County's own O & C funding would have totally ceased in fiscal year 2004-2005. Jackson County chose to receive funding from Public Law 106-393 in lieu of the original federal guarantee.

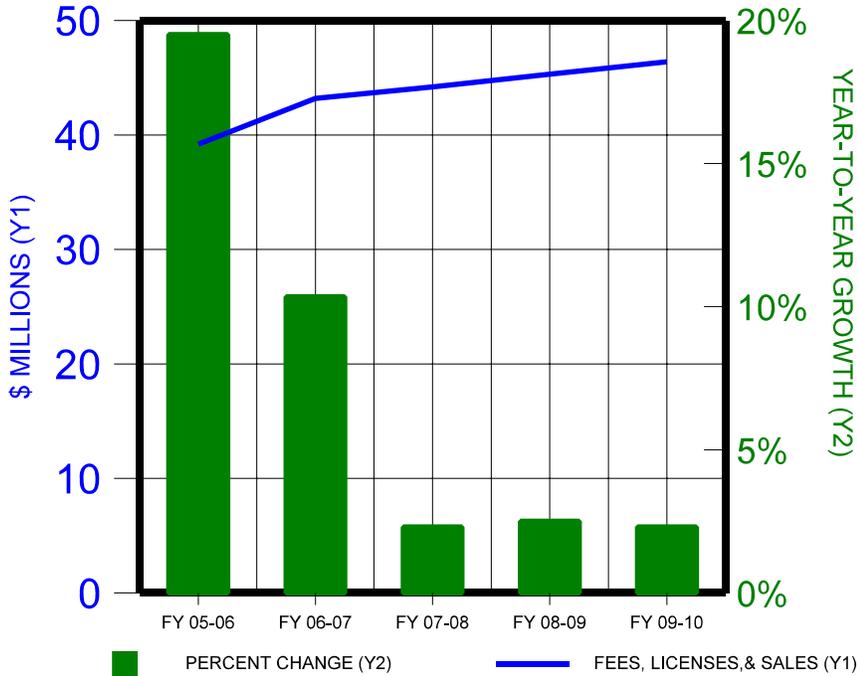

PL 106-393 replacement funds may be used for the general county operations and are recorded in the general fund and road fund where O & C and forest receipts were previously recorded. In addition to operational funds, the county also expects O & C replacement revenues to be applied towards funding local county projects (Title III) on federal lands as well as (Title II) projects approved by a Resource Allocation Committee. These funds are set to increase by 1/2 of the urban CPI until fiscal year 2007 when continuation of this funding requires Congressional approval. At this time it is uncertain whether this funding source will be reinstated and, therefore, is not included in revenue projections beyond 2007.

STATE & LOCAL REVENUE

State and Local Government - Except for capital construction grants, the most significant portion of this revenue supports health and human services primarily for mental health costs. The general road fund is the next significant user of these funds. Monies stemming from state gasoline taxes are dedicated for road improvements. The remaining revenues are scattered throughout the county to provide state-supported services. The state of Oregon has started to rebound from significant revenue reductions. West coast market indicators from Standard and Poor's suggest a modest recovery for local and state economies in the next few years. Revenues stemming from state gas taxes have been relatively stable but have not had any significant increases from the state legislature since the early 1990's. This is problematic for the road fund as costs for road system improvements continue to rise.

FEES, LICENSES, AND SALES

This graph represents the projected revenues generated by services provided to the general public. All fees collected by the county are for the solitary purpose of recovering the cost associated with providing services. During each fiscal year, the county performs an extensive fee study to determine service costs. Through a series of public meetings, the Board of Commissioners determine the portion of each fee that should be supported by county funds and the portion that should be paid by those receiving the service. Fees supported by county funds include county health service charges which promote the general health and well-being of the county citizens. Among the county programs that collect fees are: airport for providing service to air carriers; development services for building, zoning and planning permits; roads and parks for park use; the county

clerk's office for recording fees; the county surveyor's office for processing county plats; and health and human services for Title 19 (services to low income patients paid for by the state).

Airport - In FY 2002-2003, the federal government began allowing the collection of \$ 4.50 per airline ticket in passenger facility charges.

Clerk's Office - The interest rates have an impact on the number of public recordings processed in the clerk's office. The Oregon Department of Revenue projects that 30-year mortgage rates will increase, thus reversing the growth in recording fees.

Health and Human Services - The majority of these fees are to recover costs associated with providing public health and mental health services to the county.

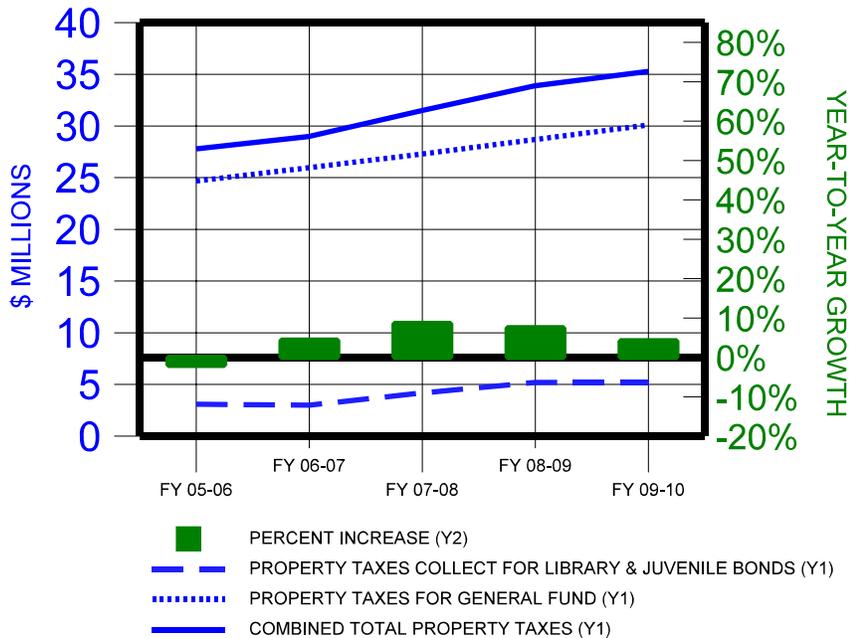

Roads and Parks - Fee revenues generated by park use are dependent on many environmental factors. For example, in fiscal year 2002-2003, fees declined due to reduced water levels at county recreation areas.

Development Services - Fees are collected to recover the cost of processing building permits, conducting safety inspections, and reviewing construction plans. In the FY 2003-2004 adopted budget, the Budget Committee and the Board of Commissioners approved an increase in fees from 30 percent to 75 percent of recovering program costs. The fiscal year 2006-2007 budget anticipates that this department will be fully self-supporting.

Surveyor's Office - Fees are collected to recover the cost of filing and duplicating of plats and for land corner preservation.

PROPERTY TAXES

(Five-Year Projection)

Property Taxes - In May of 1997, Oregon voters approved Measure 50, amending Oregon’s constitution to establish permanent property tax limits. As a result, Jackson County’s permanent rate limit was set at \$2.0099 of assessed valuation. Measure 50 also placed limitations on the base assessed valuation to which the newly imposed permanent rate limit could be applied. The maximum assessed value on all parcels is calculated as if it existed in fiscal year 1995-1996, less 10 percent, and trended at a 3 percent rate of increase. However, if the true cash value of the parcel dips below the assessed valuation, the rate can only be applied to that true cash value. Currently, the maximum assessed value is approximately 55.3 percent of real market value. A parcel can be improved without increasing its assessed value if the improvements total less than \$10,000 of real cash value in one fiscal year and less than a total of \$25,000 or more over a five-year-period.

The total amount of property tax the county expects to certify on behalf of the general fund reflects the current assessed value plus 5 percent (a 3 percent levy on existing parcels and a 2 percent levy on new construction). The county will certify and pay on the \$20,365,000 of library bonds sold in fiscal year 2000-2001 an average of \$1.6 million per fiscal year until the debt is fully paid in 2020. The county sold \$18,575,000 in library bonds in fiscal year 2002-2003 and is projected to certify and pay an average of \$1.6 million per fiscal year until the debt is fully paid. For juvenile debt service, the county will not certify tax for fiscal year 2006-2007 due to proceeds from other sources that will cover the debt. In fiscal year 2007-2008 these sources will cover about half of the debt to be paid and tax collection will resume the average of \$2.0 million per fiscal year until the debt is fully paid in 2011.

JACKSON COUNTY SPENDING PLAN DEFINITIONS

Fiscal Year 2006-2007

Balanced Budget - A balanced budget means that revenues and expenditures match; there are sufficient funds carried forward from the previous year for uncompleted obligations; sufficient funds are budgeted to provide appropriate cash flow for the following year; all funds that include debt service are balanced in accordance with Oregon municipal debt law.

Beginning Fund Balance - Included in this total are projects known as carry-forwards, or projects that were budgeted in fiscal year 2005-2006 that were not completed and were reappropriated during fiscal year 2006-2007. Also included are the unappropriated ending fund balance, contingencies, reserves, and any excess revenues or under-expenditures from fiscal year 2005-2006 .

Capital Outlay - This includes all equipment costing more than \$5,000, as well as lands and buildings.

Change in Fund Balance - This is the difference between the anticipated beginning fund balance and the anticipated ending fund balance.

Debt Service - Library debt service, airport debt service, and juvenile debt service are the only funds that have bond debt service payments. These payments are to retire debt associated with construction of new libraries, a new airport terminal, and a new juvenile facility. Voters approved the library construction project as noted. Bonds for this project are also projected to have a 20-year retirement schedule. Juvenile construction bonds also have a 20-year schedule.

Ending Fund Balance - This amount represents the funds' total unappropriated ending fund balance, reserves and contingencies.

Loan Proceeds - No additional loan proceeds are expected during this fiscal year. The airport budgeted for but didn't sell any bonds in fiscal year 2005-2006.

Materials and Services - This includes transportation, operating expenses, minor equipment purchases, data processing, maintenance and repairs, contracted services, and direct funding to noncounty agencies.

Personal Services - This includes total compensation paid to employees including salaries, benefits, and payroll taxes.

Transfers From - This line represents the amount of money transferred to the fund indicated from another fund inside the county organization.

Transfers To - This line represents the total amount of money transferred to other funds inside the county.

**JACKSON COUNTY CAPITAL PROJECTS AND CAPITAL OUTLAY SCHEDULE
AS ADOPTED FOR FISCAL YEAR 2006-2007
(\$10,000 AND OVER) ¹**

ADMINISTRATIVE SERVICES

Purchase Item	Library Capital Project – Building
Cost	\$5,482,396
Purpose	Reserved capital outlay for the purchase of land and building materials to construct and/or remodel libraries in Shady Cove, Talent, Phoenix, Medford and Butte Falls. Construction of all branches is expected to be completed by the end of 2007.
Operating Budget Impact	Although they are more energy efficient than the buildings being replaced, the new and remodeled facilities will increase utility, building maintenance, and other costs. New buildings are designed so as to be operated with the same number of staff as the old buildings.
Purchase Item	Equipment
Cost	\$26,458
Purpose	Gauging stations set in place by the watermaster.
Operating Budget Impact	Annual maintenance is approximately \$6,500.

AIRPORT DEPARTMENT

Purchase Item	City Building Requirements
Cost	\$10,000
Purpose	To comply with city requirements in the development of airport property.
Operating Budget Impact	None after initial installation.
Purchase Item	Maintenance Truck Utility Bed
Cost	\$10,000
Purpose	Installation of a utility bed on the maintenance truck for the purpose of carrying tools and equipment.
Operating Budget Impact	None after initial purchase.
Purchase Item	Cross Match - Live Scan Management System Security Computer Hardware
Cost	\$12,000
Purpose	Provide backup in the event of failure of current system.
Operating Budget Impact	None after initial purchase.
Purchase Item	Upgrade Sanitary Sewer
Cost	\$15,000
Purpose	Preventive maintenance, cleaning out the system and installing box culverts where needed.
Operating Budget Impact	Estimated savings of \$1,500 per year.

¹The total capital outlay dollars in this report do not equal total capital outlay dollars for the Jackson County 2006-2007 budget due to capital outlay items that amount to less than \$10,000, which are not included in this report.

Purchase Item	Waterline Relocation
Cost	\$25,000
Purpose	To relocate a water line that is currently located under a hangar.
Operating Budget Impact	None after relocation.
Purchase Item	Maintenance Truck
Cost	\$28,000
Purpose	Replace an older truck that is having significant operating problems.
Operating Budget Impact	Owning and operating expenses are expected to be approximately \$4,000 per year.
Purchase Item	Paint Striper
Cost	\$85,000
Purpose	Runway and pavement maintenance.
Operating Budget Impact	Owning and operating expenses are expected to be about \$2,000 per year.
Purchase Item	Phase I – Landslide Improvements
Cost	\$126,673/\$2,500,000/\$1,350,466
Purpose	To construct new circulation roads, utilities, and parking areas in preparation for the new terminal.
Operating Budget Impact	Phase I will not have any additional operating expense.
Purchase Item	Property Purchase
Cost	\$150,000
Purpose	To purchase property on Table Rock Road for safe operation of the airport.
Operating Budget Impact	None after initial purchase.
Purchase Item	Terminal Construction
Cost	\$200,000/\$392,579/\$5,000,000/\$6,290,263
Purpose	To begin construction of the new terminal building.
Operating Budget Impact	More cost-efficient systems will be included in the design of the new terminal building which are expected to reduce operating costs.
Purchase Item	Car Rental Facility Improvements
Cost	\$416,000
Purpose	Provide improvements for the car rental use areas.
Operating Budget Impact	None after initial installation.
Purchase Item	Multi-Modal Improvements
Cost	\$4,765,400
Purpose	To enhance the airport's small parcel freight system.
Operating Budget Impact	The improvements will help generate additional revenue for the airport and surrounding community.

COUNTY CLERK

Purchase Item	Cannon IR5570
Cost	\$13,310
Purpose	Equipment replacement - copying and scanning.
Operating Budget Impact	This is a replacement for a currently used copier – therefore there should be no additional operational costs.

HEALTH & HUMAN SERVICES

Purchase Item Building Remodel
Cost \$48,000
Purpose Buildings B, C, and D at 1005 East Main Street require remodeling to provide office space for additional clinical staff and a conference room for video conferencing. No changes are planned to external walls. Plans include adding interior walls and doorways. MHS clinical staff performs confidential counseling that is highly protected by HIPAA and requires enclosed, private space to see their clients. Generally, rooms will be divided to provide more confidential areas to serve MHS clients.

Operating Budget Impact After completion, this should not result in any additional operational costs.

Purchase Item Building - Mental Health Facility
Cost \$500,000
Purpose In fiscal year 2005-2006, HHS acquired four lots comprising a cul-de-sac off of Grant Avenue in Medford. It is anticipated that developing this property will begin in fiscal year 2006-2007. Costs associated with easements, engineering and surveying will be incurred. Long-term plans are to build much needed housing for mental health patients on the vacant lots. Funding for this development will be acquired from both the State Mental Health Division and Community Development Block Grants.

Operating Budget Impact Once developed, operational costs will be limited to the normal upkeep of residential properties.

ROADS & PARKS

◆ Bridge Replacement

Purchase Item Land Improvements
Cost \$16,245,423
Purpose Monies will be used to improve various bridges throughout the county that have been identified in a state-wide replacement program.

Operating Budget Impact Ongoing maintenance costs of new bridges will be similar to existing bridges. No significant impact.

◆ City/County Arterial

Purchase Item Land Improvements
Cost \$513,000
Purpose Monies are set aside for improvements to land owned by the county, which, after the improvement, will be turned over to the cities for operation and maintenance. Projects are submitted by cities during the year.

Operating Budget Impact For every mile of road paved and turned over to the cities, the county saves approximately \$25,000 per year.

◆ Engineering

Purchase Item
Cost
Purpose
Operating Budget Impact

Pickup – ½ Ton with Canopy
 \$22,000
 Unit (#138) will be replaced because it has met its planned life.
 Annual owning and operating costs will be about \$6,000.

Purchase Item
Cost
Purpose
Operating Budget Impact

Mid-Size Utility Vehicle (2 units)
 \$47,000
 Units (#423 and #509) will be replaced because they have met their planned life.
 Annual owning and operating costs will be about \$6,000 each.

Purchase Item
Cost
Purpose
Operating Budget Impact

Land for Right-of-way
 \$200,000
 Hazard eliminations and modernizations on county road system.
 Land acquisitions are necessary for the completion of some capital projects.

Purchase Item
Cost

Road Improvement Projects
 \$1,713,700

<u>Project</u>	<u>Description</u>	<u>Cost</u>
Alta Vista Road	Bigham Brown – Riley Overlay	\$195,500
Bellinger Lane @ Arnold Ln	Intersection Warning Controls	\$20,000
Castle Circle	Terrmont – End Overlay	\$5,400
Dead Indian Memorial Road	Milepost 19 – 21 Overlay	\$460,000
Division Street	Antelope Rd – Avenue A Overlay	\$19,800
Dry Creek Road	East Antelope – Br #531 Overlay	\$270,000
Gladstone Avenue	Antelope Rd – Avenue A Overlay	\$19,800
Hadley Circle	Terrmont – End Overlay	\$5,400
Hillcrest Road	Foothill – Belair Overlay	\$102,000
Jim Circle	Terrmont – End Overlay	\$5,400
McGrew Circle	Terrmont – End Overlay	\$5,400
Yank Gulch Road	Holton Road – Milepost 1.4 – Pave Gravel Road	\$555,000
Guardrail Installation	Countywide	\$50,000
Total for Fiscal Year 2006-2007		\$1,713,700

Purpose
Operating Budget Impact

To make road improvements and necessary repairs to maintain a safe road system. Please see following maps for location.
 It is estimated that the county’s pavement management system, when fully funded, saves the county \$3.00 for every \$1.00 spent.

◆ Road Maintenance

Purchase Item
Cost
Purpose
Operating Budget Impact

Water Truck
 \$76,000
 Unit (#075) will be replaced that has met its useful life.
 Owning and operating costs will be about \$14,000 annually.

Purchase Item
Cost
Purpose

Motor Grader (2 units)
 \$520,000
 Units (#376 and #379) will be replaced because they have exceeded their planned life.

Operating Budget Impact

Annual owning and operating costs will be about \$36,000.

◆ **Motor Pool**

Purchase Item

Utility Vehicles - 4 Door (2)

Cost

\$49,000

Purpose

Replaces two existing units that are fully depreciated and have met their useful life.

Operating Budget Impact

Annual owning and operating costs will be about \$6,000 per unit.

Purchase Item

Cargo Vans (3)

Cost

\$54,000

Purpose

Replaces three existing units that are fully depreciated and are scheduled for normal replacement.

Operating Budget Impact

Annual owning and operating costs will be about \$5,200 per unit.

Purchase Item

Mini Van (3)

Cost

\$63,000

Purpose

Replaces three existing units that are fully depreciated and are scheduled for normal replacement.

Operating Budget Impact

Annual owning and operating costs will be about \$6,200 per unit.

Purchase Item

Compact Pickups - 4 x 4 (6)

Cost

\$120,000

Purpose

Replaces six existing units that are fully depreciated and are scheduled for normal replacement.

Operating Budget Impact

Annual owning and operating costs will be about \$6,000 per unit.

Purchase Item

Mid Size Utility Patrol Vehicles (4)

Cost

\$130,000

Purpose

Replaces four existing units that are fully depreciated and are scheduled for normal replacement.

Operating Budget Impact

Annual owning and operating costs will be about \$11,000 per unit.

Purchase Item

15 Passenger Van (7)

Cost

\$147,000

Purpose

Replaces seven existing units that have been fully depreciated and have met their useful life.

Operating Budget Impact

Annual owning and operating costs will be about \$7,000 per unit.

Purchase Item

Sedans (10)

Cost

\$160,000

Purpose

Replaces ten existing units that are fully depreciated and are scheduled for normal replacement.

Operating Budget Impact

Annual owning and operating costs will be about \$4,500 per unit.

◆ **Parks**

Purchase Item

Parking Improvements for Britt Gardens

Cost

\$10,000

Purpose

Per the proposed agreement with the City of Jacksonville, the county is to set aside \$10,000 per year for parking lot improvements.

Operating Budget Impact

Money is placed in a liability account which impacts the park's fund balance.

Purchase Item	Playground Completion at Emigrant Lake
Cost	\$25,000
Purpose	Finish the paving of pathways and the ADA parking area to access the new playground. The new structure will be maintained by park staff.
Operating Budget Impact	Supported by BOR Title 28 and parks' SDCs, the project will be completed by April 2007. Additional funds are needed to surface the pathways and parking area. The estimated financial impact will be minimal; it is anticipated that the additional income from increased visitation will off-set monthly inspections and maintenance.
Purchase Item	Cabin Foundations at Willow Lake
Cost	\$35,000
Purpose	Provide new foundations under three existing cabins at Willow Lake. Currently, these cabins cannot be used because of deteriorating foundations. Willow Lake Concessionaires will operate and maintain the cabins.
Operating Budget Impact	This project will be funded using parks' SDCs. Annual maintenance costs are supported by user fees. Additional revenues will be realized by making the cabins available to the public for rent.
Purchase Item	Payment for Applegate River Property
Cost	\$45,000
Purpose	The parks program purchased five acres of surplus property from ODOT along the Applegate River.
Operating Budget Impact	Parks has agreed to pay ODOT \$40,000 plus six percent interest for three years. Revenues to purchase the property are available from parks' SDCs.
Purchase Item	New CXT Toilet at Hoover Ponds and Access Road Improvements
Cost	\$50,000
Purpose	A portion of Hoover Ponds is designated for off-road vehicle use and is used as an ATV training site. Currently, there are no restroom facilities available.
Operating Budget Impact	Funds are being requested from the ATV grant program administered by Oregon State Parks for financial assistance. Parks will provide the required match with Parks' SDCs. Maintenance costs will be provided by parks staff. The ATV grant program also has funds available for maintenance and operation.
Purchase Item	Rogue River Greenway
Cost	\$53,805
Purpose	Begin development of a Rogue River Greenway Trail from the City of Rogue River to Givan Park.
Operating Budget Impact	Money to fund this portion of the project is from the State Parks Recreation Trails grant program. Required match is provided by the Rogue River Greenway Foundation. Parks will administer the agreement.

◆ **Vegetation Management**

Purchase Item	Debris Sweeper
Cost	\$11,000
Purpose	Unit will be purchased to increase efficiency of landscape crews while performing turf maintenance.
Operating Budget Impact	Annual owning and operating costs will be about \$1,000.

SHERIFF

◆ **Administration**

Purchase Item	Identix Electronic Fingerprinting
Cost	\$37,161
Purpose	This machine will replace the current Identix electronic fingerprint machine that is no longer supported by the vendor due to the unavailability of parts.
Operating Budget Impact	Owning and operating costs are expected to average \$7,857 annually.

◆ **Corrections**

Purchase Item	Portable Identix Electronic Fingerprinting
Cost	\$25,410
Purpose	This machine will allow corrections personnel to respond to incidents of mass arrest and to set up a mobile station.
Operating Budget Impact	Owning and operating costs are expected to average \$10,000 annually.

Purchase Item	Afix Fingerprint and Palmprint Matching Computer System
Cost	\$30,000
Purpose	This machine will allow the sheriff's department to establish a local fingerprint database for investigative purposes.
Operating Budget Impact	Owning and operating costs are included in the Identix machine agreement.

Purchase Item	Identix Electronic Fingerprinting
Cost	\$37,161
Purpose	This machine will replace the current Identix electronic fingerprint machine that is no longer supported by the vendor due to the unavailability of parts.
Operating Budget Impact	Owning and operating costs are expected to average \$7,857 annually.

◆ **Criminal Services**

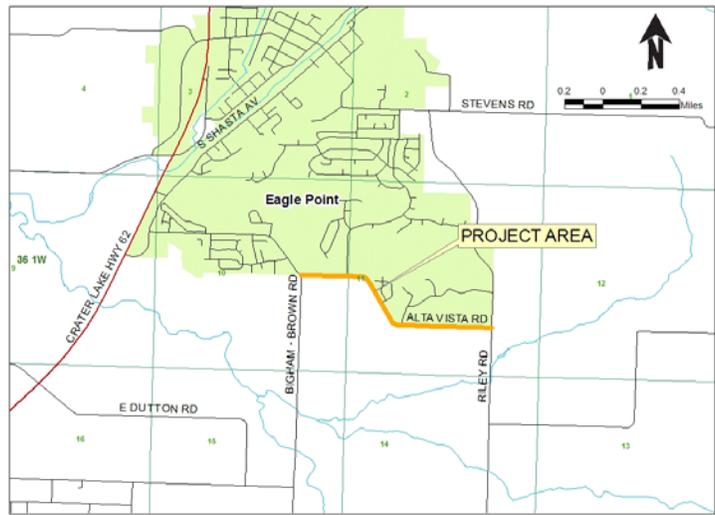

Purchase Item	Electronic Citation System
Cost	\$35,000
Purpose	The electronic citation system will allow criminal deputies in the sheriff's traffic team to electronically scan drivers' licenses and print computerized tickets in the field.
Operating Budget Impact	Projected savings of personnel dollars due to efficiency, as well as increased revenue.

Purchase Item	Night Vision Goggles (17)
Cost	\$59,500
Purpose	Replacements for the sheriff's department tactical team. These goggles will enhance officer safety against armed subjects and allow patrol deputies to increase custody arrests of dangerous felons.
Operating Budget Impact	Owning and operating costs are expected to average \$1,000 per year for routine maintenance, with a projected savings of personnel dollars due to increased efficiency of searches.

Existing Condition:
Install guardrail where needed around the county.

DEBT MANAGEMENT

Authority to Incur Debt

Generally, counties are authorized to incur debt as outlined in Oregon Revised Statute 287. General obligation bond limits are set by Oregon Revised Statute 287.054(2), which states, "The aggregate amount of general obligation bonded indebtedness of counties shall not at any time exceed two percent of the real market value of all taxable property in the county." Using the most recent actual data and this formula, our current obligation bonded debt limit would be \$471,418,816. There are no limits on revenue anticipation bonds, bonding for urban renewal agencies, or industrial revenue bonds.

Both the juvenile and library facilities bonds are general obligation bonds, therefore, the county's debt as a percentage of the assessed evaluation is 0.29 percent. The county's most recent bond rating from Moody's Investors Service was Aaa with an underlying rating of A1. Following are maturity schedules for the bond issues affecting Jackson County's budget.

Jackson County, Oregon \$31,000,000 General Obligation Bonds

At the election on May 16, 2000, the citizens of Jackson County approved a general obligation bonded indebtedness in the amount not to exceed \$38,940,000 to finance the cost of land acquisition, capital construction, and improvements to library facilities. The project provides new or expanded facilities in Rogue River, Jacksonville, Ruch, Applegate, Eagle Point, Shady Cove, Prospect, Butte Falls, Central Point, Gold Hill, Phoenix, and Talent. It also funded the development, construction, furnishings, and site improvements for a new headquarters building which includes the Medford Main Library Branch, Rogue Community College Library, processing center, and central office for the Jackson County Library System.

During fiscal year 2001, the county issued \$20,365,000 in bonds to complete the first phase of the project. Bonds were sold in \$5,000 denominations or integral multiples thereof. Interest is payable on December 1 and June 1 each year commencing on December 1, 2000. In March 2006, the 2011 through 2020 bonds were refinanced lowering the rate of interest. Below is the projected Maturity and Payment Schedules.

Maturity Schedule - Series 2001

<u>Fiscal Year</u>	<u>Principal Amounts</u>	<u>Interest Rates</u>	<u>Yield or Price</u>
2007	\$805,000	5.00%	100%
2008	\$850,000	5.00%	100%
2009	\$890,000	5.00%	100%
2010	\$940,000	5.00%	100%
2011	\$1,020,000	3.56%	102%
2012	\$1,065,000	3.63%	102%
2013	\$1,110,000	3.72%	102%
2014	\$1,165,000	3.80%	101%
2015	\$1,215,000	3.87%	100%
2016	\$1,270,000	3.92%	98%
2017	\$1,320,000	3.97%	98%
2018	\$1,380,000	3.75%	98%
2019	\$1,445,000	3.75%	98%
2020	\$1,510,000	3.75%	98%

Payment Schedule for Fiscal Year 2006-2007

<u>Total Payment</u>	<u>Principal</u>	<u>Ending Interest</u>	<u>Ending Principal</u>
\$1,467,015	\$805,000	\$662,015	\$15,180,000

During fiscal year 2003 the county issued \$18,575,000 in bonds to complete the second phase of the project. Bonds were sold in \$5,000 denominations or integral multiples thereof. Interest is payable on December 1 and June 1 each year commencing on December 1, 2003. Below is the projected Maturity and Payment Schedules.

Maturity Schedule - Series 2003

<u>Fiscal Year</u>	<u>Principal Amounts</u>	<u>Interest Rates</u>	<u>Yield or Price</u>
2007	\$920,000	3.00%	100%
2008	\$945,000	3.20%	100%
2009	\$970,000	3.50%	100%
2010	\$1,005,000	4.00%	100%
2011	\$1,040,000	4.00%	100%
2012	\$1,075,000	4.00%	100%
2013	\$1,115,000	4.00%	100%
2014	\$1,160,000	4.00%	100%
2015	\$1,205,000	4.30%	100%
2016	\$1,255,000	4.40%	100%
2017	\$1,310,000	4.50%	100%
2018	\$1,365,000	4.75%	100%
2019	\$1,425,000	4.75%	100%
2020	\$1,490,000	4.75%	100%

Payment Schedule for Fiscal Year 2006-2007

<u>Total Payment</u>	<u>Principal</u>	<u>Interest</u>	<u>Ending Principal</u>
\$1,599,775	\$920,000	\$679,775	\$15,360,000

Jackson County, Oregon \$16,500,000 General Obligation Bonds

At the election on November 7, 2000, the citizens of Jackson County approved a general obligation bonded indebtedness in the amount not to exceed \$16,500,000 to finance the cost of land acquisition and capital construction for a new juvenile facility.

During fiscal year 2001, the county issued \$16,500,000 in bonds for the project. The bonds were sold in \$5,000 denominations or integral multiples thereof. Interest is payable on December 1 and June 1 each year commencing on June 1, 2001. Left over funds from the construction project in the amount of \$4,120,108 along with proceeds from the sale of the old juvenile facility in the amount of \$1,168,260 will be used to offset property tax collections as long as the funds plus interest income lasts. When the funds are exhausted, the county will resume collecting taxes to make required payments. Below are the projected Maturity and Payment Schedules.

Maturity Schedule

<u>Fiscal Year</u>	<u>Principal Amounts</u>	<u>Interest Rates</u>	<u>Yield or Price</u>
2007	1,665,000	4.25%	100%
2008	1,740,000	4.25%	100%
2009	1,815,000	4.25%	100%
2010	1,900,000	5.00%	100%
2011	1,985,000	5.00%	100%

Payment Schedule for Fiscal Year 2006-2007

<u>Total Payment</u>	<u>Principal</u>	<u>Interest</u>	<u>Ending Principal</u>
\$2,081,100	\$1,665,000	\$416,100	\$7,440,000

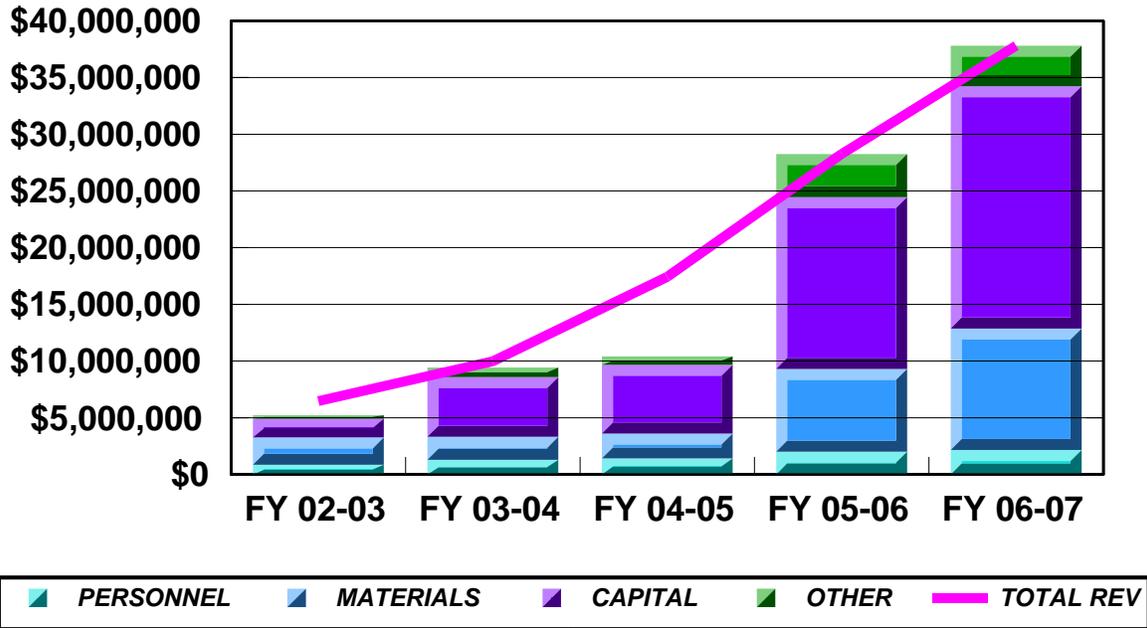

Debt Margin

Sometimes referred as "borrowing power," debt margin is the difference between the amount of debt limit calculated as prescribed by law and the net amount of outstanding indebtedness subject to limitation. Jackson County's debt margin is calculated as follows:

Jackson County's legal debt limit	\$471,418,816
Less library general obligation bonds outstanding principle	- 30,540,000
Less juvenile general obligation bonds outstanding principle	- <u>7,440,000</u>
Jackson County's Total Debt Margin	\$433,438,816

AIRPORT

FULL-TIME EQUIVALENTS	15.96	34.75	35.75	37.75	38.75

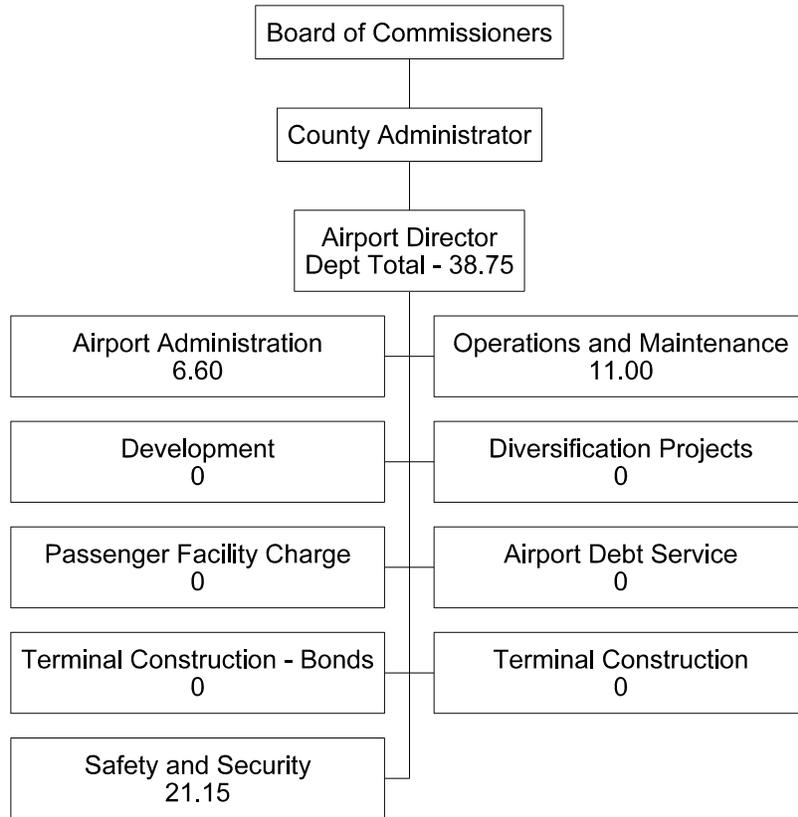

Numbers for FY 02-03 through FY 04-05 are actual revenues and expenditures. FY 05-06 represents the revised budget and FY 06-07 is the adopted budget. For an explanation of the differences between the actual expenditures and budgets, see the Differences Between "Actual" and "Budgeted" Numbers located in the Budget Summary section of this document on page 32.

The increase in this budget is related to the new terminal construction project. The FTEs are increased by one position. By adding an electrician to the staff, the airport expects to lower overall costs by reducing contracted services. Funding for this position is provided by the FAA and airline contracts.

Airport

Organization Chart

All employees are reported as full-time equivalents.

Airport

Highlights and Challenges

Department Summary

Purpose Statement: To provide the best air service possible for this size community.

Major Issues and Service Level Goals for Fiscal Year 2006-2007

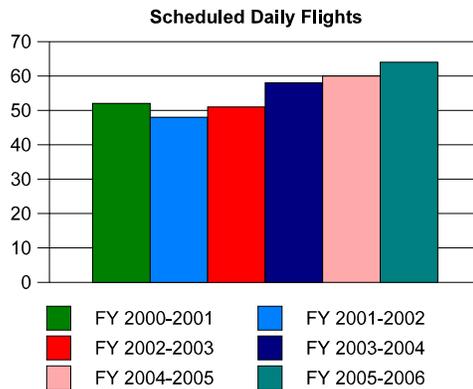

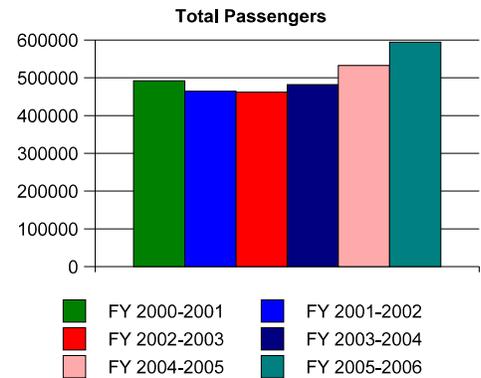

- Finding new sources of revenue to continually provide required air service.
- Maintaining current air service of daily flights to various destinations.
- Commencing Terminal Project - Phase II.

Major Issues and Service Level Accomplishments for Prior Year

- Met all new federal security requirements on time.
- Maintained airport certification.
- Completed airport security programs.
- Delta Airlines began service to Salt Lake City.
- Received a \$5,189,791 Federal Aviation Grant for construction of the new terminal.
- Began Terminal Project - Phase I construction.

Benchmark

Maintain the scheduled daily flights at the Rogue Valley International-Medford Airport. By maintaining the daily flights, customers will continue to have the best possible air service.

Current service includes direct flights to Denver, Eugene, Las Vegas, Los Angeles, Phoenix, Portland, Salt Lake City, San Francisco, and Seattle.

Airport Administration

Category Name

Transportation

Program Purpose

The airport administration program is responsible for providing administration of airport properties and recommends capital improvements on the airport's 1,000+ acres. The program is responsible for writing airport contracts and processing them through the county and to oversee contractual compliance. This program handles all of the airport revenues. The administrative program is helping to meet county goals: (8) Provide and maintain multiple transportation systems; and (11) Maintain public records to provide financial, historical, and statistical information.

Program Description

The airport administration program provides the following services:

- **Property leasing**

Strategic objective: Increase the percentage of available land that is leased. This is achieved by advertising properties and offering reasonable rates to its tenants.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Percentage of land available for aviation purposes that is actually leased at the airport	19%	20%	21%	22%

The chart above shows how much of the leasable airfield property is actually leased. The 2004-2005 actual percentage reflects a significant reduction of leased airfield land due to the July 2004 buy out of the Foreign Trade Zone lease. Interest in airfield property is high, and several lease options are in the works.

- **Annual rental rate increases**

Strategic objective: To have a means in place to annually increase rental rates so as to remain competitive in the market place and to treat all like tenants the same.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Annual CPI increase	2.7%	2.0%	2.9%	2.0%

The airport increases its land lease rental rates each March 1 by the current CPI. This allows the rates to stay current with property values. By utilizing this schedule, the airport has a standardized way of increasing rental rates

Airport Administration

across the board, utilizing a published document which prevents disagreement about the increased rates.

- **Revenue enhancement/development**

Strategic objective: To find new ways to obtain revenues to allow the airport to remain competitive in the market for our airlines and other tenants, while remaining a self-supporting enterprise fund.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Expected operational revenues	\$4,981,302	\$4,716,826	\$4,641,826	\$5,028,963

The airport continues to generate new revenues for the operational side of the airport through rates and charges. Revenues again show a slight increase this year as a result of leasing additional properties and a review of airline rates and charges.

Significant Issues in the Year Ahead

The most significant issue in the upcoming year will be the continuation of the new terminal construction. Phase I is expected to be completed by February 2007, and the Phase II bid solicitation should occur in November or December 2006. Staff will provide additional support services during the construction process.

Financial Condition

This program is funded 100 percent through airport rates and charges. The airport is currently in a good financial state.

Airport Administration

Program: 010101	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Airport Debt Service

Category Name

Transportation

Program Purpose

The debt service fund program is to repay bonds that will be issued for the design and building of the new airport terminal and associated land improvements. The debt service fund program is helping to meet county goals: (5) Work to enhance the natural and man-made attractiveness of the area; and (12) Plan for the future.

Program Description

The debt service fund program coordinates in the following areas:

- **Bond repayment**

Strategic objective: To generate enough money to make the required bond payments. This money will be generated by the passenger facility charge program (Fund 503).

The airport currently receives \$4.50 per enplaned passenger. This revenue source will be transferred to the debt service fund program to repay the bond obligations.

Significant Issues in the Year Ahead

The most significant issues we will face this year is setting up the debt service fund, making the appropriate entries, and working out the repayment schedule. This will be accomplished by regular meetings with the appropriate personnel and consultants.

Financial Condition

This program will be 100 percent funded by the passenger facility charge program except for a one-time transfer from Fund 500 to help with cash flow. The debt service schedule will be available when the bonds are issued.

Airport Debt Service

Program: 010201	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Development

Category Name

Business, Private & Special Location Development

Program Purpose

The development program is responsible for the coordination and the development of the airport to enhance both air carrier service and general aviation at Rogue Valley International- Medford Airport. The development program is helping to meet county goals: (5) Work to enhance the natural and man-made attractiveness of the area; (8) Provide and maintain multiple transportation systems; and (12) Plan for the future.

Program Description

The development program coordinates the following areas:

- **Capital improvements**

Strategic objective: Maintain current capital improvement program (CIP) that is on file with the FAA.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of years on CIP	10	10	10	10

The airport continues to update its CIP with the Federal Aviation Administration to maintain an appropriate number of future year's projects to remain eligible for federal funding. The FAA prefers to see a CIP that extends between 5-10 years. Each year we meet with the FAA to update our list and look at potential funding sources and federal grants to cover the costs of such projects. By doing this, the county has been in a positive position to receive discretionary grant funds from the FAA to complete approved projects.

- **Federal grants**

Strategic objective: Comply with FAA grant eligibility requirements while pursuing available and appropriate federal grants.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of active federal grants included in budget	3	3	1	2

The airport currently has one federal grant open with the FAA:

AIP 27 - \$5,189,791: This grant was issued for Phase I of the Terminal Construction project which is expected to be completed by February 2007. An application for Phase II (AIP 28) is expected to be submitted in 2006-2007.

Development

Grant proceeds for AIP 28 will be tracked through the Terminal Construction Fund.

Significant Issues in the Year Ahead

The most significant issue in the coming year is the continuation of the above-mentioned federal project, completing it on time, under-budget, and without disruption to air services. This will be accomplished with regular meetings involving the tenants keeping them abreast of the changes and construction schedules and laying out routes for passengers and aircraft to travel.

Financial Condition

This program is funded by state and Federal Aviation Administration grants and customer facility charges. There is a requirement of a 5 percent local match towards federal grant projects, which is met through the passenger facility charge program.

Program: 010105	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Diversification Projects

Category Name

Business, Private & Special Location Development

Program Purpose

The airport diversification program is responsible for promoting special programs to allow for diversification on the airport. The Federal Aviation Administration challenges airports to remain diversified to maintain a constant cash flow. The diversification program is helping to meet county goal: (8) Provide and maintain multiple transportation systems.

Program Description

The diversification program provides the following services:

- **Property leasing**

Strategic objective: Increase the percentage of non-aviation land that is leased. This is achieved by advertising properties and offering reasonable rates to its tenants.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Percentage of land available for non-aviation related purposes actually leased at the airport	28%	26%	28%	28%

The airport has approximately 200 acres of land located outside the fence that is appropriate for non-aviation related activities. Income produced from these properties provide revenue stream diversification. Current land leases include: Butler Truck, 2.6 acres; BG&I, 1.4 acres; Skypark Development, 47 acres; Crater Lake Ventures, 3.3 acres. In addition, the airport has options pending for other parcels.

Significant Issues in the Year Ahead

There are no significant issues expected in this program.

Financial Condition

This program is funded 100 percent through rental rates and charges. There are very minimal costs to the airport in this program, other than the cost of irrigation rights on various properties.

Diversification Projects

Program: 010104	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Operations and Maintenance

Category Name

Transportation

Program Purpose

The operations and maintenance program proactively ensures a safe and efficient commercial air transportation service by maintaining runway and taxiway systems and apron areas that accommodate the landing and take off of aircraft. This program coordinates and supervises all operational and maintenance activities of the airport. The operations and maintenance program is helping to meet county goals: (1) Protect health, safety, and well-being of all citizens; and (5) Work to enhance the natural and man-made attractiveness of the area.

Program Description

The operations and maintenance program provides the following services:

- **Proactive airfield repairs, maintenance and construction**

Strategic objective: Maintain an average cost per enplaned passenger for operation and maintenance of the airfield. This is achieved by being proactive to needed repairs and maintenance.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Cost per enplaned passenger	\$4.89	\$5.94	\$6.18	\$6.30

The cost per enplaned passenger is utilized as a means to measure whether the airport is marketable to airlines and tenants. The upward trend is a result of pressure due to rising inflation and federal requirements. Ways to reduce operating costs include looking at new technology, larger equipment, and remaining proactive rather than reactive. The airport strives to meet all of the federal requirements in the most cost-effective manner.

- **Maintain airport certification**

Strategic objective: Maintain the airfield per federal regulations in order to the pass the airport FAR 139 Certification Inspection and maintain an operating certification with zero discrepancies. This is achieved by knowing the regulations and staying on top of the requirements, while looking for cost effectiveness.

Operations and Maintenance

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Noted airfield discrepancies	0	0	0	0

This past year the airport again passed its annual FAA certification inspection with flying colors. As a result of the diligent efforts of the operations and maintenance department, the airport consistently receives high marks from the FAA each year as over one hundred certification elements are scrutinized over the three-day inspection.

Significant Issues in the Year Ahead

Work will continue on Phase I of the terminal project, and Phase II construction is expected to begin in early 2007. During this major project, the airport will continue to be challenged in maintaining a safe environment as well as minimizing the inconvenience to employees and the public. This will be accomplished by continuous communication with the tower, airlines, contractors, engineers, and other airport tenants.

Financial Condition

This program is funded 100 percent through airport rates and charges. The operations and maintenance department continually strives to find better ways to do things to save the county money.

Program: 010103	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Passenger Facility Charge

Category Name

Transportation

Program Purpose

The passenger facility charge (PFC) was established by federal legislation 49 USC SS40117 to allow airports to meet money match requirements of federal grants for aviation related capital improvement. Through this program the airport receives \$4.50 for each enplaned passenger. Expenditures of these funds must be approved by the FAA. The passenger facility charge program is helping to meet county goal: (8) Provide and maintain multiple transportation systems.

Program Description

The passenger facility charge program provides the following services:

- **Financially complete, federally-approved projects**

Strategic objective: To maintain an appropriate number of years of approval to collect passenger facility charges to complete federally approved projects and to use as a local match to federal grants.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of collection year approvals	21	21	21	20

The Federal Aviation Administration previously approved collections of PFCs for the proposed revenue match required for the new terminal building. As match requirements are funded, the number of approval years will decrease. As eligible projects are further identified, additional years of approved collection may increase.

Significant Issues in the Year Ahead

The most significant issue is to maintain 100 percent accountability of the funds and prepare and file all reports as required. The airport has a calendar in place to avoid missed reporting.

Financial Condition

This program is self funded. All approved projects come with an approval to collect passenger facility charges to pay for the project. The program is currently collecting monies for future approved projects.

Security and Safety

Category Name

Community Safety

Program Purpose

This program is responsible for providing and maintaining the security and safety of the airport by meeting all federal, state, and county requirements. Federal requirements specifically include the ability to pass all security inspections. The program is helping to meet county goal: (1) Protect health, safety, and well-being of all citizens.

Program Description

The airport security and safety program provides the following services:

- **Security**

Strategic objective: Compliance with all Transportation Security Administrations (TSA) regulations and security guidelines; producing a safe environment for air travel; maintaining life safety, incident stabilization, and property conservation to the airport community and its consumers.

The program will continue to adapt to the challenges of air travel through new technologies and appropriate training.

- **Airport rescue and fire fighting**

Strategic objective: To maintain a well trained and motivated rescue team equipped and prepared to handle all airport safety and security concerns.

Airport fire fighting services are necessary for all commercial airports. A three-year contract with Pro-Tec Fire Services, Inc., provides the utmost in safety and security of passengers, aircraft, and structures.

Significant Issues in the Year Ahead

The year ahead will bring many challenges with the construction of a new multi-million dollar terminal. The security and safety program is committed to meet all established standards and procedures while remaining pro-active with the ever-changing federal and state regulations.

Financial Condition

This program is funded 100 percent through airport rates and charges.

Terminal Construction

Category Name

Transportation

Program Purpose

The terminal construction program will be used to track the revenues and expenditures of the airport terminal project not supported by bonds. These revenues will be from federal grants, as well as general airport rates and charges. The program will consist of design and construction of the new airport terminal, as well as associated land improvements. The terminal construction program is helping to meet county goals: (5) Work to enhance the natural and man-made attractiveness of the area; and (12) Plan for the future.

Program Description

The terminal construction program coordinates in the following areas:

- **Capital Improvements**

Strategic objective: To design and build a new terminal at the Rogue Valley International-Medford Airport through various funding sources. This construction will also be done in association with the terminal construction-bonds program.

The airport will continue to update its financial plans to streamline the cost of the construction of the airport terminal. This project will be completed over the next couple of years.

An application (AIP 28) will be submitted to the Federal Aviation Administration for Phase II of the Terminal Construction project.

Significant Issues in the Year Ahead

The most significant issues we will face this year are setting up this program and then accurately charging the projects to the correct programs. This will be accomplished by establishing reviews and having regular meetings with all persons involved.

Financial Condition

This program will be 100 percent funded by federal grants and airport rates and charges.

Terminal Construction - Bonds

Category Name

Transportation

Program Purpose

The terminal bond program will be used to track revenues and expenditures of airport revenue bonds for the construction of the new airport terminal and associated land improvements. The terminal bond program is helping to meet county goals: (5) Work to enhance the natural and man-made attractiveness of the area; and (12) Plan for the future.

Program Description

The terminal bond program coordinates in the following areas:

- **Capital Improvements**

Strategic objective: Maintain enough funds through revenue bonds to pay for the associated phases of the new airport terminal. This construction will also be done in association with the terminal construction program.

The airport will continue to update its financial plans to streamline the cost of the construction of the airport terminal. This project will be completed over the next couple of years.

Significant Issues in the Year Ahead

The most significant issues we will face this year are setting up the program and then accurately charging the projects to the correct programs. This will be accomplished by establishing reviews and having regular meetings with all persons involved.

Financial Condition

This program will be funded 100 percent by a revenue bond which will be guaranteed by the passenger facility charge program.

Numbers for FY 02-03 through FY 04-05 are actual revenues and expenditures. FY 05-06 represents the revised budget and FY 06-07 is the adopted budget. For an explanation of the differences between the actual expenditures and budgets, see the Differences Between "Actual" and "Budgeted" Numbers located in the Budget Summary section of this document on page 32.

Personal Services (personnel) has been increased in this budget to add additional FTEs to do physical re-appraisals. The assessor projects these FTEs will be paid for by corrections to the tax rolls as a result of their work.

Assessor

Organization Chart

All employees are reported as full-time equivalents.

Assessor

Department Summary

Highlights and Challenges

Purpose Statement: The assessor's office is a state-mandated program that assesses (for tax purposes) all real property, mobile homes and business personal property in Jackson County. The department strives to ensure that all property is assessed and valued correctly; that all citizens and governmental entities are treated fairly and honestly; and that all programs comply with all state statutes and administrative rules. The assessor's office also strives to improve the assessment process through training, automation, and better management practices.

The assessor's office is helping to meet county goals: (2) Serve all citizens fairly and ensure access to county government; (3) Provide opportunities for all citizens to prosper by promoting the economic development of the area; (4) Strengthen cooperation between public agencies; (6) Encourage citizen understanding and participation in county government; (9) Promote employee pride, high standards of performance, and productivity; and (11) Maintain public records to provide financial, historical, and statistical information. However, the primary goal is number 2.

Major Issues and Service Level Goals for Fiscal Year 2006-2007

The introduction in 2002 of a new, proprietary computer system significantly improved access to accurate assessment and appraisal information for the public and within the department. Fully integrating this system into the department's work activities will continue for 2006-2007. The department plans to achieve the following:

- Programming and conversion of commercial and personal property records into the new software.
- Continue learning and begin the recalculation process for properties throughout the county to ensure that all properties are appraised at their correct real market value.
- Complete in 2006-2007 year, the analysis and recalculation work on the twelve hot spot projects approved by the Department of Revenue in the 2003 Appraisal Plan Update; this has not been done the last four years due to conversion, and not enough staff to handle the increases in new construction and work on the hot spot areas as well.
- Continue to analyze our appraisal process to ensure that we are effective or utilizing our resources wisely.
- Continue to work on ORMAP projects and ongoing in-house remapping of problem areas on the Jackson County base map to ensure its accuracy for public safety and for producing accurate studies. In addition to work produced by our in-house staff, we entered into a grant contract with ORMAP (the statewide

Assessor

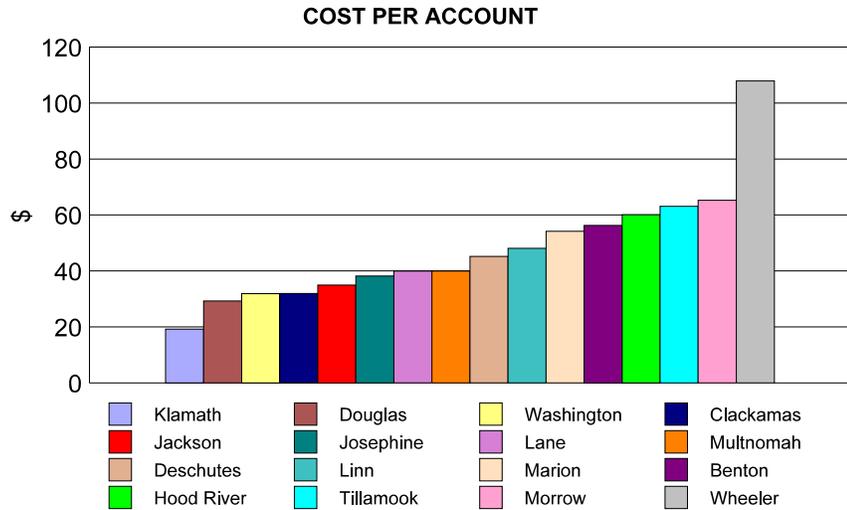

mapping program). This allowed us to add an additional cartographer with renewal for up to five years to meet Goal 4. This position actually began in the 2003-2004 fiscal year and is dedicated to producing very accurate COGO mapping. This contract is a 100 percent reimbursement from the state through the ORMAP funds.

Major Issues and Service Level Accomplishments for Prior Year

- The year end certification process went very smoothly. As for the ORCATS assessment software program, the results were as good as we experienced in the prior year, but the overall experience seemed to go even more effortlessly. The system is alive and well and we are very happy with the results.
- Again it was a pleasure to not require significant staff time for further clean up and correction of perennial errors that were fixed over and over and over again in the old system.
- Sent out farm income questionnaires for the second time since the 2002-2003 tax year. Unfortunately, this activity will be curtailed in the forthcoming budget year to allow for more time to be spent in dealing with hot spot reappraisal/recalculation projects.
- Completed new construction appraisals of 7,000 accounts in a timely matter.
- Processed just over 79,000 recorded documents.
- Mapped 1,043 property line changes.
- Converted to the statewide LOIS manufactured structure data management system that maintains and reports ownership/inventory/sales data as compiled by DCBS.
- Recorded taxing district changes on 762 accounts.
- Reappraised 6,955 land partitions, an increase of 36 percent over the prior year.
- Extra help was hired to assist with the processing of business personal property taxes and appraisal and clerical functions.
- Of the eleven hot spot projects approved by the Department of Revenue in the 2001 Appraisal Plan Update, one was completed. No progress has been made on the other ten for the fourth year. The list of hot spot projects has grown from 18 to 23 in the last year.
- Edge matched 92 new maps.
- Recalculated acreage and value for 820 accounts resulting from the DOR Remap contract.
- Reviewed and updated commercial property inventory data records for 7,735 accounts in preparation for conversion into the new commercial ORCATS application.

Assessor

Benchmark:

Jackson County rates as the 5th most efficient county in the state on a cost-per-account basis

Assessment and Appraisal

Category Name

General Government

Program Purpose

The purpose of the assessment and appraisal program (a state mandated program) is to perform assessments on all real property, mobile homes, and personal property in a fair and equitable manner to ensure that all property is assessed and valued correctly; to treat all citizens and governmental entities fairly and honestly; comply with all state statutes and administrative rules; and strive to improve the assessment process through training, automation, and better management practices.

The assessment and appraisal program is helping to meet county goals: (2) Serve all citizens fairly and ensure access to county governments; (3) Provide opportunities for all citizens to prosper by promoting the economic development of the area; (4) Strengthen cooperation between public agencies; (6) Encourage citizen understanding and participation in county government; (9) Promote employee pride, high standards of performance, and productivity; and (11) Maintain public records to provide financial, historical, and statistical information. However, the primary goal is number 2.

Program Description

The assessment and appraisal program provides the following services:

- **Appraisal of all new construction**

Strategic Objective: Ensure that all new construction is appraised properly so that its correct value is shown on the property tax rolls.

<i>Outcome</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Appraisals	7,458 acts	8,388 acts	8,400 acts	8,400 acts

- **Reduce number of appeals requiring tax roll corrections**

Strategic objective: Maintain fair and accurate tax roll records upon which to base tax assessments for all taxing districts in Jackson County and reducing the number of appeals requiring tax roll corrections.

<i>Outcome</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Appeals	45%	45%	46%	46%

Assessment and Appraisal

- **Process all special assessment and exempt applications**

Strategic objective: Maintain property assessment for special properties adhering to state laws and statutes.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Special assessed	155	160	59	62
Exempt	84	80	89	92

- **Process all name transfers to insure correct assessment records**

Strategic objective: Maintain accurate assessment records according to state laws and statutes.

<i>Outcome</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Transfers	75,655	79,001	79,001	79,000

- **Maintain an accurate base map for assessment purposes and GIS**

Strategic objective: Maintain an accurate base map for assessment purposes and GIS.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Remaps	59	92	92	100
Segregations	1,043	1,040	1,040	1,040
Subdivisions	1,870	1,745	1,745	1,750

- **Scan (digitize) all relative assessment information into the computer and make information on the web available where appropriate**

Strategic objective: Initial phase involves scanning TRC documentation making this material available to assessment staff in ORCATS.

Assessment and Appraisal

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Documents digitized	0	6,000	9,400	9,400

Significant Issues in the Year Ahead

By addressing some of the department's staffing needs (i.e. addition of two new appraisers) we expect to take significant steps toward improving service levels in all aspects of the program. With the assistance of the Department of Revenue, we plan to design a recalculation program that will help us begin to establish and maintain accurate values that equate to a more accurate revenue stream. This process will also establish a program that can be used statewide to set up recalculation programs in other counties.

However, even with the added staff, we will still be stressed to get the increasing workload completed. Department of Revenue staffing guidelines indicated that we are five and one half people understaffed.

On the bright side we continue to see a significant increase in the use of the "Front Counter Application," which allows people to obtain property information from the comfort of their homes and offices on the World Wide Web. This will reduce the amount of foot traffic coming to the courthouse for such information, thus positively impacting staff productivity.

Financial Condition

The assessment and appraisal program is projected to receive 29.5 percent of its funding from a state grant for assessment and taxation. This program also collects fees and charges representing an additional 5.6 percent. The remaining 64.9 percent comes from the county general fund.

Assessment and Appraisal

FTEs have been increased to bring one part time staff position to full time due to the increased work load.

Board of Commissioners

Organization Chart

All employees are reported as full-time equivalents.

Board of Commissioners

Highlights and Challenges

Department Summary

Purpose Statement: The Board of Commissioners (BOC) is the only elected body in the region for many broad issues, such as forest planning, water supply issues, regional land use planning, air quality, transportation, emergency management, and economic development.

The Home Rule Charter sets the structure of the BOC and also outlines its duties. Those duties include executive, judicial (quasi-judicial) and legislative authority. All duties are derived from the Home Rule Charter. The executive duties include establishment of the budget, which is done with the aid of three lay members. This is required by local government and budget laws. This duty includes acquiring federal funds, and monitoring expenditures of those funds. The Board of Commissioners is the policy body for the entire county. To implement policy, the Board appoints a county administrator. The Board of Commissioners also is the governing body for other boards such as the Jackson County Urban Renewal program, the White City Law Enforcement District and the White City Lighting District and along with the Josephine County Board of Commissioners, sits as the Jackson/Josephine Job Council.

The Board of Commissioners works with the Oregon Congressional Delegation providing information about the impacts of federal funding and laws on Jackson County. It works with members of the Oregon Legislature in the same manner. The Board of Commissioners also works with the county's 11 cities on matters of mutual concern. Finally, the Board of Commissioners serves the citizens of Jackson County by resolving complaints and legislating where necessary.

Major Issues and Service Level Goals for Fiscal Year 2006-2007

- Continue working toward completion of Urban Renewal projects.
- Develop, adopt and maintain the budget for Jackson County and lobby for stabilized funding from the federal government.
- Responsibility of the oversight for the general well-being and public safety of Jackson County.
- Work toward developing work force housing in the Rogue Valley.
- Enhance and protect agricultural interests and lifestyles in Jackson County.
- Continue disaster planning.
- Development of the commercial and industrial opportunities in White City and the Tolo area.
- Solution to water problems.
- Rural Renewal Focus Group.
- Meet economic needs in managing forests in Jackson County.
- Continued growth for Jackson County to include smooth transportation, jobs and easier development.
- More small companies that offer family wage jobs in Jackson County.
- A county park system that is self-sustaining.
- Have tourism play a critical role in the future.

Board of Commissioners

- Completion of the sports park complex and its master plan for growth.
- More public input.
- Develop Highway 140 access to I-5 and an interchange for South Stage Road to North Phoenix Road.
- Provide more parks and athletic venues as well as more bike paths interlinked.
- Regional Problem Solving.
- Continue to serve on state committees that benefit the state and Jackson County.
- Continue to work on the Fire Prevention Plan.
- Continue to work on a new Land Development Ordinance to create an easier and automated planning process.

Major Issues and Service Level Accomplishments for Prior Year

- Continued to work on improving air and water quality in the Rogue Valley.
- Continuation of work on area transportation plans.
- Appointments to state committees.
- Continue to work on maintaining O&C funding for Jackson County.
- An easier and automated planning process.
- Continue to work with National Forest Counties and Schools Coalition.

Board of Commissioners

Category Name

Board of Commissioners

Program Purpose

The Board of Commissioners is the policy setting body for the entire county. Duties include executive, judicial (quasi-judicial), and legislative authority. The Board is helping to meet county goals: (2) Serve all citizens fairly and ensure access to county government; (6) Encourage citizen understanding and participation in county government; and (12) Plan for the future.

Program Description

- Availability to the public**

Strategic objective: The Board's weekly meeting and land use hearings are televised. The Board meetings often include departmental presentations on matters of county interest. The agenda is organized so public input is the first item of business. The meetings are also available over the internet. Agendas for all BOC meetings are currently posted on the internet. There is also a bi-monthly "Ask Your Commissioner" show on public access TV.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
# of hours each Commissioner is available to the public	1,016 hrs/yr	1,016 hrs/yr	1,016 hrs/yr	1,016 hrs/yr

- Financial**

Strategic objective: Approve and maintain the county budget and work toward stabilizing county funding.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
# of hours Commissioners work toward adopting a balanced county budget and stabilizing funding	119 hrs/yr	119 hrs/yr	119 hrs/yr	119 hrs/yr

- Internal Processes: Achieve long-range plans, accomplishments and goals for each Commissioner**

Strategic objectives: The Board will continue to work on the following: area transportation issues; regional land use zoning; regional problem solving; natural resource issues; White City Urban Renewal; water issues;

Board of Commissioners

forest management plan; economic development; automate planning process; create self-sustaining county parks system and master plan; develop Highway 140 access to I-5 and an interchange at South Stage Road to North Phoenix Road; create more interlinked bike paths; fire prevention planning; disaster plan; work toward developing work force housing; and oversee general well-being and public safety of Jackson County.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
# of hours devoted to achieving long-range plans, accomplishments and goals per Commissioner	480 hrs/yr	480 hrs/yr	480 hrs/yr	480 hrs/yr

- **Learning and Growth**

Strategic objectives: Continue to meet with other organizations/ jurisdictions to work together for common goals.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Average number of educational training hours per Commissioner	60 hrs/yr	60 hrs/yr	60 hrs/yr	60 hrs/yr

Significant Issues in the Year Ahead

The Commissioners will work on the following issues in 2006-2007: continue working toward completion of the Urban Renewal Project; Tolo industrial park; development of the commercial and industrial opportunities in White City; enhance and protect agricultural interests and lifestyles in Jackson County; solution to water problems; meet economic needs in managing forests in Jackson County; mental health courts; continued growth for Jackson County to include smooth transportation, jobs and easier development; more small companies that offer family wage jobs in Jackson County; a county park system that is self-sustaining; work on a new land development ordinance to create an easier and automated planning process; continue to develop the sports park complex and its master plan for growth; develop Highway 140 access to I-5 and an interchange for South Stage Road to North Phoenix Road; provide more parks and athletic venues as well as more bike paths interlinked; develop, adopt and maintain the budget for Jackson County and lobby for stabilized funding from the federal

Board of Commissioners

government; and continue to serve on state committees that benefit the state and Jackson County.

Financial Condition

The program is funded entirely from chargebacks to the county departments based on their percentage of the budget and by special charges to Urban Renewal, the White City Enhanced Law Enforcement District, and the planning department.

Program: 020101	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Numbers for FY 02-03 through FY 04-05 are actual revenues and expenditures. FY 05-06 represents the revised budget and FY 06-07 is the adopted budget. For an explanation of the differences between the actual expenditures and budgets, see the Differences Between "Actual" and "Budgeted" Numbers located in the Budget Summary section of this document on page 32.

The increase in this budget is due to the completion of the new juvenile facility. FTEs have been reduced via additional efficiencies found after the new facility was opened.

Organization Chart

Community Justice

Highlights and Challenges

Department Summary

Purpose Statement: In collaboration with community partners, enhance public safety, support victims, and rehabilitate juvenile and adult offenders.

Major Issues and Service Level Goals for Fiscal Year 2006-2007

- Juvenile services continues to provide challenges in terms of funding the very significant increased costs of operation mostly associated with the new facility and personnel. The goal remains to minimize reliance on increases in support from the general fund. There is potential to do so in the coming year by expanding revenues in the detention budget through contracts with the Oregon Youth Authority for short term placements for assessment and evaluation. Placements into the newly implemented secure treatment program (externally grant funded) and the new day treatment program also provide opportunities to generate additional revenues. The majority of the increased costs in juvenile services has been addressed in this current budget by shifting general fund revenues from adult services.
- The increased bed capacity created by renting jail beds out-of-county, and the subsequent expansion of the transition program into the Talent jail has led to the recent development of contracts for utilization by the Bureau of Prisons. This has generated revenue to offset increased operational costs mostly associated with the acquisition of the Talent jail facility (building maintenance and repair, utilities, etc.). However, overall increased costs significantly affected this program budget. Thus, there is a reduction in personnel of four work crew coordinator positions to balance the budget. In the coming year, we hope to negotiate with the State of Oregon to develop similar contracts and enhance revenues for placement of Jackson County offenders in transition from prison to the community. This offers the potential to offset cost increases and increase revenues, including costs to the general fund, not only in adult services where the goal is to eliminate all general fund dependence, but also in juvenile services to reduce the burden to the general fund.
- Recent contract negotiations with the Federation of Oregon Parole and Probation Officers (FOPPO) resulted in significant increases in personnel costs for senior deputy parole and probation officers in the adult services budget. As a direct result of the contract, there was an approximate increase of \$452,000 over last fiscal year, not including the reduction of three positions that were vacant at the time of submittal. Not considering those reductions, the increase would have been approximately \$655,000. Given the circumstances, the budget was submitted with the intention of utilizing approximately \$350,000 in carry over to support the ongoing employment of five positions. However, should those carryover funds not be realized, it would be necessary to reduce those staff positions. The implications of such a reduction would require a work load reduction with specific regard to cases on misdemeanor supervision. At a minimum, in addition to the reduction of the five positions, two positions would be reduced to match the loss in revenues those specific cases would normally generate.

Community Justice

- The theft recovery program has been eliminated in this budget. This results in the reduction of a senior program specialist position. While highly successful in terms of collection of restitution, the program costs were significantly outweighed by the level of funding to support the program. Additionally, a review of the program identified that the majority of the service delivery was provided to the City of Medford Municipal Court. The City of Medford did provide funding to the program, but under funded their proportionate balance of the program costs. The City of Medford was offered the opportunity to continue the program with contributions of proportionate funding responsibility, but declined. Therefore, the program is being discontinued based on inadequate funding levels.
- Senate Bill 267 requires programs receiving state funding to maintain and demonstrate evidence-based practices. Implementation of the principles of evidence-based practices will continue throughout the department.
- The department remains committed to the continued implementation of evidence-based programming in consistent service delivery of alcohol and drug treatment services throughout the department with the use of carry over funding. We will seek to identify and secure a sustainable funding source to address the significant issues of drug abuse within the offender population.

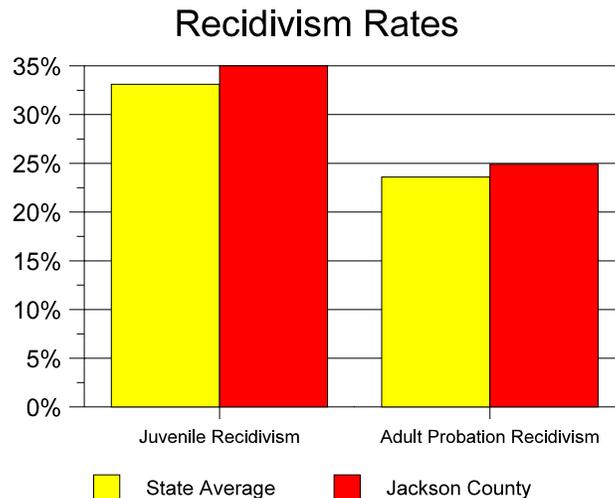

Major Issues and Service Level Accomplishments for Prior Year

- Redesigned the organizational structure to create efficiencies leading to a reduction in several management staff positions over the last and coming fiscal years including one high-level management position in this budget.
- Brought the new juvenile services center completely operational.
- Designed and implemented a secure treatment program in detention with the use of external grant funding.
- Designed and implemented a day treatment program for outpatient youth services.
- Brought the transition program, including the old Talent jail, fully operational for both the men and women's components of work restitution, work release and transitional housing.
- Worked in partnership with the Sheriff's office to increase and manage bed capacity, including renting jail beds and coordinating the design and implementation of the electronic matrix release system. Utilized the Talent jail to serve an increased population in the men's portion of the program and established contracts with external agencies to off set costs associated with such expansion.
- Relocated the forest camp to the Talent facility in an effort to reduce costs and maximize staff efficiency.
- Designed and implemented a contracted alcohol and drug treatment program throughout the entire department including the transition program, the juvenile services center and the West Main facility to deliver accessible and consistent treatment in a continuum of care to offenders in the system.
- Through a partnership with health and human services, brought on a mental health specialist to serve the adult and juvenile populations involved with community justice.

Community Justice

- Worked in conjunction with the Sheriff's office to secure a combined service contract for food service, commissary programs and inmate financial management.
- Worked in cooperation with the Sheriff's office, the District Attorney and county administration to attend the National Institute of Corrections Planning of New Institutions (PONI). Additionally, community justice coordinated a jail and justice system assessment for a comprehensive review of county public safety practices.
- Participated in the implementation of the new drug court and implemented various programs through the meth task force.
- Worked on the research and feasibility study to implement video arraignment for the courts, Sheriff's office and community justice; and developed and implemented the contract to establish video arraignment prior to the end of FY 2005-2006.

Benchmark

Juvenile recidivism in Jackson County is about 1.9 percent lower than the state five year average. In addition to the additional incarceration capacity created by the new juvenile services center, it is anticipated that the addition of secure treatment, day treatment, and mental health services will assist to reduce the county's juvenile recidivism rate. The Jackson County adult probation, three-year recidivism rate has declined from 31.5 percent to 24.9 percent, although that is still higher than the statewide average of 23.6 percent. The recidivism rate is on a downward trend. Most recently, the reported rate for the first six months of last year (2005) show an even more significant reduction to roughly 15 percent. This is a short term measurement, but supports the suggestion that the trend is moving in a positive direction. It is anticipated that both the adult and youth recidivism rates will drop below the statewide average through the use of alternative sanctions and programs, the implementation of evidence-based practices, and given the addition of alcohol and drug treatment services made available to all offenders.

Community Justice - General Administration

Category Name

Community Prosecution & Justice

Program Purpose

To plan and administer the delivery of a variety of correctional services for juvenile and adult offenders that hold offenders accountable for their crimes, enhance public safety, support crime victims, and reduce the incidence of repeat criminal behavior. The general administration program is helping to meet county goals: (1) Protect health, safety, and well-being of all citizens; (4) Strengthen cooperation between public agencies; (10) Make the best use of Jackson County's human and material resources; and (12) Plan for the future.

Program Description

The general administration program provides the following service:

- **Contract management**

Strategic objective: Increase the amount of contracted services such as firefighting, residential alcohol/drug treatment, mental health treatment, and sex offender treatment. These services support the management of the offender population; thereby, increasing public safety for the citizens of Jackson County.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Annual \$ amount of contracts managed	\$519,495	\$679,111	\$479,111	\$672,413

Significant Issues in the Year Ahead

The department is engaged in four major initiatives: 1) The implementation of the transition program in Talent to increase the capacity of alternatives to incarceration and improve outcome measurements in association with evidence-based practices; 2) The implementation of enhancements to criminal justice system alcohol and drug treatment services with consistent service delivery throughout the department for both adult and youth offenders. This includes the identification and securement of sustainable funding sources to address the significant issues of drug abuse within the offender population; 3) The implementation of the secure treatment program in detention/shelter, the implementation of the day treatment program and the implementation of evaluation and assessment services via contract with the Oregon Youth Authority; and 4) The department will implement Evidence Based Practices to comply with Senate Bill 267.

Community Justice - General Administration

Financial Condition

The general administration program is funded as follows:

Anticipated CCA Carryover	41%	Fees	2%
Jail Assessment	38%	General Fund	0%
Community Corrections Act	19%		

The majority of the revenue for this program comes from the Community Corrections Act (CCA).

The decrease in this program is due to moving a portion of the contract items between programs.

Program: 480102	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Court Services

Category Name

Community Prosecution & Justice

Program Purpose

Provide community safety and youth offender rehabilitation. The program is helping to meet county goal: (1) Protect health, safety, and well-being of all citizens.

Program Description

The court services program provides the following service:

- **Juvenile supervision and treatment**

Strategic objective: Maintain youth offender recidivism at 35.5 percent.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Youth offender recidivism	34.3%	36%	36%	35.5%

Recidivism data is provided by the Oregon Youth Authority from data collected from the Juvenile Justice Information System (JJIS). The most current data is for 2003 and prior.

Significant Issues in the Year Ahead

The youth offender recidivism rate will be influenced by state juvenile crime prevention funding reductions and youth correctional bed allocations by the Oregon Youth Authority, as well as any county program reductions. Recidivism is also effected by the availability and aggressiveness of county law enforcement. Information contained in JJIS indicates a higher than average arrest rate for less serious crimes, but a lower than average arrest rate for serious crimes. All crimes, however, count as part of the recidivism statistics.

Financial Condition

The court services program is funded as follows:

General Fund	71%	Title III	9%
Grants	18%	Fees	2%

This program is funded by a variety of sources. Revenue is received from the state to keep supervision of youth in the community and to reduce referrals to correctional facilities. In addition, this program receives federal grant dollars and county general fund revenue to assist with the operation of supervision and treatment programs.

Court Services

Program: 480209	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Detention and Shelter

Category Name

Community Prosecution & Justice

Program Purpose

The purpose of juvenile detention is to provide for community safety and meet legal mandates, while minimizing the county's civil liability. The purpose of the youth care center is to provide a short-term, secure drug and alcohol treatment program for eligible youth. The purpose of the juvenile shelter is to provide a temporary, safe, and structured environment for juveniles awaiting other placement opportunities. The detention and shelter program is helping to meet county goals: (1) Protect health, safety, and well-being of all citizens, and (4) Strengthen cooperation between public agencies.

Program Description

The detention and shelter program provides the following services:

- **Juvenile detention**

Strategic objective: Hold youth offenders awaiting adjudication on merits of statutory requirements - those not fit for release. Increase effective detention bed capacity.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of youth offenders admitted	n/a	n/a	1,345	1,412

- **Youth care center**

Strategic objective: Provide a secure, short-term drug and alcohol treatment program for eligible youth.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Percentage of youth offenders that graduate/complete the program	n/a	n/a	n/a	80%

- **Juvenile shelter**

Strategic objective: Provide a safe place for youth/children awaiting other placement opportunities. Work with other public and private agencies in providing needed bed space.

Detention and Shelter

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of youth/children placed	n/a	n/a	319	334

Significant Issues in the Year Ahead

In fiscal year 2005-2006, through a partnership with OnTrack, we have added a secure treatment program in detention. This program is funded through a grant of approximately \$350,000. This grant is managed by OnTrack for service delivery to Jackson County and is not included in the budget. This program provides nine beds for Jackson County youth offenders ordered by the court to participate in the program for a minimum of 90 days. The program includes, but is not limited to, the use of cognitive behavioral interventions, alcohol and drug treatment, mental health services, education, employment and transition, each of which is considered in an overall case plan developed by an assigned case manager. This program offers the potential to develop a revenue stream through the use of Jackson County placements by the State of Oregon into the program billable to the State of Oregon. This potential will be analyzed and developed to provide assistance to the issue of long term, sustained funding for detention.

Another potential revenue source exists in a desire by the Oregon Youth Authority (OYA) to use short term placements in detention and/or shelter for Jackson County youth in OYA custody for evaluation and assessment. This potential will also be analyzed and developed to provide assistance to the issue of long term, sustained funding for detention.

Coordinating services between detention, youth care center and the shelter program to effectively address the needs of the community is a continued issue in the year ahead.

Financial Condition

The detention and shelter program is funded as follows:

General Fund	80%	Meal subsidies	2%
Contracts	14%	Title III	2%
Grants	2%		

The majority of the revenue for this program is from the county's general fund.

Detention and Shelter

Program: 480210	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Rehabilitation and Education

Category Name

Culture, Education & Recreation

Program Purpose

To assist in the management of the offender population, both in the jail and in the community; hold offenders accountable to victims and the community; make maximum use of custody, treatment, and community resources; provide options for the court, deputy parole/probation officers and the community partners that help rehabilitate offenders; and provide public information. The rehabilitation and education program is helping meet county goals: (1) Protect health, safety, and well-being of all citizens; (4) Strengthen cooperation between public agencies; (10) Make the best use of Jackson County's human and material resources; and (12) Plan for the future.

Program Description

The rehabilitation and education program provides the following service:

- **Community service**

Strategic objective: Provide the opportunity for offenders to restore the community by performing community service work.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Offender community service hours per year	48,879	45,000	45,000	41,544

The projected 15 percent decrease is due to the termination of the 1st Option program.

Significant Issues in the Year Ahead

It is difficult to identify all specific issues for the coming year with the many anticipated changes in structure and staffing. The budget in this unit has significantly changed with re-assignment of staff and programs. Programs in this unit support probation officers, the jail, community partners, case management for the courts, and high numbers of offenders are monitored with few staff. The recidivism rate for 1st Option has continued to increase with each passing year and doesn't comply with the requirements of Senate Bill 267 and evidence-based practices. Thus, the program has been discontinued. While successful in terms of collecting restitution, the expense of the theft recovery program far exceeds the revenues it generates and can't be sustained. It too has been eliminated.

It appears likely there will be more re-assignment of staff as duties are reviewed and evaluated to meet the new direction of the department.

Rehabilitation and Education

Financial Condition

The rehabilitation and education program is funded as follows:

Community Corrections Act	74%	Fees	7%
General Fund	18%	City of Medford	1%

The majority of the revenue for this program is from the Community Corrections Act (CCA).

The decrease in this program is due to the restructuring of staff.

Program: 480101	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Supervision Services

Category Name

Community Prosecution & Justice

Program Purpose

The program purpose is to protect the community through the management and reformation of criminal offenders placed on probation, parole or post-prison supervision in order to reduce future criminal conduct. This program is enhanced by strong cooperation between public agencies who have contact with, or provide services to offenders. The program is helping to meet county goal: (1) Protect health, safety, and well-being of all citizens.

Program Description

The supervision services program provides the following services:

- **Adult offender supervision**

Strategic objective: Reduce recidivism rates for probation by 1 percent, parole by 2 percent, and increase positive case closures by 1 percent.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Reduce probation recidivism	27.6%	22.5%	25.9%	24.9%
Reduce parole recidivism	38.5%	30.0%	36.5%	34.5%
Increase positive case closure/probation	72.8%	78.4%	71.8%	70.8%
Increase positive case closure for parole/post-prison	56.2%	61.4%	55.9%	54.9%

- **Offender accountability for supervision costs**

Strategic objective: To increase supervision fee collection as measured by percentage owed to percentage collected by 1 percent.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Increase percentage of amount collected compared to amount owed	38.6%	36%	40%	41%

Supervision Services

- **Home detention**

Strategic objective: To provide an alternative to jail for offenders and at the same time, assure that they are not at large in the community.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
# of offenders in home detention	572	572	572	552

- **Pre-trial release**

Strategic objective: To provide supervision of offenders between the time they are released from jail and the time they go to court to assure they do not continue their involvement in criminal behavior.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
% of offenders arrested while on pre-trial supervision	11.7%	10%	10%	10%

Significant Issues in the Year Ahead

With the continued uncertainty regarding resources throughout the community, there will be changes in this program regarding monitoring, supervision, and delivery of services. Availability of resources such as alcohol and drug treatment, Oregon Health Plan, offender subsidy, and housing will also be major factors. There is always the possibility of having to reduce staff as state and local funding pools remain uncertain. There will be a need to prioritize and reconfigure the position of the department's overall goal to protect the safety of our citizens and continue to offer offender services given the requirements of Senate Bill 267 and evidence-based practices.

Pressing issues for the next fiscal year include increasing workloads with same or reduced number of staff, and continuing to meet or exceed state outcome measures. There will be a focus on offenders with substance abuse, housing, and employment issues using specialized programs and supervision. Specialized supervision and treatment of domestic violence offenders will also be ongoing to include special training of officers and collaboration with numerous community agencies dedicated to stopping domestic violence and raising awareness. We will continue to focus on sexual offenders in the community and work in partnership with the Jackson

Supervision Services

County sex offender network to provide consistent and effective supervision and treatment.

Financial Condition

The supervision services program (adult parole and probation) is funded as follows:

Community Corrections Act	55%	Grants	5%
Fees	25%	General Fund	0%
Anticipated CCA Carryover	15%		

The majority of the revenue for this program is from the Community Corrections Act (CCA).

The increase in this program is due to the restructuring of staff.

Program: 480106	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Full-Time Equivalent	31.10	29.00	27.00	35.31	29.47

Transition

Category Name

Community Prosecution & Justice

Program Purpose

The purpose of the transition program is to protect the community by holding offenders accountable for their behavior and helping them to become law abiding citizens through supervised juvenile community service, adult community service, and forest rehabilitation projects. The transition program is delivered in facilities where offenders reside as an alternative to jail or as a subsidy placement.

The transition program is continuing to help meet county goals: (4) Strengthen cooperation between public agencies; and (5) Work to enhance the natural and man-made attractiveness of the area.

Program Description

The transition program provides the following services:

- **Program placement**

Strategic objective: Screen offenders for placement into programs which target their rehabilitation needs.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Percentage of offenders who successfully complete program	90%	90%	90%	90%

- **Work restitution (work crews)**

Strategic objective: Provide limited movement in the community with staff supervision to oversee offender work in our parks, highways, and our forests. The work consists of fuel reduction, firefighting, culvert improvement, sign making, firewood cutting, garbage debris collecting, grounds maintenance, building improvement, etc.

- **Work release**

Strategic objective: Provide opportunities for increased movement in the community so offenders can seek, find, and/or maintain employment while engaged in programming and generate a revenue from participation in the program.

Transition

- **Transitional housing**

Strategic objective: Provides significant movement in the community to develop living quarters and continue access to programming for offenders in transition to the community from incarceration.

Significant Issues in the Year Ahead

Anticipated state and federal budget cuts. Most will create opportunities to develop/extend our customer base.

There will be a continued increase in both the male and female population with the modifications to the Talent facilities to serve these specific populations. This will include the completed implementation of the components of work release and transitional housing. This will require additional staff training and modification of current service delivery, and provides additional complexities in the program.

Increased focus on treatment and employment in the program means an increased reliance on community partners to assist in delivering services.

The federal and state governments are anticipating changes in the way our forests are managed. This new philosophy should create opportunities for revenue in our fuels and fire program, but also cause concern for financial support from federal and state funding mechanisms.

Financial Condition

The restitution center program is funded as follows:

Contracts	31 %	Fees	8%
Community Corrections Act	31%	Anticipated CCA Carryover	4%
Title II and Title III	14%	Grants	1%
General Fund	10%	Phone/Commissary	1%

The majority of the revenue for this program is from the Community Corrections Act (CCA) and contracts.

The increase in this program is due to the expansion of the program into the old Talent jail to include a physical separation between the male and female programs. In the most recent fiscal year, the opening of the Talent jail was accomplished. This provided the opportunity to expand the current program by 85 beds through the use of that facility. The program is split by gender between the old Talent jail and the existing community justice center. Additionally, there is an expansion of the program services. The program includes the current work crew program which includes the forest rehabilitation program, but has been enhanced to provide offenders the opportunity to transition into the community through the addition of work

Transition

release and transitional housing which have created additional funding mechanisms.

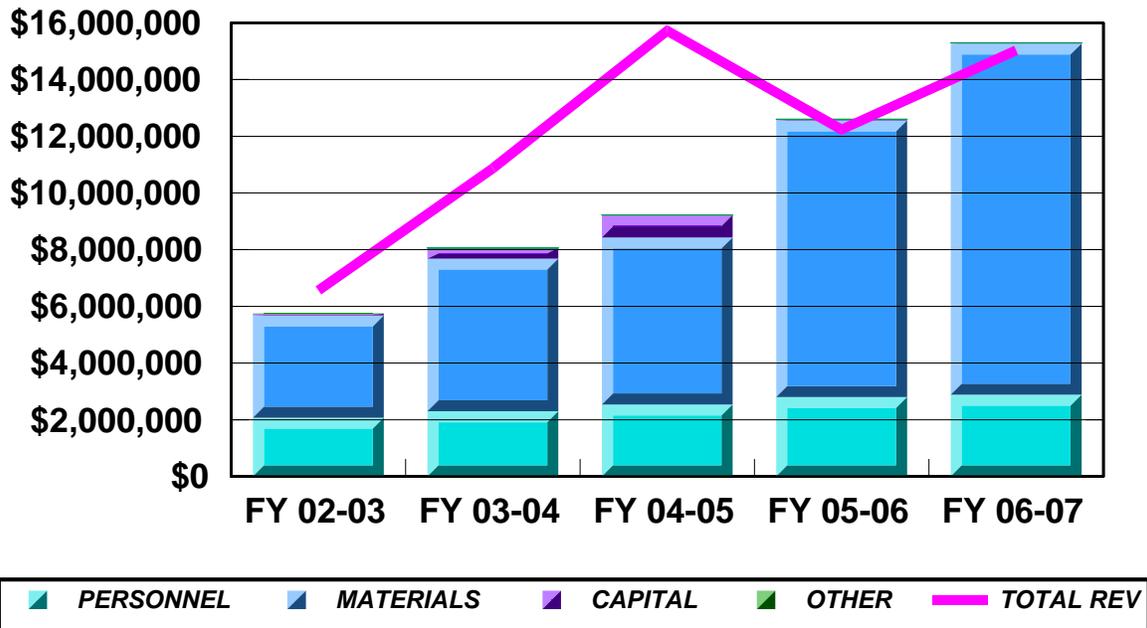

The addition in the number of participants and the increase of the continuum of services within the program provides access to increased revenue, and additional revenue sources to assist in offsetting the cost of operations. Specifically, there is potential to increase contract services in the community through the use of work crews. The work release and transitional housing components of the program offer the opportunity to contract services with the State of Oregon and the federal government for offenders in transition back into our community. Additionally, under the authority of Oregon Revised Statute, offenders will be responsible for a portion of their costs of participation in the program.

Program: 480104	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

FULL-TIME EQUIVALENTS	32.50	34.72	33.22	34.17	34.00

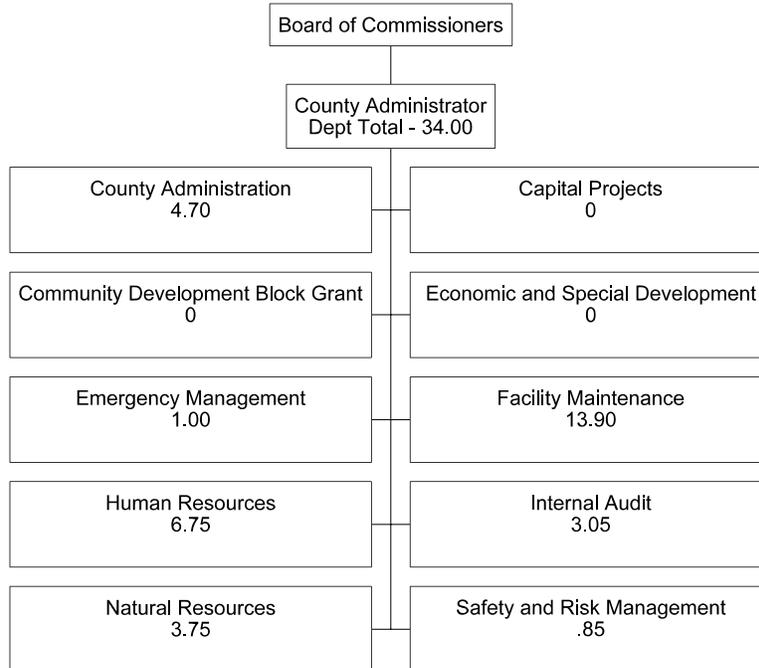

Numbers for FY 02-03 through FY 04-05 are actual revenues and expenditures. FY 05-06 represents the revised budget and FY 06-07 is the adopted budget. For an explanation of the differences between the actual expenditures and budgets, see the Differences Between "Actual" and "Budgeted" Numbers located in the Budget Summary section of this document on page 32.

The increase between FY 05-06 and FY 06-07 is a result of additional reserves in the county's self-insurance fund. Minor changes in FTEs are a result of time spent on Urban Renewal projects. Urban Renewal is technically a separate organization and has its own budget.

County Administration

Organization Chart

All employees are reported as full-time equivalents.

County Administration

Department Summary

Purpose Statement: The County Administrator's Office (CAO) provides general oversight and direction to the county organization as a whole, both in terms of planning for the county's long-term financial and organizational health and managing the day-to-day operation of one of the Rogue Valley's largest employers. The CAO implements and communicates to employees the policies, goals, and objectives of the Board of Commissioners and works with the Board to formulate those policies and goals. The CAO also evaluates program effectiveness, and supports all county programs and services through financial planning, facility maintenance (including the management of capital projects), human resources, safety and risk management, budget, internal audit and emergency management.

The County Administrator's Office is helping the county achieve all county goals.

Major Issues and Service Level Goals for Fiscal Year 2006-2007

Ongoing budget problems at the state and local level will significantly impact the nature and the form of Jackson County as an organization, as will our need to plan for a future that may not include the federal funding currently provided by the Secure Rural Schools and Self-Determination Act of 2000 or Public Law 106-393.

- Assist the BoC to successfully reauthorize PL 106-393. Two bills in the federal legislature, S267 and HR517, are designed to provide such reauthorization.
- Scrutinize all organization-wide systems and processes to identify cost savings and efficiencies.
- Present a balanced budget to the Budget Committee that best addresses the priorities of the citizens of Jackson County and the Board of Commissioners.
- Maximize funds for future use including maximum build up of the rainy day fund, should federal funding become unavailable in 2007.
- Aid Board of Commissioners' efforts to secure funding and other support for county programs at the state level.
- Communicate to the citizens of Jackson County and county employees, the policies, goals and objectives of the Board of Commissioners.

Highlights and Challenges

County Administration

- Conduct performance and investigative audits in accordance with the annual internal audit plan and Government Auditing Standards.
- Maintain and improve staff morale in this most difficult of times for public employers.
- Begin construction of the four libraries in the third tier of the library capital project.

Major Issues and Service Level Accomplishments for Prior Year

- Developed plan for county operations should federal funds be lost.
- Conducted internal audit work in the following areas: assessment activities, cash and investments, capital assets, vendor payments, purchasing card expenditures, travel expenses, payroll transactions, countywide petty cash and change funds, fair gate and parking admissions, animal shelter revenue collection, community justice commissary and prisoner trust accounts, district attorney victim witness restitution process, HHS food handlers' program, airport restaurant contract, federal financial assistance compliance, and required municipal audit law ORS compliance. Also, monitored outsourced audit work pertaining to the airport's reversion policy and a performance audit of planning activities.
- Obtained external financial statement audit, OMB Circular A-133 audit, and passenger facility charge audit as required by state law and federal regulations.
- Completed construction of the Central Point branch library.
- Began planning for new libraries in Talent, Phoenix and Shady Cove.
- Increased general fund "rainy day fund" to \$22,718,717.
- Awarded the Government Finance Officers' prestigious "distinguished budget presentation" award for Fiscal Year 2004-2005 and distinguished financial reporting award for Fiscal Year 2004-2005.

County Administration

Category Name

Organizational Infrastructure

Program Purpose

County administration carries out the policy direction of the Board of Commissioners and provides overall supervision of the county's operations. Administration translates the Board's goals and objectives into budgetary priorities, and develops, implements, and evaluates programs to meet current and future physical, economic, social, and cultural needs of Jackson County citizens. Administration also establishes the internal policies by which the county does business, presents a balanced budget to the Budget Committee each spring, and is ultimately responsible for "setting the tone" for the entire organization and its employees.

The administration program is helping to meet all county goals.

Program Description

The county administration program provides the following services:

- **Execute the policies and objectives of the Board of Commissioners and provide leadership to county departments**

Strategic objective: Apply a "best practices" model to the creation, implementation, and evaluation of programs that reflect the goals and priorities of the Board of Commissioners. Provide counsel to the Board during policy development, including community education and outreach. Ensure that all county departments "stay the course" in meeting the expectations of the Board and public in the execution of these programs, and monitor and evaluate department performance.

- **Ensure organizational effectiveness**

Strategic objective: Support a work environment that promotes the county's values, customer service, and fully utilizes the talents of county staff by reinforcing their knowledge, competence, and creativity.

- **Communicate the county's mission, goals, objectives, and programmatic initiatives to the public and employees**

Strategic objective: Build understanding and support for county programs and initiatives through a variety of communication tactics aimed at reaching as broad an audience as possible.

County Administration

- **Compile and present the budget to the Budget Committee**

Strategic objective: Recommend to the Budget Committee an annual spending plan that maximizes the use of county resources and reflects the priorities of the Board of Commissioners and the citizens of Jackson County.

- **Manage the county's capital projects**

Strategic objective: Manage the county's capital construction projects so as to bring all projects to completion on time and within budget.

Significant Issues in the Year Ahead

Budget issues and the need to plan for a future that may not include the federal funding the county currently receives will continue to dominate the County Administrator's work program in the coming year.

Financial Condition

County administration is an internal services department that is funded by chargebacks to other funds. About 49 percent of those chargebacks are to the general fund. Because this department manages the county's capital projects, a small portion of this department's budget is charged back to those projects.

Capital Projects

Category Name

Organizational Infrastructure

Program Purpose

The capital projects program provides a budget location for special construction that affects multiple departments or are of such a size that identifying them as a capital project is appropriate. The capital projects program is helping to meet county goals: (1) Protect health, safety, and well-being of all citizens; and (7) Make recreational, learning, and cultural opportunities accessible and available.

Program Description

Facility maintenance will coordinate the following projects:

- Main Jail - seal kitchen floors \$ 45,000
- Main Jail - seal exterior recreation area "B" \$ 26,000
- Main Jail - replace boiler \$ 31,900
- Health "A" - replace air-cooled liquid chiller \$ 28,000
- Health "C" - replace roof \$ 32,200
- Courthouse - paint/putty around windows \$ 14,500
- Courthouse - tuck-pointing boiler stack \$ 13,000
- Courthouse - tuck-pointing exterior walls \$ 23,000
- District Attorney "A" - replace roof \$ 23,000
- Women's Work Center - replace roof \$ 35,500

- Reserve balance from property sale \$560,200

- \$832,300

Community Development Block Grant

Category Name

General Government

Program Purpose

To provide for the availability of public facilities and infrastructure, while increasing business and employment opportunities and promoting community development. The Community Development Block Grant (CDBG) program is helping to meet county goal: (3) Provide opportunities for all citizens to prosper by promoting the economic development of the area.

Program Description

The CDBG program provides for separate accounting and grant management of economic and community development projects.

- **Grant management**

Strategic objective: Manage CDBG projects so they are completed on time and on budget. Economic and Special Development serves as grant administrator for CDBG funds awarded to Jackson County.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Housing Rehabilitation	\$179,432	\$375,000	\$375,000	\$362,500
Housing Resource Center	\$0	\$59,500	\$59,500	\$59,500

- **Grant acquisition**

Strategic objective: Strive to acquire three grants per year, the maximum number of CDBG grants allowed by state law.

Significant Issues in the Year Ahead

The focus of CDBG grants has shifted toward economic development and away from community development. This has decreased grant dollars available for non-profit service providers to increase their capacity to assist their clients. However, it is anticipated that through a CDBG request for project process conducted by the county's Health and Human Services Department the county will attain at least one CDBG grant for a non-profit agency.

Financial Condition

This program is supported 100 percent by state of Oregon pass-through dollars.

Community Development Block Grant

Economic and Special Development

Category Name

Business, Private & Special Location Development

Program Purpose

The goal of the economic and special development program is to attract, retain, and expand industries that provide a broad range of manufacturing opportunities. The economic and special development program is helping to meet county goals: (3) Provide opportunities for all citizens to prosper by promoting the economic development of the area; and (12) Plan for the future.

Program Description

The economic development program provides the following services:

- **Regional partnerships**

Strategic objective: Work with Jackson County's regional economic development partners to facilitate business retention and expansion.

- **County lead staff**

Strategic objective: Serve as lead staff when economic development inquiries are made. Work with other departments to shepherd economic development projects through the county's various processes.

Significant Issues in the Year Ahead

Jackson County's economy weathered the recession that gripped much of the state. Our county has seen unemployment rates trending downward from a peak of 9.5 percent reached in January 2002 to 5.1 percent posted in 2005. The county's unemployment rate is slightly below the state's unemployment rate of 5.5 percent. The region's success has been due in part to the continued in-migration of residents from outside the state and to a diversified economic structure that is not highly dependent on the high-tech industry.

The department succeeded in helping to attract Amy's Kitchen to White City and acted as a project leader facilitating their land use and building applications through the planning and building divisions. Amy's Kitchen is constructing a food processing plant on a parcel in White City, west of Antelope Road, south of the railroad tracks. They will employ approximately 200 people and the plant is scheduled to begin operation in 2006.

After the success of Amy's Kitchen, the department began working closely with the planning division to replicate the development review team approach used for Amy's Kitchen. The development review team has become a regular planning department process whose purpose is to provide

Economic and Special Development

better communication between the customer and various regulatory agencies within and outside the county.

The county is the largest contributing local partner to Southern Oregon Regional Economic Development, Inc. (SOREDI). During the first six months of 2005, SOREDI helped bring five new companies to Southern Oregon, with one of those companies locating in White City. SOREDI helped create 582 new jobs with an average wage of \$16.72.

Financial Condition

This program is funded 100 percent by the general fund. Sixty-seven percent of the funds for this program support local regional economic development partners, Southern Oregon Regional Economic Development Inc., and the Southern Oregon Visitors' Association.

Program: 080302	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Emergency Management

Category Name

Organizational Infrastructure

Program Purpose

The emergency management program is responsible for supporting collaborative emergency planning, promoting a coordinated disaster response, obtaining disaster assistance, and instituting measures that may reduce the potential impact of disasters. The emergency management program is helping to meet county goals: (1) Protect health, safety, and well-being of all citizens; (4) Strengthen cooperation between public agencies; and (12) Plan for the future.

Program Description

The emergency management program provides the following services:

- **Collaborative planning**

Strategic objective: Maintain coordinated emergency operations, hazard mitigation, and public information plans. This is achieved through group planning processes.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of plans drafted	5	5	5	3

The projected number of plans in fiscal year 2006-2007 is lower because of the completion of event-driven plans. Scheduled implementation of the Jackson County Natural Hazards Mitigation Action Plan will take place in fiscal year 2006-2007. The Integrated Fire Plan is due to be completed in September 2006. Continued revisions and updates include: the Communication Plan, the Preparedness Plan, Emergency Operations Procedures (EOP), Community Organizers Active in Disasters (COAD), the Emergency Operations Center (EOC) Plan and the Resource Plan.

- **Promoting a coordinated disaster response**

Strategic objective: Promote a coordinated disaster response by maintaining an effective EOC, educating emergency responders about the new National Incident Management System (NIMS), and holding multi-agency disaster exercises.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of multi-agency disaster exercises held	5	5	3	2

Emergency Management

The number of multi-agency exercises are expected to decrease in FY 2006-2007. There is more emphasis from the Office of Domestic Preparedness (ODP) focusing on coordination of response agencies for regional exercises to be held semi-annually. Semi-annual schedule provides more participation and structured scenarios.

- **Obtaining disaster assistance**

Strategic objective: Enable people and organizations to receive assistance for damages caused by disasters. This is accomplished by accurately assessing and reporting damages, requesting assistance, distributing information to the public about available assistance, and referring faith-based organizations and volunteer agencies (COAD) to those who are unable to obtain assistance through government programs.

- **Reducing the potential impact of disasters**

Strategic objective: Reduce the potential impact of disasters by instituting effective public warning systems, increasing disaster preparedness among citizens and businesses, and implementing hazard mitigation measures.

Significant Issues in the Year Ahead

The terrorist acts of September 11, 2001, the United States' war against terrorism, and the war in the Middle East have caused emergency management to place most of its attention on Homeland Security preparedness. This relatively recent change in focus is likely to persist, being driven by current events, federal funding, and public anxiety. Also, because homeland security grant funding is being directed through local emergency management offices, significant time is being spent on grant coordination in place of other activities.

Financial Condition

The emergency management program is 50 percent supported by the general fund. Each year it receives \$60,000 in federal grant funds to offset program costs. Since 1997, the program has successfully obtained an annual average of \$100,000 in grant funding to support countywide emergency management planning, training, and equipment.

Emergency Management

Program: 080301	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Facility Maintenance

Category Name

Organizational Infrastructure

Program Purpose

The purpose of the facility maintenance program is to maintain the county buildings in order to preserve their integrity and provide comfortable, functional and safe facilities for the public and employees. The facility maintenance program is responsible for maintaining all county facilities (104 buildings) and for making improvements for departments as approved by the budget committee. The facility maintenance program is helping to meet county goal: (10) Make the best use of Jackson County's human and material resources.

Program Description

Facility maintenance provides the following services:

- **Building maintenance**

Strategic objective: Maintain all county buildings to preserve the integrity of the building and maintain a safe, comfortable environment for customers and staff. This will be achieved through performing preventive maintenance, 5-year projects, capital projects and maintenance tasks on schedule, and keeping costs below the International City/County Management Association's average maintenance per square foot cost of \$2.45.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Annual square foot costs	\$1.90	\$1.90	\$2.21	\$2.10

The program will continue to monitor all maintenance task costs and monitor purchasing of materials, parts, and tools.

- **Construction management**

Strategic objective: Provide project management for the construction of three branch libraries, the completion of the juvenile center, and building remodels to ensure that the construction projects meet construction specifications and are within budget.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Buildings completed	5	5	5	4

Facility Maintenance

Manage construction projects to ensure that the projects are done to construction specifications and that they are completed on schedule and within budget.

- **Contracted custodial**

Strategic objective: Manage and administrate the custodial contract to ensure that our buildings are cleaned on schedule as per cleaning specifications.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Buildings cleaned	32	32	32	32

Manage our contract to minimize customer complaints and ensure that our buildings are cleaned as efficiently as possible under the specifications of the cleaning contract. As a note, our current contractor employs developmentally disabled employees giving them meaningful work and we are receiving a better cleaning service.

- **Safety**

Strategic objective: Manage the county's safety program, giving the Risk Manager assistance with safety matters and providing administrative support to the county safety committee, updates to OSHA regulation changes and administrate the MSDS program.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Training hours/employee	24	24	24	24

Manage safety programs to cut down on accidents county-wide through training of employees to make them more aware of safety hazards. The goal of the safety program is to make Jackson County a safe place to work.

Significant Issues in the Year Ahead

Maintaining support for construction oversight of new facilities (including libraries and the new juvenile complex) while maintaining oversight of normal maintenance activities.

Facility Maintenance

Financial Condition

There is a tendency to reduce maintenance when there is pressure to cut public services. Interior maintenance can often be deferred, but the exterior must be maintained to assure the integrity of the building. As of July 2003, all solid waste for the core buildings will be charged to the solid waste program.

The program is funded by chargebacks to departments.

Program: 080103	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Human Resources

Category Name

Organizational Infrastructure

Program Purpose

The human resources program supports all county operations by ensuring equitable treatment of employees in accordance with labor contracts, state and federal law, and county policies. The public has a right to expect that the county will hire and retain only the best qualified people and that those people will receive ongoing training. The human resources program also protects the county's interests by applying, and helping managers apply, its considerable expertise in employment law and best employment practices. The program is helping meet county goals: (9) Promote employee pride, high standards of performance, and productivity; and (10) Make the best use of Jackson County's human and material resources.

Program Description

The human resources program provides the following services:

- **Employee recruitment, selection and retention**

Strategic objective: Identify, through a competitive screening process, the best qualified candidates for county positions and work to retain those employees once hired.

- **Maintain the salary and benefits package and the countywide job classification plan**

Strategic objective: Ensure that county employees are fairly compensated and that internal equity and marketplace viability are maintained in the county's overall compensation package.

- **Negotiate and administer county labor agreements, and represent the county in employee disputes. Ensure compliance with federal law, state statutes, and county policies in employment matters. Maintain county personnel records.**

Strategic objective: Ensure that labor agreements are fair but affordable, and allow for the appropriate level of management discretion in making the most effective and efficient use of county human resources. Provide support and direction to county managers in the day-to-day departmental personnel matters.

- **Develop and implement training programs for all county employees**

Strategic objective: Provide timely and relevant opportunities for employees to improve and enhance their skills and productivity.

Human Resources

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
# of county employees attending HR-sponsored training	1,102	1,200	1,100	1,200

Significant Issues in the Year Ahead

In FY 2005-2006 the human resources office continued the implementation of several business process changes begun in FY 2004-2005. The human resources office reviewed more than 8,000 applications in its first full year of collecting and screening employment applications, and continued the implementation of the human resources and payroll components of the county's new financial system. Six departments now utilize the self-service time reporting function, with more to come on-line soon. Contract negotiations with the county's newest bargaining unit, the Federation of Oregon Parole and Probation Officers (FOPPO), concluded in December 2005 after nearly a year and a half of bargaining. Human resources anticipates that bargaining for new contracts with FOPPO and Service Employees International Union (SEIU), which represents the county's general service employees, will begin in or around December 2006. Contracts with both of those bargaining units expire June 30, 2007.

Financial Condition

The human resources office revenue is generated from interdepartmental charges which are approximately 65 percent general fund.

Human Resources

Program: 080104	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Internal Audit

Category Name

Organizational Infrastructure

Program Purpose

The internal audit program promotes positive change that improves the performance of county government and provides accountability to the public. The internal audit program conducts independent appraisals of county programs, activities, subcontractors, and agencies receiving funds from Jackson County. The internal audit program is also responsible for coordinating and monitoring audits performed under contract, such as the county's annual external financial audit and special program reviews of functional areas. In addition, the internal audit program provides accounting and auditing expertise to county departments, committees, teams, and partnerships.

The internal audit program is helping to achieve county goals: (9) Promote employee pride, high standards of performance, and productivity; (10) Make the best use of Jackson County's human and material resources; (11) Maintain public records to provide financial, historical, and statistical information; and (12) Plan for the future.

Program Description

The internal audit program provides the following services:

- **Performance audits**

Strategic objective: Assess the performance of county programs, and/or activities in order to provide information that improves public accountability and facilitates sound decision-making by parties with responsibility for overseeing operations.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
# of recommendations accepted by management	94%	92%	92%	92%

- **Investigations of reported fraud, waste, or abuse**

Strategic objective: Promptly investigate allegations or indications of fraud and abuse, and notify appropriate officials of audit findings.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Dollars of fraud, waste, or abuse investigated	\$90,000	\$50,000	\$50,000	\$10,000

Internal Audit

- **External audit contract monitoring and coordination**

Strategic objective: Contain audit cost by closely monitoring the external audit contract and by coordinating internal audit work with the external auditors in the areas of management controls, federal financial assistance, and compliance with laws and regulations.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Maintain stability of audit costs relative to county expenditures	.15%	.16%	.16%	.16%

Significant Issues in the Year Ahead

Implementation of the county's new E-1 financial, payroll, and budget systems have required internal audit to redesign audit programs and enhance testing of internal controls. Internal audit continues to increase its use of ACL data analysis software which allows electronic information from multiple data bases to be analyzed and reconciled in an efficient manner. Internal audit will need to prioritize audit requests with resource capacity to ensure work is directed at appropriate areas.

Financial Condition

This program's budget is 65 percent funded by chargebacks to other county programs and 35 percent funded by a general fund transfer. The actual general fund transfer is often less than the budgeted amount. At the time the budget is prepared, it is not known which performance audits will be conducted in the ensuing fiscal year. These audits are chosen based on a risk assessment process that occurs in June. Accordingly, all costs related to performance audits are budgeted in the general fund fiduciary program. Actual charges are calculated after the end of the fiscal year.

Internal Audit

Program: 080102	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Natural Resources

Category Name

Natural Resources & Environment

Program Purpose

The purpose of the natural resources program is to provide staff support within the Jackson County organization on issues related to natural resources and the environment; to manage the county's water resource; and to help protect ecosystem health while enhancing the quality of life for Jackson County's citizens, businesses, and industry. The natural resources program is helping to meet county goals: (1) Protect health, safety, and well-being of all citizens; (5) Work to enhance the natural and man-made attractiveness of the area; and (12) Plan for the future.

Program Description

The natural resources program provides management and consultation on subjects related to the environment and environmental regulations.

- **Protect the water resources in Jackson County**

Strategic objective: Ensure that residents are adhering to the parameters and/or conditions of their water rights.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Installation/up-grade of water monitoring stations	4	4	4	3 to 5

Install two stream gaging stations on high priority streams as determined by the water community, to more accurately and continually measure stream flow.

Strategic Objective: Participate in the Water for Irrigation, Streams and Economy (WISE) project.

Outcome: Partner in funding the WISE project coordinator's position with other municipalities and irrigation districts.

- **Protect habitat for fish that are listed as federally endangered**

Strategic objective: Monitor flows during the irrigation season on critical streams in Jackson County.

Outcome: Continue to provide the in-kind match for an Oregon Water Enhancement Board (OWEB) grant. For the second year, Watermaster staff will train two stream walkers who will monitor in-stream

Natural Resources

water right flows on 40 high priority sites in Jackson County.

Strategic Objective: Provide education to water rights holders on the state in-stream leasing program.

Outcome: Facilitate the leasing of three water rights, whose net effect is an increase to in-stream water thus enhancing stream fish livability.

- **Protect and improve water quality for all beneficial uses**

Strategic objective: Work regionally to facilitate the implementation of the Storm Water Management Program.

Outcome: Facilitate the leasing of water rights for in-stream use on heavily appropriated streams. The net effect is to increase year-round in-stream water, thus enhancing water livability for native fish.

Strategic objective: Work with watershed councils and others to develop TMDL (Total Maximum Daily Loads) implementation plans for Bear Creek and the Little Applegate River.

Outcome: The receipt of funding under a Department of Environmental Quality's 319 grant will allow for the installation of temperature monitoring equipment at existing and new water monitoring stations, thus providing another real-time data tool for the improvement of water quality in Bear and the Little Butte Creeks.

- **Protect forest resources and residents from wildfire**

Strategic objective: To reduce the occurrence and severity of wildfires in Jackson County and to increase the county's ability to deal with wildfire with agency and resident cooperation through the fire planning process.

Outcome: Establish working relationships among those involved in wildfire response and prevention through the development and implementation of the county fire plan.

Strategic objective: Work cooperatively as a member of the Josephine Jackson Local Coordinating Group (JJLCG) to address priorities for fuel reduction project

Natural Resources

funding so that limited funds are spent to maximize benefit.

Outcome: Review and rank applications for National Fire Plan and other grant funding and coordinate on other fire related issues.

- **Administer Title III grants**

Strategic objective: Ensure that Title III funds are distributed and monitored in compliance with Public Law 106-393 and provide benefit to the federal forests.

Significant Issues in the Year Ahead

Jackson County's water resource will continue to be a significant issue in the year ahead. There is the risk that the U.S. Bureau of Reclamation may be sued for diverting Klamath Basin water to the Rogue Basin. Working through the Water for Irrigation, Streams, and Economy (WISE) program, staff from the natural resources program will monitor the legal discussion and participate locally in any discussion related to this topic.

The Watermaster's office will continue the stream flow monitoring program, funded by Title III dollars. Funding for the coming year will allow for the placement of three additional water gauging stations in the Bear Creek watershed. Possible sites would be: Jackson, Wagner, and Neil Creeks. The gauging stations are designed to monitor stream flow during the irrigation season (April through October) and will assist the county in determining the quantity of the resource and help identify any shortfalls.

The county has received a grant from the U.S. Economic Development Administration (EDA) to fund the development of a sustainable water resources plan that will address water needs for various uses and options for securing that water for the future.

Jackson County was required to develop a storm water management plan aimed at protecting water quality in order to comply with the federal Clean Water Act. The management plan was completed in March 2004. The next step in the process is to develop a storm water ordinance that will implement the management plan.

Jackson County is also required by the Clean Water Act to develop a water quality implementation plan based on water quality parameters that are not being met. The storm water plan will become part of this document, but it will also address non-storm water related impacts.

Jackson County is leading the effort to develop the Jackson County Integrated Fire Plan in order to reduce the frequency and intensity of wildfire. The fire planning process is bringing agencies and stakeholders

Natural Resources

together in a collaborative effort to improve response and prevention. The implementation phase of the fire plan will begin in the fall of 2006.

Financial Condition

Watermaster's office staff is aggressively pursuing funding from other sources to continue the operation and maintenance of the gauging station network. In the last year, the Bureau of Reclamation has issued a two-year contract for operation and maintenance of existing stations. The recently granted two-year DEQ 319 grant will provide funding for the installation, operation and maintenance of temperature monitoring equipment at existing gauging stations. These growing partnerships will continue to enhance the stream flow monitoring program and hopefully lead to self-sufficiency.

Approximately 26 percent of this program is supported by the general fund.

Safety and Risk Management

Category Name

Organizational Infrastructure

Program Purpose

The safety and risk management program provides overall risk control, insurance, and loss financing to all county operations at the lowest possible cost. The program also actively supports safety programs and seeks to identify emerging risks in order to prevent accidents and minimize potential losses. The county is self-insured for the general liability, automobile, property, and workers' compensation insurance administered by this program. The county maintains a self-insurance fund from which claims are paid. Extremely large claims may be paid in part by "excess coverage" insurance policies purchased by the program. The safety and risk management program is helping to meet county goal: (10) Make the best use of Jackson County's human and material resources.

Program Description

The safety and risk management program provides these services:

- **Administer general liability, automobile, property, and workers' compensation insurance in-house and is in partnership with contracted third-party administrators and agents-of-record**

Strategic objective: Identify, through competitive procurement processes, the lowest-cost insurance policies. Process claims promptly and accurately, and represent the county's interest in denying, approving, or settling claims.

- **Support the county safety committee**

Strategic objective: Work with the safety committee to complete workplace hazard assessments and increase employee safety awareness, which will in turn reduce employee accidents and lower workers' compensation costs.

Significant Issues in the Year Ahead

Fiscal year 2005-2006 saw the implementation of a completely revised chargeback methodology for supporting the self-insurance fund. This new methodology, although it did not lower costs, will maintain chargebacks to departments at FY 2005-2006 levels, thus delivering on the promised "smoothing" of self-insurance costs to the departments. The risk management program will conduct actuarial evaluations of the county's general liability, auto liability and worker's compensation reserves in FY 2006-2007, and we anticipate that these studies will recommend an increase in worker's comp reserves, a cost that may have to be passed through to the departments in FY 2007-2008 (see discussion in financial condition, below). The county has enjoyed two consecutive years with no large losses in the general liability and auto liability areas, however the continued loss

Safety and Risk Management

development on two old, large claims remain a concern for the next actuarial evaluation.

Financial Condition

The county's self-insurance fund remains in excellent financial condition. This program is funded by chargebacks to the general fund and the operating funds. Insurance premiums are expected to increase an average of 7 percent in FY 2006-2007, due primarily to industry-wide losses resulting from Hurricane Katrina. In addition, budgets for general liability, auto liability and worker's compensation claims are all up slightly. Fortunately, these increases are more than offset by a decrease in unemployment liability claims and a higher-than-expected fund balance from FY 2006-2005. This fund balance has been placed in an actuarial reserve that should allow the county to hold the line, if not decrease self-insurance chargebacks in FY 2007-2008. This budget proposes an 80 percent confidence level for general liability claims and a 75 percent confidence level for auto liability and worker's compensation.

Program: 080201	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

TOTAL REV	\$2,481,007	\$2,374,983	\$2,185,075	\$2,066,360	\$2,090,836
FULL-TIME EQUIVALENTS	12.00	13.00	12.00	12.00	12.00

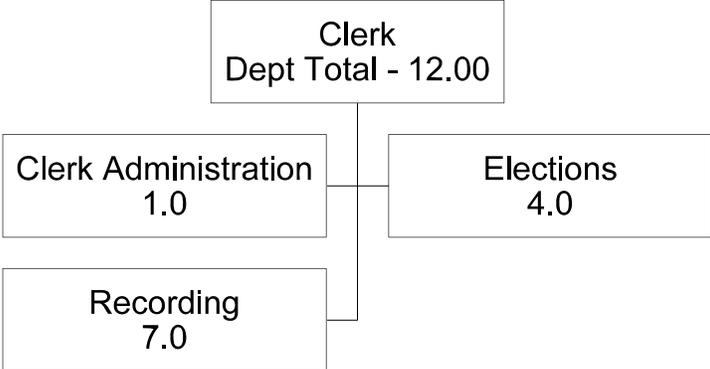

Numbers for FY 02-03 through FY 04-05 are actual revenues and expenditures. FY 05-06 represents the revised budget and FY 06-07 is the adopted budget. For an explanation of the differences between the actual expenditures and budgets, see the Differences Between "Actual" and "Budgeted" Numbers located in the Budget Summary section of this document on page 32.

There are no significant changes in this budget. The change in revenue over time is a result of the reduction in document recordings as the number of homes being sold or refinanced has diminished. There are no changes in the number of FTEs.

Clerk

Organization Chart

All employees are reported as full-time equivalents.

Clerk

Highlights and Challenges

Department Summary

Purpose Statement: To conduct all required elections that must be held within the county, record legal documents, issue marriage licenses and provide clerical support for the Board of Property Tax Appeals (BOPTA).

Major Issues and Service Level Goals for Fiscal Year 2006-2007

- Conduct four elections which will include a gubernatorial general election in November of 2006.
- Record 75,000 documents and issue approximately 1,400 marriage licenses.
- Process 100 petitions to the Board of Property Tax Appeals requesting a reduction of property values.
- Install and implement a new voting system for use by the disabled community.
- Become a passport application agency.

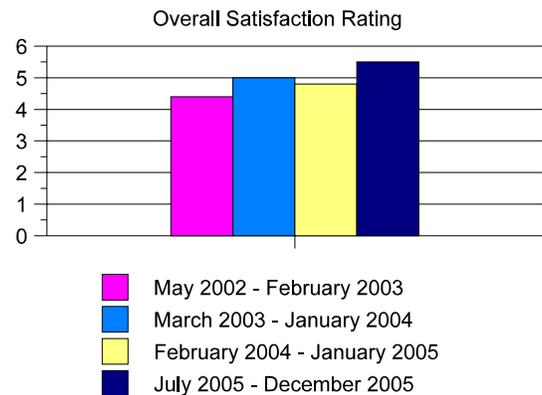

Major Issues and Service Level Accomplishments for Prior Year

- Installed a new voter registration and election management system in elections (Oregon Centralized Voter Registration-OCVR).
- Conducted three elections.
- Processed, updated, and scanned over 120,000 voter registration cards.
- Installed a new "Unity" program in elections in order to program election tabulation.
- Recorded 79,001 documents and issued approximately 1,395 marriage licenses.
- Processed 72 petitions filed with the Board of Property Tax Appeals requesting a reduction in property values.
- Installed a new BOPTA management program.

Benchmark

Since May 2002, the clerk's office has made customer service questionnaire cards available to customers of the clerk's office various programs. These cards ask customers to rate the services they receive on a scale of 1 to 5, with 5 being the best rating. During the period of July 1, 2005, through December 31, 2005, ten cards were received and counted.

Clerk's Customer Service Survey

Clerk Administration

Category Name

General Government

Program Purpose

To ensure that elections are conducted with fairness and integrity, public records are recorded in an efficient and timely manner, accessibility is maintained while researching public records, and that the public is treated with courtesy and respect when doing business with the clerk's office. The administration program is helping to meet county goals: (2) Serve all citizens fairly and ensure access to county government; (9) Promote employee pride, high standards of performance, and productivity; and (11) Maintain public records to provide financial, historical, and statistical information.

Program Description

The clerk administration program involves the following tasks:

- **Promote clerk's office programs to the public**

Strategic objective: Educate public on the functions of the clerk's offices programs.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Group presentations	20	20	20	15

Issue press releases, handout brochures and flyers, operate a website, and give presentations and media interviews. Presentations are given to various groups such as: the League of Women Voters, Rotary clubs, title insurance companies, students in elementary through high school, Southern Oregon University, legal secretaries, and the Oregon Municipal Recorders Association.

- **Departmental efficiency**

Strategic objective: Ensure that staff are well-trained, and utilize labor savings technologies where possible.

Send staff to training conferences, seminars, and continuing education classes. Continue to introduce new and refine existing computer programs into the various clerk's office programs. Privatization of recording's microfilm operation is an on-going example.

- **Fiscal responsibility**

Strategic objective: Ensure sound purchasing principles are used by staff when ordering and procuring materials, supplies, and services; and that staff continually looks for ways to reduce costs of operations.

Clerk Administration

Use of county procurement policy and seek bids on outsourced jobs. Continually challenge staff to come up with less expensive ways of doing things. Staff has worked with the post office to reduce election-related mailing costs, and ongoing negotiations with the State to keep down the cost of preparing the voters' pamphlet.

- **Customer service ratings**

Strategic objective: Maintain a high rating in customer service response cards.

During this fiscal year, public service questionnaires were available to customers of clerk's office programs. Ten cards were returned July 1, 2005 through December 31, 2005. Sixty-five percent averaged a 5.0 or higher rating with 5 being the highest rating.

Significant Issues in the Year Ahead

Implementation of the federal Help America Vote Act will be our biggest challenge over the next two years. Implementation of the statewide election management system will require many meetings with state and county officials to ensure this project runs smoothly. We converted all of our data and went live with the system in September 2005.

Financial Condition

This program is funded by revenues generated through fees collected in the recording program.

Program: 150101	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Elections

Category Name

General Government

Program Purpose

The goal of the elections program is to conduct all elections, tabulate the results and make results available to the public on a timely basis, produce county voters' pamphlets for all elections with the exception of recall elections, and upon request, search and make available documents for public inspection. The elections program is helping to meet county goals: (2) Serve all citizens fairly and ensure access to county government; (6) Encourage citizen understanding and participation in county government; and (9) Promote employee pride, high standards of performance, and productivity.

Program Description

The elections program involves the following tasks:

- **Voter registration files**

Strategic objective: Maintain and update voter registration records in electronic format using the Oregon Centralized Voter Registration (OCVR) software program. Currently, there are 120,468 registered voters in Jackson County, a 9.2 percent increase over last year.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of voters	120,468	131,155	131,155	131,500

Registered voters in FY 2006-2007 are projected to increase 9.2 percent over FY 2005-2006 as the population in Jackson County increases.

- **Announcing election results**

Strategic objective: Increase proficiency to design tables and queries to retrieve desired information in table and chart format depicting election results.

- **Conduct elections by mail**

Strategic objective: Perform all related tasks to conduct an election by mail.

Prepare ballots, mail voter pamphlets and ballots to registered voters, process ballots, and retain all records in accordance with federal and state records retention laws.

Elections

Significant Issues in the Year Ahead

The Help America Vote Act (HAVA) requires a statewide voter registration system be up and running by 2006. This continues to require a significant amount of time to be spent working with the vendor in fine tuning of the registration system in fiscal year 2006-2007.

Financial Condition

This program is funded by chargebacks to voting entities, by document sales fees, and by revenues generated through fees collected in the recording program.

Program: 150103	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Full-Time Equivalent	3.00	4.00	4.00	4.00	4.00

Recording

Category Name

General Government

Program Purpose

The recording program assists the public in the recording and filing of all legal documents having an interest in real property and microfilming and scanning such documents for historical preservation; selling marriage licenses; setting up hearing dates for those who wish to appear before the Board of Property Tax Appeal (BOPTA), provides secretarial support to BOPTA; and provides searches of miscellaneous public records. The recording program is helping to meet county goals: (2) Serve all citizens fairly and ensure access to county government; (9) Promote employee pride, high standards of performance, and productivity; and (11) Maintain public records to provide financial, historical, and statistical information.

Program Description

The recording program involves the following tasks:

- **Record legal documents**

Strategic objective: Stay current with workload.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of documents	79,001	75,000	80,000	80,000

The recording of documents has leveled off since interest rates are on the rise.

- **Scanning files**

Strategic objective: Reduce costs and increase productivity when servicing requests for documents or information from documents by patrons.

Recording continues to provide images of documents both by digital means and produces microfilm in accordance with Oregon Revised Statutes.

- **Marriage licenses**

Strategic objective: Issue marriage applications when requested, record marriage licenses upon receipt, and maintain marriage records in accordance with Oregon laws.

The clerk's office is the only county office authorized to issue official marriage licenses at a cost determined by the Oregon State Legislature. Approximately 1,400 marriage licenses were issued last fiscal year.

Recording

- **Board of Property Tax Appeals (BOPTA)**

Strategic objective: Provide clerical help to BOPTA.

Clerical duties include accepting filings for review, schedule meeting times, prepare minutes of hearings, issue orders based on Board decisions, and scan and microfilm records for preservation in accordance with Oregon records retention instructions.

Significant Issues in the Year Ahead

A major activity will be updating and fine tuning the new Helion software recording program. This program performs the functions of billing, cashiering, indexing and scanning of filed documents at the same time, including marriage licenses.

With the help of Helion software we are developing a new software program to support the BOPTA program. This program will track petitions, schedule petitioners for hearings, issue orders, work in conjunction with the Assessor's ORCATS Helion system and taxation. This program will require ongoing monitoring in fiscal year 2006-2007.

Financial Condition

This program is 100 percent funded by charges to users, the primary users being title insurance companies, federal government and general public. The revenues are very dependant upon mortgage interest rates and the general state of the economy.

Program: 150102	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

County Counsel

Highlights and Challenges

Department Summary

Purpose Statement: To provide the full spectrum of legal services to the county's elected and appointed officials and to the county's departments.

Major Issues and Service Level Goals for Fiscal Year 2006-2007

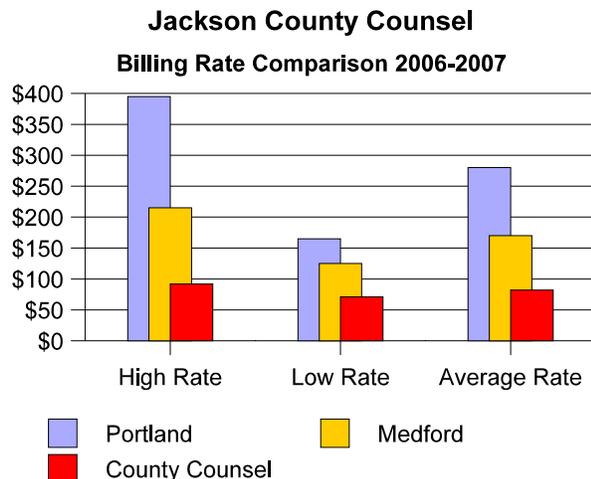

- Provide legal advice to the county's elected and appointed officials and to county departments.
- Review all ordinances and contracts.
- Handle and oversee all litigation involving the county, in the trial courts and appellate courts, both state and federal.
- Represent the county by attending public hearings and appearing before administrative tribunals.
- Represent the county on statewide committees.
- Provide legal training for county officials and employees and acquaint them with new legislation.
- Codify changes to the county code and help with major revisions.
- Provide information links and sample documents through the use of the department's intranet site.
- Supervise outside counsel.
- Maintain cost effective billing rate ratio with outside law firms.

Major Issues and Service Level Accomplishments for Prior Year

- Provided a high level of legal representation in contractual and litigation matters.
- Maintained and continuously updated department's intranet site.
- County counsel's office is cost factored at an average ratio of 1:3.68 for Portland law firms and 1:2.24 for Medford law firms of the billing rate charges for legal services.

Benchmarks

This chart shows the variance of billing rates for Portland law firms, Medford law firms, and Jackson County Counsel.

County Legal Services

Category Name

Organizational Infrastructure

Program Purpose

County counsel's office is the county's law firm. The legal services program is helping to achieve county goal: (10) Make the best use of Jackson County's human and material resources.

Program Description

County counsel's office provides the following services:

- **Legal advice**

Strategic objective: Provide legal advice to the county's elected and appointed officials and to county departments.

- **Ordinances and contracts**

Strategic objective: Review all ordinances and most contracts. Codify changes to the county code and help with major revisions.

- **Litigation support**

Strategic objective: Handle and/or oversee all litigation involving the county and its employees in the trial and appellate courts, both state and federal.

- **Legal representation**

Strategic objective: Represent the county by attending public hearings and appearing before administrative tribunals. Represent the county on statewide committees.

- **Legal training**

Strategic objective: Provide legal training for county officials and employees. Provide information links and sample documents.

Significant Issues in the Year Ahead

A significant task for county counsel's office will be handling the issues raised by Measure 37, its related litigation and potential new ballot measures pertaining to land use. Also, it is likely that existing litigation will take increasing time, including probable trials in the coming year.

County Legal Services

Financial Condition

County counsel is funded entirely from chargebacks to the county departments based on their percentage of usage and by chargebacks to risk management on specific litigation cases. Future action plans include operating the department with maximum efficiency.

FULL-TIME EQUIVALENTS	49.68	51.23	50.23	56.20	55.65

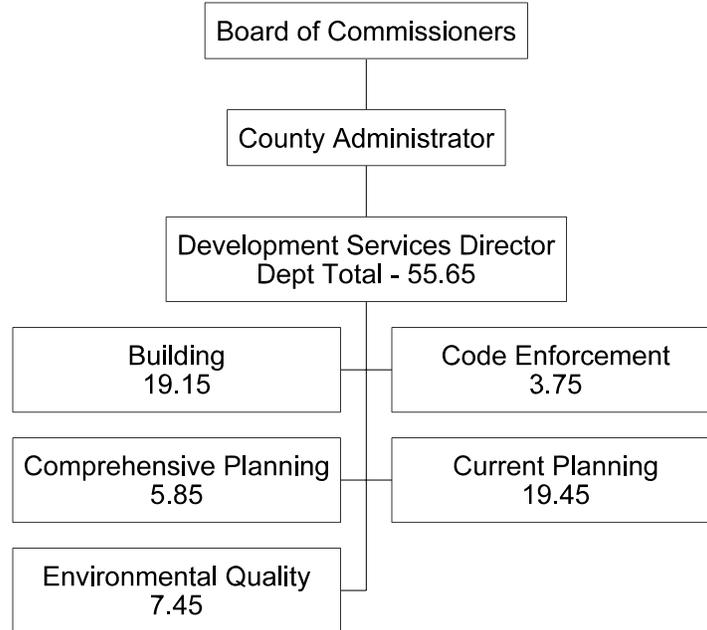

Numbers for FY 02-03 through FY 04-05 are actual revenues and expenditures. FY 05-06 represents the revised budget and FY 06-07 is the adopted budget. For an explanation of the differences between the actual expenditures and budgets, see the Differences Between "Actual" and "Budgeted" Numbers located in the Budget Summary section of this document on page 32.

Development services was recently split from the old roads, parks and planning department as a result of an independent review which was conducted at the request of the Board of Commissioners. The study recommended an increase in the level of services and increased fees to cover the additional costs. Prior year data is shown here for comparison.

Development Services

Development Services

Highlights and Challenges

Department Summary

Purpose Statement: To provide customers with friendly, accurate, useful, and timely information regarding the development, utilization, and preservation of Jackson County's natural resources. To provide for the current and future land use goals. Meet private and public facility needs through the sound application and leadership in planning, permitting, infrastructure inspection, and code compliance. Ensure the quality of life through the benefits of development while protecting against the impacts of improper or poorly executed development.

Major Issues and Service Level Goals for Fiscal Year 2006-2007

- Complete the reorganization of the building, code enforcement, environmental quality and planning programs into a development services department. Implementation will occur by following the Citygate Report action plan, which outlined 39 recommendations for improving service.
- Identify needs and plan for a facility that will house the development services department.
- Continued active involvement in the Regional Problem Solving (RPS) process, participate in completion of a draft Regional Plan and initiate adoption of the draft Regional Plan.
- Continue to provide research of land use history and chain of ownership for Measure 37 claims.
- Adopt Land Development Ordinance (LDO) and Comprehensive Plan amendments to update the destination resort regulations.
- Complete the five-year floodplain re-certification for the county.
- Complete coordinated growth projections for the county and update the population, economy, and housing elements of the Comprehensive Plan.
- Update subjects of policy significance within the Land Development Ordinance and initiate adoption of amendments as necessary.
- Develop a Transition Management Plan for the environmental quality program to determine how to best continue providing permitting services.
- Revise the Policy and Procedure Manual for the code enforcement program.
- Institute a "case manager" approach to the development review process for, at a minimum, Type 3 and Type 4 applications. This type of approach provides for a lead planner, who is the sole point of contact, to facilitate the project through the entire permitting process.
- Reinstigate a modified buddy system, matching planners with building technicians. This team approach will be used to provide more efficient service to customers at the counter.
- Current planning will continue to implement the new Land Development Ordinance. It is expected that implementation will include staff training, development of educational materials, and an outreach effort to familiarize the development community and citizens with the new LDO.

Development Services

- Develop and monitor a system to automate the issuance of electrical, plumbing, and mechanical permits.
- Develop and monitor the time frame for issuance of all classes of building permits.

Major Issues and Service Level Accomplishments for Prior Year

- Completed a performance audit of all planning and development programs and began implementation of the audit recommendations to improve customer service.
- Created the development services department.
- Hired a building inspector and technician, a code enforcement manager, three planners and a comprehensive planning manager.
- Continued funding under Title III was received for a position to work on improved fire safety in the wild land fire interface.
- Amended the Land Development Ordinance and the White City Urban Unincorporated Community Plan.
- Provided research of land use history and chain of ownership for Measure 37 claims.
- Continued to utilize a citizen advisory committee to help guide improvements in the delivery of planning and building services.
- Installed the Integrated Voice Response (IVR) system to improve inspection service delivery.
- Implemented elements of the technology vision plan in planning with the objective of streamlining service delivery.
- Implemented a router system to ensure customers receive service in the most effective and timely manner.
- Successfully implemented the code enforcement hearings officer function which seems to have reduced the need for enforcement. Levels of voluntary compliance have increased as a result of having this tool available.
- Board of Commissioners provided policy direction which provided clarity and created the code enforcement program. The program is now managed by a newly created position of code enforcement program manager.
- Organized a development review team. This is a multi-disciplinary and multi-jurisdictional team whose function is to review submitted development applications. The team is made up of representatives from county planning and building divisions, county roads, Medford Water Commission, Rogue Valley Sewer Services, and Jackson County Urban Renewal.
- Conducted a current planning training needs assessment, prioritized training curriculum, and began holding training courses.

Building

Category Name

Community Safety

Program Purpose

The building services program is responsible for administering the state of Oregon's structural, mechanical, plumbing, and electrical specialty codes. Additionally, the program performs all manufactured dwelling installation and alteration inspections, as well as plan reviews and on-site inspections for manufactured dwelling park construction and recreational vehicle park/organization camp construction. Administering the program includes the processing of permit applications, all fire/life-safety/structural plans examinations, performing on-site inspections, record keeping, fee collection, code consultation, and data reporting to local, state, and federal agencies. The building services program is helping to meet county goal: (1) Protect health, safety, and well-being of all citizens.

Program Description

The building program provides the following services:

- **Building permits**

Strategic objective: Provide expedient and accurate review of construction documents in a professional atmosphere.

Strategic objective: Provide a compliance program that ensures the public has access to licensed and registered contractors.

Strategic objective: Continue to provide a training program for counter technicians that leads to state & national certifications for all technicians.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Maintain the percent of time residential plan reviews are completed within a ten-day-period	100%	100%	100%	100%

State law mandates that residential plan reviews be completed and applicants given a decision on completeness of the plans within ten days. The building program meets the state-mandated deadline for this requirement. The law allows for complicated reviews to be processed as required to ensure compliance with codes.

Building

- **Inspections**

Strategic objective: Provide a program to ensure that all inspections are completed within 24 hours.

Strategic objective: Continue to cross train inspectors leading to additional certifications whereby inspections can be completed in multiple disciplines of electrical, plumbing, and building.

Significant Issues in the Year Ahead

The CityGate Associates report made specific recommendations that the program should follow which would lead to improved service. The program will be working to ensure implementation of those recommendations.

In order to accomplish the strategic objective of timely inspections a technology solution will be implemented using Integrated Voice Response (IVR) and web based requests to schedule inspection and notification upon completion.

Employee retention in the building division and providing training to all inspectors will be an important part of maintaining a high level of service to customers.

Develop and implement a system for automated issuance of electrical, plumbing, and mechanical permits.

Develop a monitoring system to track time frames for issuance of all classes of permits.

There continues to be an unknown inventory of non-permitted or uninspected structures that become known only when the property changes ownership and the property owner wants to verify legality or proper permitting. No fees can be collected for verification of legality. If permits were not collected, then some fees are generated from persons wishing to legalize their structures.

Financial Condition

The building program is 100 percent fee supported through building permit fees.

Building

Program: 370102	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Code Enforcement

Category Name

Community Safety

Program Purpose

The code enforcement program protects the health and safety of the county's residents and visitors, and livability of the community, by assuring compliance with the county's land use, environmental, and construction codes. Voluntary compliance is encouraged. Violators are prosecuted if they do not comply voluntarily.

Administering the program includes performing on-site inspections, record keeping, code consultation, and data reporting. The code enforcement program is helping to meet county goal: (1) Protect health, safety, and well-being of all citizens.

Program Description

The code enforcement program provides the following service:

- **Code enforcement**

Strategic objective: Investigate complaints of non-compliance with county code and ordinance violations. Consult with the offending party to gain voluntary compliance. If party fails to comply, citations may be issued to enforce the action.

Significant Issues in the Year Ahead

The CityGate Associates performance audit final report made specific recommendations to enhance the effectiveness of code enforcement which will be implemented during the year. The changes include revisions to the Code Enforcement Manual which will improve clarity and conciseness with regard to how each code violation is handled. Improved consistency among enforcement officers and increasing the presence through creation of code enforcement as a stand alone program. Increased management oversight will occur through creation of direct supervision within the program.

During the 2005-2006 fiscal year, the Board of Commissioners provided policy direction to the code enforcement program on when to be proactive or reactive with regard to conducting code violation duties. This direction will provide the guidance necessary to enable the new code enforcement manager to better administer the program.

Financial Condition

Code enforcement is funded partially from the building program, the community development fee, and the White City Enhanced Law Enforcement District levy. Code enforcement receives 26 percent of its funding from the general fund.

Code Enforcement

Comprehensive Planning

Category Name

Natural Resources & Environment

Program Purpose

The purpose of this program is to maintain a comprehensive plan and land development code designed for Jackson County's unique environment that complies with state and federal law.

The comprehensive planning program's responsibilities include maintaining county comprehensive plan compliance with statewide planning goals and processing privately initiated plan map amendments (i.e., zone changes). The comprehensive plan addresses fourteen statewide goals, planning for preservation of agriculture and timber resources while providing for residential, commercial, and industrial development. It also includes inventories of natural, historic, and scenic resources, along with economic and land use projections. The comprehensive planning program has primary responsibility for the land development code update and provides staff support to the Jackson County Planning Commission and White City Planning Commission. The planning program is helping to meet county goal: (12) Plan for the future.

Program Description

The comprehensive planning program supports the following:

- **Comprehensive Plan**

Strategic objective: Continue to implement the Comprehensive Plan and update the plan on a timely basis.

- **Land Development Ordinance**

Strategic objective: Continue to implement the Land Development Ordinance (LDO) and prepare an annual ordinance update.

Significant Issues in the Year Ahead

Adopt Land Development Ordinance and Comprehensive Plan amendments to update the destination resort regulations.

Update subjects of policy significance within the Land Development Ordinance and initiate adoption of amendments as necessary.

Continue active involvement in the Regional Problem Solving (RPS) process, participate in completion of a draft regional plan and initiate adoption of a draft regional plan.

Complete coordinated growth projections for the county and update the Population, Economy, and Housing Elements of the Comprehensive Plan.

Comprehensive Planning

Implement the updated Citizens Involvement Element of the Comprehensive Plan by establishing and staffing a new Citizens Involvement Committee.

Initiate a review of the Aggregate Resources Element of the Comprehensive Plan upon completion of the periodic review and an inventory of aggregate resources within the county.

Initiate a study and analyze the economic importance of agricultural, forestry, and aggregate resources within Jackson County in order to update the resource elements of the Comprehensive Plan.

Complete the five-year floodplain re-certification for the county.

Financial Condition

The comprehensive planning program is 72 percent supported by the general fund. Work completed in the comprehensive planning area is generally related to issues of countywide significance and not attributable directly to individual development projects.

Program: 370101	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Current Planning

Category Name

Business, Private & Special Location Development

Program Purpose

The goal of the current planning program is to facilitate development and protect resource lands via the county’s land development regulations in concert with state and federally mandated programs.

The current planning program consists of two teams responsible for development review on either resource zoned or residential/commercial/industrial zoned lands respectively. Current planning staff assist the public throughout the land development process—providing advice, processing land use applications, and reviewing building, sanitation, plumbing, and electrical permit requests for compatibility with the county’s zoning and land division laws. The planning program is helping to meet county goal: (1) Protect health, safety, and well-being of all citizens.

Program Description

The current planning program provides the following service:

- **Land use permits**

Strategic objective: Render a staff decision on land use permits within 100 days in order to allow enough time for local appeals that typically take 60 days.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Percent of land use permits completed in less than 100 days	80%	85%	82%	85%

State law mandates that counties make a final decision on land use permit applications within 150 days (120 within urban growth boundaries). The county’s new LDO allows for Type 1 applications to be approved through an administrative process. Those applications can now be approved in about 20 days or less.

Significant Issues in the Year Ahead

The CityGate Associates performance audit final report made specific recommendations to improve service delivery in this program area. A task force is working to implement the changes with a goal of improved service delivery and customer satisfaction. Many of the goals are reachable within the budget year and resources are committed in this budget to assist in making that happen.

One of the most important findings in the audit is that staffing levels and quality of staff are critical to the provision of high-level customer service and

Current Planning

the retention of the department's most valuable asset, its staff. The audit recognized that staffing levels in current planning are inadequate to meet the current workload. In addition, the audit acknowledged that given a new Land Development Ordinance and regularly changing state and federal regulations staff must be afforded an on-going training curriculum. To provide better customer service and retain staff, efforts in the coming year will focus on providing important training to all staff, with particular emphasis on training newly hired staff.

Current planning will continue to implement the new Land Development Ordinance (LDO). It is expected that implementation will include staff training, development of educational materials, and an outreach effort to familiarize the development community and citizens with the new LDO.

Continue to rework customer handouts so that they are more understandable and user-friendly.

Reinstitute a modified buddy system, matching planners with building technicians. This team approach will be used to provide more efficient service to customers at the county.

Institute a "case manager" approach to the development review process for, at a minimum, Type 3 and Type 4 applications. This type of approach provides for a lead planner, who is the sole point of contact, to facilitate the project through the entire permitting process.

Financial Condition

The current planning program is 100 percent funded by permit fees and the community development fee. Current planning receives no general fund support.

Environmental Quality

Category Name

Natural Resources & Environment

Program Purpose

The goal of the environmental quality program is to promote optimum health and quality of life for Jackson County citizens by perpetuating water quality and reducing the incidence of environmental degradation of groundwater.

The environmental quality program evaluates proposed installation sites for septic systems to determine the ability of the soil to safely absorb and treat waste water and sewage. Site evaluation approvals and installation permits are issued for septic systems that match the soil and groundwater conditions of the site. Systems are inspected during construction to ensure proper installation and satisfactory operation. Existing systems are evaluated when necessary to determine whether they are functioning properly. The program responds to complaints regarding failing septic systems and ensures that such systems are properly repaired. Within the county, the program is responsible for pumper truck inspection. The environmental quality program is helping to meet county goal: (1) Protect health, safety, and well-being of all citizens.

Program Description

The environmental quality program provides the following services:

- **Septic system permit/installation**

Strategic objective: Ongoing work with septic system installers will continue in order to streamline plan review in an effort to decrease the number of inspections.

- **Existing septic systems**

Strategic objective: Continue to work toward developing an educational program through the Installers Committee that educates the public for the need to perform regular maintenance to all septic systems.

Strategic objective: Provide notification to 20 percent of the sand filter system owners of regularly needed maintenance.

- **Site evaluation**

Strategic objective: Continue to work with the Department of Environmental Quality (DEQ) on alternative septic system technology as a way of continuing to place systems on Jackson County's preponderance of poorly drained soils.

Environmental Quality

Significant Issues in the Year Ahead

The CityGate Associates performance audit final report made specific recommendations related to the environmental quality program. A transition management program will be developed to ensure stability and improve leadership.

Recruit an additional sanitarian to fill a vacant position and reduce the backlog during the busy season.

Continue to cooperate with the Jackson County Building Authority to provide grant funded assistance to low income owners for repair and/or replacement of failing septic systems.

Continue to work with comprehensive planning to develop a solution to goal 11 requirements for providing sewer to areas outside of the urban growth boundary.

Update and revise the county's contract with DEQ to provide on-site septic services for Jackson County.

Financial Condition

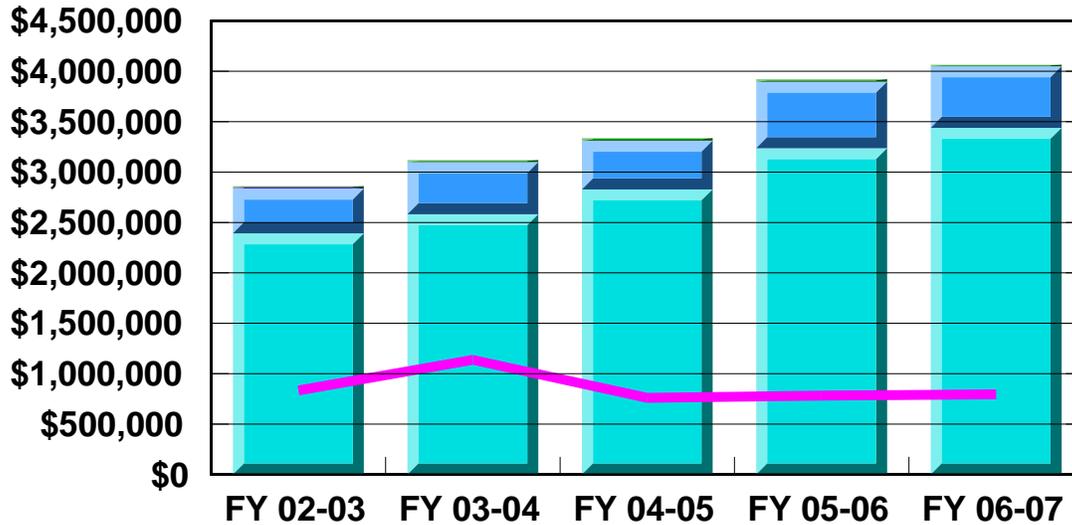

The environmental quality program is 100 percent funded from permit fees and from the community development fee. Environmental quality receives no general fund support.

District Attorney

Department Summary

Highlights and Challenges

Purpose Statement: To protect the safety and well-being of the citizens of Jackson County by prosecuting criminal offenses, providing services to crime victims and witnesses and acting as an advisor to local police agencies in matters involving criminal law. Additionally, the department, through the child support division, assists in the establishment and maintenance of child support orders consistent with state guidelines, monitors payments of child support obligations, and assists in the enforcement of child support orders.

Major Issues and Service Level Goals for Fiscal Year 2006-2007

- Continued Federal High Intensity Drug Trafficking Agency (HIDTA) funding for the deputy district attorney prosecuting drug cases has been called into question. New national HIDTA program guidelines call for the elimination of federal funding for HIDTA prosecutors over a three year period, beginning in October of 2006. The HIDTA director has indicated that we can apply for an exemption, but until that is granted, we have budgeted for a 33 percent reduction in revenue for the deputy district attorney for three quarters of this fiscal year.
- We are currently exploring using our case management system (DA/CMS) to create an e-mail case notification system for area law enforcement agencies. This would automatically send a notification when a case resolves or is postponed, so that subpoenas can be recalled, officers called off, and evidence returned to the agency if it has been sent to the State Police Forensic Laboratory for testing. We are currently doing this by means of hard copy notification.
- The family support office currently receives approximately \$62,000 annually in federal matching funds based on incentive dollars our office collects. Those incentive dollars are paid out according to how successful we are in collecting child support payments. The president's proposed budget would eliminate matching funds for incentive dollars, beginning in October of 2007. We expect to carryover funds from 2006-2007 to the following fiscal year to help cushion that loss of revenue if not restored by Congress.

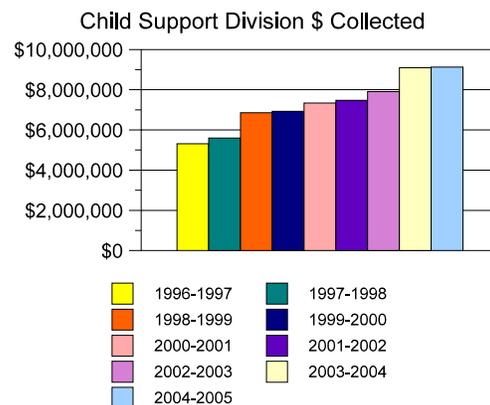

Major Issues and Service Level Accomplishments for Prior Year

- Our office participated in the planning process for the new adult drug court which began in February of 2006. The drug court has been set up as an early disposition program, so that drug offenders wishing to deal with their addiction in a drug court setting must enter an early guilty plea and waive any rights to contest the admissibility of evidence. We anticipate that the program will be able to accommodate approximately 100 offenders at any one time. We hope that the drug court will have a positive impact on the methamphetamine crisis we are experiencing in the county, with its corresponding impact on property crimes.

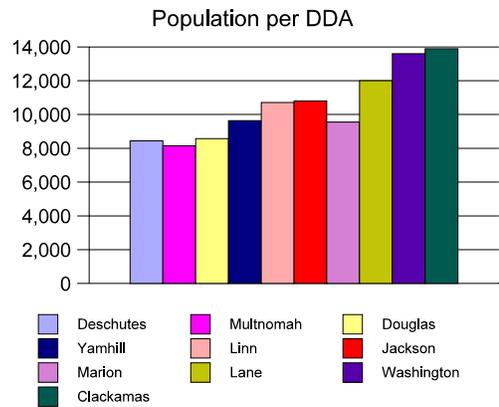

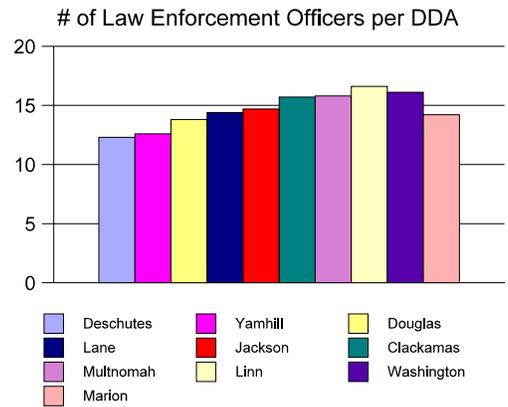

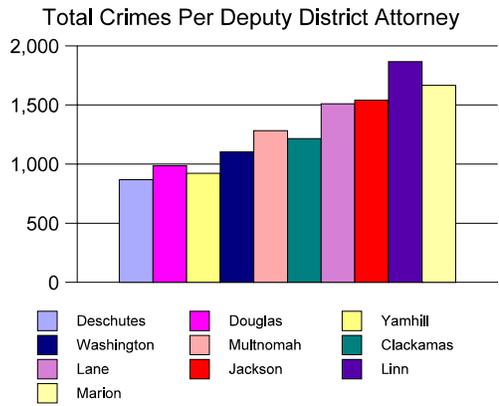

District Attorney

- The district attorney's office took the lead in establishing a protocol to guide law enforcement, child protective service and medical agencies in their response to drug endangered children. That DEC protocol was developed and approved by a multi-disciplinary ad hoc committee, and has been forwarded to area law enforcement agencies for inclusion in the Cooperative Policing Manual.
- State funding for district attorney's offices was cut to zero in the last legislative session. This is a continuation of a trend in which state funding for district attorneys has been diminishing, while funding for the courts and indigent defense has increased. Currently the state pays a portion of the salary of the elected district attorney in each county, but not a dime towards the salary of deputy district attorneys, costs for witness fees, or any other costs associated with the running of the office. That should be an issue for district attorneys and the Association of Oregon Counties in the upcoming legislative session.
- The criminal division now has a full year's experience with DA/CMS. We continue to work with Benton County, which administers the system, to make improvements. Generally, initial data entry has proven to be somewhat slower than our old system, but the amount of data we capture electronically has increased exponentially. Local law enforcement agencies have access to view our data which is invaluable to them in monitoring the progress of their submitted cases.
- Our current staffing levels allow us to continue to convene three grand juries each week. This has kept the backlog of cases waiting for indictment to a minimum, while allowing us to schedule grand jury sessions further in advance for cases in which the defendant is not lodged in jail.
- The victim/witness services division continues to apply for grant funding in an attempt to sustain program services. In the last fiscal year, the program was awarded some grant funding to replace a portion of the domestic violence advocate. The division will continue to apply for funding from grant sources and maintain a strong volunteer force.

Benchmark

District Attorney

Child Support Case Management

Category Name

Community Advocacy & Health

Program Purpose

To help citizens of Jackson County who are not on public assistance receive child support through collection and enforcement activities, and to help citizens of the United States receive child support from obligors located in Jackson County. The program is working toward county goal: (1) Protect health, safety, and well-being of all citizens.

Program Description

The child support program provides the following collection and enforcement services:

- **Attachment of wages, unemployment and worker compensation**

Strategic objective: Establish and maintain a monthly collection of accruing child support and payment on any arrearage amount owed by obligors on their child support cases.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Increase child support collected	\$9,126,844	\$9,250,000	\$9,300,000	\$9,350,000

Increase collection rate based on more aggressive use of the contempt process and attachment of wages.

- **Contempt actions heard by the court resulting in supervision of support payments and/or county jail time**

Strategic objective: Obtain court sanctions for failure to pay child support.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Utilize contempt/criminal non-support actions as an enforcement mechanism	461	395	465	470

Contempt cases expected to rise due to the economy and market trends.

The number of new contempt actions have increased even though many of the filed contempt cases are maintained on the docket to encourage obligors to make consistent payment of the required support.

Child Support Case Management

- **Criminal non-support action on cases where the obligor resides in another state and enforcement by that state has been unsuccessful and in cases where contempt actions against in-state obligors have not been effective. Prison sentences are a possible result.**

Strategic objective: Present cases to the grand jury for criminal action determination.

- **Drivers's license suspensions**

Strategic objective: Encourage obligors to pay child support obligation or risk losing driving privileges.

- **Case reviews for payments**

Strategic objective: Ensure reviews are made on a quarterly basis, to determine if further enforcement action needs to be taken.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Increase child support reviews	9,885	9,800	9,850	9,900

Quarterly review of open cases will increase as caseloads rise.

- **Modifications of existing orders and paternity establishment**

Strategic objective: Review and confirm that existing support orders are in compliance with the current child support guidelines promulgated by the state of Oregon.

The Jackson County family/child support program monitors cases and uses a state of Oregon alerts system to aid in the child support review process. The review brings to the attention of the caseworker those cases needing modification and paternity order establishment.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Increase modifications completed	304	350	350	360

Expected increase in modification requests due to economy trends.

Child Support Case Management

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2005-2007 Projected
Increase paternity orders established	20	28	20	21

Projected increase in paternity cases based on previous case trends and client requests.

As county population increases the number of custodial parents requesting assistance from the district attorney's office in collection of child support will likewise increase.

Significant Issues in the Year Ahead

The district attorney's office expects to continue improving the cost effectiveness of the family support division. In 2004 for every dollar spent, \$13.41 was collected; in 2005, \$17.69 was collected. Efforts are underway to coordinate support enforcement activities with family court and the newly formed drug court to assist in improving the long-term interests of the county's residents.

Financial Condition

The Jackson County child support program continues to be reimbursed 66 percent of its expenditures by the federal government via the State of Oregon. State and federal governments also provide "incentive funds." It is anticipated that the incentive funds will be approximately \$56,000 for fiscal year 2006-2007. Historically, the federal government has matched these funds for use in "adding to" the services provided by the Jackson County child support program. These matching funds are expected to be discontinued in October, 2007. This could decrease the available funding by 10 percent. Lobbying efforts are underway by state and federal child support programs to ensure continued federal funding at the current levels. Approximately 21 percent of program revenue comes from the county general fund.

Liquor Enforcement

Category Name

Community Prosecution & Justice

Program Purpose

The liquor enforcement fund is the repository for the county's share of funds collected as the result of enforcement of liquor control laws. The fund is maintained in accordance with Oregon Revised Statute 471.670.

The program is working toward county goal: (1) Protect health, safety, and well-being of all citizens.

Program Description

Revenue funds collected by the state courts are deposited here and are transferred to the victim witness program.

Financial Condition

Revenue is expected to continue.

Program: 170201	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Prosecution Case Management

Category Name

Community Prosecution & Justice

Program Purpose

The prosecution case management program is responsible for preparing and filing formal charges against defendants and for conducting hearings and trials associated with those charges. The program also acts as advisor to local police agencies in the process of investigating and obtaining evidence for use in criminal matters.

The prosecution case management program is helping to meet county goal:
(1) Protect health, safety, and well-being of all citizens.

Program Description

The prosecution case management program provides the following services:

- **Criminal prosecution of adults in the circuit court**

Strategic objective: Ensures that offenders are held accountable in the courts through the filing and prosecution of appropriate charges.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of adult criminal cases prosecuted	4,880	5,350	5,088	5,100/ 7900

Adult offenders based on estimated case filings and county-wide agency trends. For future years, calculation figures will be obtained from our new case management system rather than actual files opened. Refer to the two figures above in 2006-2007 projected.

- **Advise local law enforcement agencies about criminal law issues**

Strategic objective: Help area law enforcement officers to understand criminal statutory and constitution law and procedure.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of hours of training provided	19	26	25	26

Deputy district attorneys providing periodic training to local law enforcement agencies.

Prosecution Case Management

- **Adjudication of cases involving minors in the juvenile court**

Strategic objective: Ensures that juvenile offenders are held accountable and that wardship or service agreements are established in dependency cases.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of delinquency cases opened	295	255	230	235
Number of dependency cases opened	244	285	225	230

Track juvenile delinquency and dependency cases opened within the department.

Significant Issues in the Year Ahead

On January 26, 2005 our office went “live” with our long awaited case management system. To date, our office has received 8,777 cases from our local law enforcement agencies within Jackson County. This new system will allow for better management of our caseloads and increased statistical data retrieval.

Financial Condition

The criminal prosecution program is funded primarily by the county general fund (93.5 percent of the total program revenue). Federal funding for a prosecutor and legal assistant comes through the county’s designation as a high intensity drug trafficking area (4.7 percent). Fees charged for discovery offset general fund support by 1.6 percent. State general fund support has been reduced to zero.

The prosecution case management program supports 31.95 FTEs.

Prosecution Case Management

Program: 170101	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Victim/Witness

Category Name

Community Advocacy & Health

Program Purpose

The victim/witness services program provides services to victims and witnesses of crimes committed in Jackson County. The program provides advocacy, short-term counseling, court escort, information and referral about other programs, education about the criminal justice system and assistance in obtaining restitution.

The program is working toward county goal: (1) Protect health, safety, and well-being of all citizens.

Program Description

The victim/witness assistance program provides the following services:

- **Information and education to all crime victims**

Strategic objective: Ensure that victims and witnesses are notified of their rights in accordance with the Victims' of Crime Act; provide them with information about programs that may help them in the aftermath of a crime.

During the 2005 calendar year, the district attorney's office filed over 3,500 separate cases with victims.

- **Prepare restitution orders**

Strategic objective: Hold convicted criminals accountable for the fiscal losses sustained by the victim.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Complete 75% of orders at the time of conviction	47%	60%	60%	65%

The victim/witness assistance program has 1.8 FTE dedicated to restitution. These cases have become increasingly difficult with the increase of identity theft and fraud. During fiscal year 2005-2006, the program prepared 483 restitution orders in adult cases and almost 250 orders in cases with juvenile offenders. Restitution was prepared for over 1,000 individual victims over the last fiscal year.

- **Escorting victims and witnesses to grand jury**

Strategic objective: Ensure that all victims and witnesses who are subpoenaed to appear at grand jury receive support, information and education during the process.

Victim/Witness

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
100% of citizens subpoenaed to grand jury are escorted	96%	100%	97%	100%

The victim/witness assistance program continues to provide grand jury escort to all victims and witnesses. Grand jury escort is very important and is a top program priority. The program escorted 853 victims and witnesses to grand jury during the 2004-2005 fiscal year. Over 90 percent of these services were provided by program volunteers.

- **Community outreach/collaboration**

Strategic objective: Ensure that victims receive the highest quality of service possible as they move through the criminal justice system in Jackson County. This is accomplished by providing quality comprehensive services that are coordinated between agencies.

- **Volunteers**

Strategic objective: Maintain a strong volunteer force in order to maximize program availability for victims.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Maintain a minimum average of 5 volunteers throughout the year	5	6	5	6

The program has seen some staff turnover in the past fiscal year. A new volunteer coordinator has been hired who created a new volunteer handbook and brochures for prospective volunteers. The volunteer program is steadily improving in both breadth and substance.

Significant Issues in the Year Ahead

In the year ahead the program will work to maintain the current level of service provided to the community. The program will apply for further funding to assist in the area of domestic violence. The number of competitive funding sources have been reduced this year making it more difficult to find grants. Meeting the needs of crime victims in the coming year with the program's 4.3 FTE is a significant challenge.

Victim/Witness

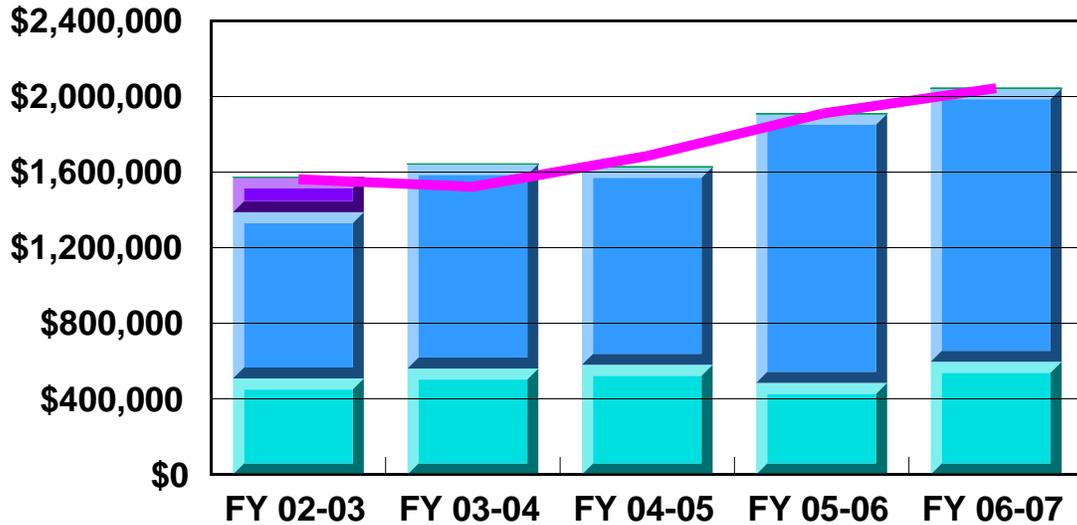

Financial Condition

The program is currently funded by a non-competitive state grant, unitary assessment dollars, one federal grant, some liquor fines and fees, and county general funds. In July of 2005 the county was awarded a grant that afforded our program a .5 FTE domestic violence advocate as part of a larger collaborative effort. Funding sources are not anticipating a significant increase in the amount of awards granted in the coming year. As costs rise, it may be difficult to maintain the current level of service without an increase in grant awards and funding opportunities.

Organization Chart

All employees are reported as full-time equivalents.

Department Summary

The mission of the Jackson County Fairgrounds is to provide social, cultural, recreational, agricultural, commercial and educational opportunities for the citizens of Jackson County.

Purpose Statement: The fairgrounds achieves its mission by developing and producing events such as the County Fair, Harvest Fair and Wild Rogue Pro Rodeo. These events have a strong emphasis on youth and education, but are designed to appeal to all citizens of Jackson County. The fairgrounds also provides facility rentals to individuals and groups that wish to promote additional events, such as equestrian shows, concerts, weddings, auctions, consumer shows, motor vehicle extravaganzas, sports and outdoor shows, and other diverse activities. Management assistance is offered to these shows, depending on the level of experience of the promoter. In addition, the fairgrounds is responsible for the maintenance of the 253 acre facility, including 95,000 square feet of exhibit space, 110,000 square feet of livestock and equestrian arenas, 200 horse stalls, the Lithia Motors Amphitheater, and three small lakes used as recreation areas. The fairgrounds also administers the lease agreement with the Rogue Valley Family Fun Center. The fairgrounds is also responsible, in concert with the Friends of the Fair Foundation, for continued and additional private development of the facility. Nearly \$3 million in private investment has occurred over the last five years, with an additional \$3 million for the Lithia Motors Amphitheater.

Major Issues and Service Level Goals for Fiscal Year 2006-2007

- Maintain high quality of events produced in house.
- Increase fiscal stability and reduce dependence on general fund assistance.
- Continue development and promotion of the Lithia Motors Amphitheater.
- Develop additional stall facilities.
- Continue to pursue an update to the master/strategic plan.
- Continue to take more in-house responsibility for plant maintenance and equipment fabrication.

Major Issues and Service Level Accomplishments for Prior Year

- Increased fiscal stability in spite of a weak fair season.
- Finalize development of the Lithia Motors Amphitheater.
- Added several new shows, including the state high school equestrian meet.

Expo

Benchmark

The fairgrounds is dependent almost solely on community participation to reach its goals. Surveys are taken, both internally (exhibitors, concessionaires, renters) and externally (fairgoers, event attendees). Surveys show consistently high levels of satisfaction in programming and customer service. The fairgrounds is considered to be an innovative organization by its peers, particularly the Oregon Fairs Association. Staff has presented numerous continuing education programs at state and regional levels. These programs include disaster planning, marketing, board/staff relations, and health issues. In addition, the Friends of the Fair Foundation is looked upon as a model for similar foundations throughout the Pacific Northwest.

Fair

Category Name

Culture, Education & Recreation

Program Purpose

The purpose of this program is to develop and produce the annual county, spring, and harvest fairs, all community celebrations with slightly different goals. The fair program is helping meet county goals: (3) Provide opportunities for all citizens to prosper by promoting the economic development of the area; (4) Strengthen cooperation between public agencies; (5) Work to enhance the natural and man-made attractiveness of the area; (6) Encourage citizen understanding and participation in county government; and (7) Make recreational, learning, and cultural opportunities accessible and available.

Program Description

The fair program is charged with producing high quality, fiscally sound events, while generating significant participation from all segments of the community.

- **County fair**

Strategic objective: The county fair is the largest single celebration in the region, drawing over 150,000 people annually. It is a traditional gathering offering entertainment; competitive exhibits; commercial sales; agricultural, technological and educational exhibits; recreational activities; and a carnival. The focus of the fair stresses youth and agriculture, while addressing other segments of the community as well.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Attendance at events	149,770	159,000	147,000	155,000

The county fair attendance is driven in large part by the quality of the headline entertainment. The 2006 lineup has no weak links, and we anticipate significant growth in attendance figures. The Lithia Motors Amphitheater will host headline entertainment, and that in itself should boost attendance.

In 2005, significant in roads were made within the Hispanic community by working with the "Chamber Latino Network" (CLN). They marketed the event in Spanish and created a Hispanic Village which resulted in a substantial increase in Hispanic participation at the fair.

Fair

- **Spring fair**

Strategic objective: The spring fair is a purely agricultural event, providing opportunities for 4-H and FFA members to show lamb and small animal projects. It includes three days of show and judging activities, culminating in the first leg of the junior livestock auction.

- **Harvest fair**

Strategic objective: The harvest fair is a traditional fall festival, celebrating the harvest and all of the agricultural industries in Jackson County. They include cattle, crops, wine, and small animals, all showcased in a festive, fun environment. Opportunities are provided for citizens of the region to exhibit goods and services in an atmosphere of community support and recognition.

Significant Issues in the Year Ahead

The key issues for this program are maintaining high quality events. This is accomplished by working with community partners, sponsors, 4-H and FFA leaders to develop new ideas and implement them into the respective events. Also key is promotion of the Lithia Motors Amphitheater, enabling the events to maximize entertainment value and provide a new revenue stream.

Financial Condition

It is difficult to break down the assignment of general fund dollars to the fair or interim programs. Overall, the department generates most of its budget through fees and donations. The general fund contribution represents approximately 9 percent of budgeted revenue, while state support makes up about 2 percent. The financial condition of the department has improved steadily over the last several years and looks to reduce any dependency on outside support within the next few years.

Fair

Interim Events

Category Name

Culture, Education & Recreation

Program Purpose

The purpose of this program is to generate facility rentals in the off season. Additionally, it is to maintain and develop the facility to enhance existing events and assist in marketing new ones. The interim events program is helping meet county goals: (2) Serve all citizens fairly and ensure access to county governments; (3) Provide opportunities for all citizens to prosper by promoting the economic development of the area; (4) Strengthen cooperation between public agencies; (5) Work to enhance the natural and man-made attractiveness of the area; (7) Make recreational, learning, and cultural opportunities accessible and available; (9) Promote employee pride, high standards of performance, and productivity; and (12) Plan for the future.

Program Description

The interim events program provides the following services:

- **Managing the multi-use facility**

Strategic objective: Manage the multi-use facility in a fiscally sound manner, while encouraging community use at a variety of levels.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Interim attendance	161,545	200,000	213,000	225,000

Groups, organizations, and individuals rent the facility in the off season for a variety of events. They include, but are not limited to: concerts, horse shows, weddings, consumer shows, auto shows and sales, recycling sessions, dog shows, rodeos, service club meetings, and recreational vehicle shows. This program also includes the Rogue Valley Family Fun Center. As with the fair program, youth and communities are a high priority. Many events are discounted or subsidized entirely. Community nights are offered on the first Tuesday of each month, and all facilities are open to the public free of charge. Between this and the fair program, the community receives in excess of \$180,000 in free use of the facility.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Facility use days	925	710	1,052	1,060

Use days are defined as one facility being used by one group for one day. If group A uses two barns, group B uses the pavilion, and group C uses the arena, all on a given day, the result is four use days.

Interim Events

Significant Issues in the Year Ahead

The key issue is maintaining and developing the facility. There is a severe shortage of horse stalls, given the scope of our equestrian facilities. More stalls would generate significant revenue. Promotion of the Lithia Motors Amphitheater is a strong priority, as it will provide a significant new revenue stream as well as cultural opportunities presently unavailable.

The non-union position of fiscal administrative manager was added to expo staff to help meet the challenges to the organization. The immediate goal is to measure all activity for improved yield management. Other goals include a review of administration and staff systems, creation of margin reports by program, and implementing efficient staff processes to track data for future analysis. The desired outcome is to raise awareness of each staff members' role in profitability.

Financial Condition

As indicated in the fair program, it is difficult to assess specifically where general fund dollars are allocated. It is likely that any decrease in general fund support would impact the interim program to a greater degree than the fair program. However, the department has reduced its dependence on county and state funding sources significantly over the past several years, and generates 90 percent of its revenue through fees and donations. The financial condition of the department has improved steadily over the past four years, and the development of the Lithia Motors Amphitheater is expected to accelerate that trend.

Numbers for FY 02-03 through FY 04-05 are actual revenues and expenditures. FY 05-06 represents the revised budget and FY 06-07 is the adopted budget. For an explanation of the differences between the actual expenditures and budgets, see the Differences Between "Actual" and "Budgeted" Numbers located in the Budget Summary section of this document on page 32.

The decrease is a result of spending down the library and juvenile capital project funds as the projects have been completed. The FTE in this department is included in the solid waste program and varies depending on projects. The other portion of this FTE is found in the county administration budget.

Central Services Fiduciary

Category Name

Organizational Infrastructure

Program Purpose

The central services fiduciary fund program serves as the fund's "bank account" for all programs operating within the central services fund.

The fiduciary fund program is helping to meet all county goals.

Revenues in the central services fiduciary account are as follows:

Interest Income	45,116
Beginning Fund Balance	1,127,908
TOTAL	\$1,173,024

Expenditures in the central services fiduciary account are as follows:

Reserves	1,173,024
TOTAL	\$1,173,024

County Schools Fund

Category Name

Community Advocacy & Health

Program Purpose

The county schools fund is a pass-through fund for distribution of special revenues to local school districts. The fund is comprised of shared revenues from the federal government and interest earnings. The federal revenues are from Public Law #106-393 Secure Rural Schools and Community Self-Determination Act of 2000. This fund is not used for the distribution of current tax revenues. Current tax revenues are distributed to the individual school districts.

The county schools fund program is helping to meet county goal: (4) Strengthen cooperation between public agencies.

Court Security

Category Name

Community Advocacy & Health

Program Purpose

This fund was established as required by ORS 1.182. A portion of all the fines collected by courts in Jackson County are deposited into this fund to be used to provide court security for the state, district, and circuit courts. The court security program is helping to meet county goal: (1) Protect health, safety, and well-being of all citizens.

General Fund Fiduciary

Category Name

Organizational Infrastructure

Program Purpose

The fiduciary fund program serves as the county's bank, provides transfers to other funds, and provides funding for community-wide programs. The fiduciary fund program is helping to meet all county goals.

The general fund's revenues that are not directly attributable to a single program are included in the fiduciary budget. For fiscal year 2006-2007 those revenues are:

O & C timber receipts replacement funds	\$15,326,980
Beginning fund balance for 2006-2007	37,559,838
Current and prior year property taxes	26,114,556
Liquor tax proceeds (state-shared revenue)	722,566
Cigarette tax proceeds (state-shared revenue)	214,114
Video Poker	670,629
Solid Waste Fund	180,000
Bureau of Land Management entitlement payment in lieu of taxes	90,000
Amusement device tax (state-shared revenue)	40,933
Cable franchise fee	248,000
Rogue Family Center	49,485
Interest	1,650,000
TOTAL	\$82,867,101

Expenditures in the fiduciary budget include special projects and expenditures not attributable to a single program, transfers to other programs that require general fund support, the contingency account, reserves, and the unappropriated ending fund balance. Those expenditures are as follows:

Property maintenance	\$459,318
Operating expenses	15,030
Contracted Services	30,000
Communications Agreements	125,000
RVTV - additional programing	45,097
Accounting	23,502

Juvenile Capital Projects

Category Name

Organizational Infrastructure

Program Purpose

This special program serves as an account for capital construction of a new juvenile facility. This fund is made up of revenue from the sale of bonds from a juvenile bond measure passed in November 2000. The special reserve program is helping to meet county goal: (1) Protect health, safety, and well-being of all citizens.

The building is completed and occupied. This fund is now being used for post-occupancy improvements and enhancements, including an expanded video surveillance system and secure parking for juvenile probation officers.

Juvenile Debt Service

Category Name

Organizational Infrastructure

Program Purpose

The purpose of the juvenile debt service program is to repay bonds issued for the construction of juvenile facilities. The juvenile debt service program is helping to meet county goal: (1) Protect health, safety, and well-being of all citizens.

Program Description

During fiscal year 2001, the county issued \$16,500,000 in bonds for the project. The bonds were sold in \$5,000 denominations or integral multiples thereof. Interest is payable on December 1 and June 1 each year commencing on June 1, 2001. Below is the projected Maturity and Payment Schedules. Left over funds from the construction project in the amount of \$4,120,108 along with proceeds from the sale of the old juvenile facility in the amount of \$1,168,260 will be used to offset property tax collections as long as the funds plus interest income lasts. When the funds are exhausted, the county will resume collecting taxes to make required payments.

Maturity Schedule

Library Capital Projects - 2nd Bond Issue

Category Name

Organizational Infrastructure

Program Purpose

The library capital projects program serves as a statutory “holding” account for capital construction of new library facilities. This fund was established with funds bequeathed by former county commissioner and library supporter Isabel Sickels. On May 16, 2000, voters approved general obligation bonds in the amount of \$38,940,000 to finance the cost of land acquisition, capital construction, capital improvements, and site development for library facilities throughout Jackson County including Rogue River, Jacksonville, Ruch, Applegate, Eagle Point, Shady Cove, Prospect, Butte Falls, Central Point, Gold Hill, Phoenix, Talent, Ashland, and Medford. Construction of all branches is expected to be completed by the end of 2007.

The library capital projects program is helping to meet county goal: (7) Make recreational, learning, and cultural opportunities accessible and available.

Program: 090501	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Library Debt Service - 1st Bond Issue

Category Name

Organizational Infrastructure

Program Purpose

The purpose of the library debt service program is to repay bonds issued for the construction/remodel of library facilities. The library bond measure was passed by voters May 2000. The library debt service program is helping to meet county goal: (7) Make recreational, learning, and cultural opportunities accessible and available.

Program Description

During fiscal year 2001, the county issued \$20,365,000 in bonds to complete the first phase of the project. The remaining portion was issued during fiscal year 2003, see Library Debt Service-2. Bonds were sold in \$5,000 denominations or integral multiples thereof. Interest is payable on December 1 and June 1 each year commencing on December 1, 2000. In March 2006, the 2011 through 2020 bonds were refinanced lowering the rate of interest. Below are the projected maturity and payment schedules.

Maturity Schedule - Series 2001

<u>Fiscal Year</u>	<u>Principal Amount</u>	<u>Interest Rate</u>	<u>Price</u>
2007	\$805,000	5.00%	100.000
2008	\$850,000	5.00%	100.000

Library Debt Service - 2nd Bond Issue

Category Name

Organizational Infrastructure

Program Purpose

The purpose of the library debt service program is to repay bonds issued for the construction/remodel of library facilities. The library bond measure was passed by voters May 2000. The library debt service program is helping to meet county goal: (7) Make recreational, learning, and cultural opportunities accessible and available.

Program Description

During fiscal year 2003, the county issued \$18,575,000 in bonds to complete the second phase of the project. Bonds were sold in \$5,000 denominations or integral multiples thereof. Interest is payable on December 1 and June 1 each year commencing on December 1, 2003. Below is the projected Maturity and Payment Schedules.

Maturity Schedule - Series 2003

<u>Fiscal Year</u>	<u>Principal Amount</u>	<u>Interest Rate</u>	<u>Yield or Price</u>
2007	\$920,000	3.00%	100%
2008	\$945,000	3.20%	100%
2009	\$970,000	3.50%	100%
2010	\$1,005,000	4.00%	100%
2011	\$1,040,000	4.00%	100%
2012	\$1,075,000	4.00%	100%
2013	\$1,115,000	4.00%	100%
2014	\$1,160,000	4.00%	100%
2015	\$1,205,000	4.25%	100%
2016	\$1,255,000	4.30%	100%
2017	\$1,310,000	4.40%	100%
2018	\$1,365,000	4.50%	100%
2019	\$1,425,000	4.75%	100%
2020	\$1,490,000	4.75%	100%

Payment Schedule for Fiscal Year 2006-2007

<u>Total Payment</u>	<u>Remaining Principal</u>	<u>Interest</u>	<u>Principal</u>
\$1,599,775	\$920,000	\$679,775	\$15,385,000

Service Partners

Category Name

Community Advocacy & Health

Program Purpose

The county sponsors a number of community-wide programs and contributions to programs not operated by the county. Funding requests and recommendations are listed below.

The goals of the service partners program for the citizens of Jackson County are: (1) Provide cultural awareness; (2) Education; and (3) Agricultural development.

Program Description

	FY 2006-2007 Requested	FY 2006-2007 Adopted
<p>Historical Societies</p> <p>The historical societies preserve local history and educate the public as to the rich heritage of Jackson County. Historical societies create opportunities to explore the history that has shaped Southern Oregon; they improve the quality of public service while increasing the number and diversity of constituency; they create opportunities for individuals to develop personal meaning from experiences with objects, activities, and ideas; and improve accessibility to the collections while ensuring their condition, utility, and security in accordance with professional practices. (<i>Historical societies</i> are fulfilling goals 5, 7 and 11.)</p>	\$740,772	\$740,772
<p>Jackson Soil and Water Conservation District</p> <p>Jackson Soil and Water Conservation District strives to make the highest, wisest, and best use of the land, water, and other natural resources in the district for the citizens of Jackson County. The soil and water conservation district provides education, soil studies, and water information. The request is for general support. (<i>Jackson Soil and Water Conservation</i> is fulfilling goals 4, 7, 10 and 12.)</p>	\$45,209	\$24,079

Service Partners

	FY 2006-2007 Requested	FY 2006-2007 Adopted
<p><i>Rogue Valley Council of Governments (RVCOG)</i></p> <p>RVCOG provides overall coordinated services of benefit to all local governments in Jackson and Josephine counties and supports local and regional problem solving and provides a network of services to help seniors and adults with disabilities. (RVCOG is fulfilling goals 1, 2, and 3.)</p>	\$33,175	\$33,175
<p><i>Southern Oregon Research and Extension Center</i></p> <p>The Southern Oregon Research and Extension Center serves as the front door to Oregon State University and provides non-formal education that contributes to strong individuals, families, and communities, a vibrant economy, and sustainable natural resources. Southern Oregon Research and Extension Center provides a site for agricultural experiments and research leading to improvements in the Rogue Valley's agricultural economy. (Southern Oregon Research and Extension is fulfilling goals 1, 2, 3 and 7.)</p>	\$179,878	\$179,493
<p><i>Taylor Grazing</i></p> <p>Under state law, the county is required to receive funds from the Bureau of Land Management as the result of rancher-paid grazing fees. The county is then required to approve expenditures for range land improvements such as fences and gates. The recommended expenditure is covered by revenue. (Taylor Grazing is fulfilling goal 3.)</p>	\$14,000	\$14,000

Solid Waste

Category Name

Natural Resources & Environment

Program Purpose

The purpose of the solid waste program is to reduce the potential risk of communicable diseases, other debilitating conditions, and environmental degradation by making convenient, affordable, and sanitary solid waste collection and disposal available to all citizens of Jackson County. The solid waste program is helping to meet county goal: (1) Protect health, safety, and well-being of all citizens.

Program Description

The solid waste program provides the following services:

- **Solid waste recovery**

Strategic objective: Maintain a recycling recovery rate that meets or exceeds the Department of Environmental Quality's (DEQ) requirements.

Outcome: The minimum DEQ requirement is 25 percent for counties with the same solid waste volumes. Jackson County's 2004 Recycling Recovery Rate is 38 percent.

- **Education**

Strategic objective: Provide education to the residents of Jackson County on composting, reuse, recycling, and waste prevention.

Outcome: Maintain the highest percentage of public outreach educational recovery credits in the state of Oregon. In 2004, Jackson County achieved the 6 percent maximum recovery credits (2 percent backyard composting education; 2 percent reuse education; and 2 percent waste prevention education).

Jackson County has increased staff participation in the school outreach education program for waste prevention, reuse, and recycling. Brochures were mailed to each school in Jackson County announcing our 2005-2006 waste reduction curriculum. The program is designed to provide grade-level specific, in-class presentations promoting waste prevention, reuse, and recycling. There has been a tremendous response, with 25 presentations already completed since September, 2005.

Solid Waste

- **Intra-county programs**

Strategic objective: Assist private sector businesses in reducing their operational costs by reducing their solid waste.

Outcome: The SMART (Saving Money and Resources Together) Business Program will be awarded grant funds to provide outreach and incentives for commercial businesses and schools located throughout Jackson County to implement cost-effective measures to reduce solid waste. The SMART Business Program provides technical assistance and training to increase resource conservation behaviors, focusing on solid waste among commercial businesses and schools in Jackson County.

- **Inter-county programs**

Strategic objective: To utilize solid waste funds to off-set solid waste related costs for Jackson County departments.

Outcome: To reduce the overall operating expenses of the general fund, the Roads, Parks and Planning and Health and Human Services departments and the Jackson County Expo.

Significant Issues in the Year Ahead

To further reduce materials going into our landfill, an increased educational effort will take place regarding curbside yard debris recycling.

A large percentage of Jackson County has benefitted from commingled recycling. Commingled recycling allows patrons to discard all of their recyclable materials into one bin. The goal is to decrease materials going into the waste stream. Rogue Disposal, the county's largest waste hauler serving 30,000 county residents, now offers commingled recycling to 23,000 of its residential customers. This is a voluntary program. The popularity of commingled recycling is evidenced by the fact that, prior to the offering of commingled recycling, only 59 percent participated in recycling, now that number is up as high as 84 percent. Ashland Sanitary and Southern Oregon Sanitation offer recycling opportunities to their customers at the Ashland Recycling Depot and the Rogue Transfer Station, respectively.

Solid Waste

Financial Condition

This program is not supported by the county's general fund, but is funded primarily by solid waste franchise fees.

Program: 091401	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Title II

Category Name

Community Advocacy & Health

Program Purpose

To fund projects on federal lands in accordance with Public Law 106-393. These projects are established at the discretion of the Secretary of Agriculture or the Secretary of the Interior. Projects are proposed to the secretary concerned by various Resource Advisory Committees (RAC) which includes citizens from each affected county.

Title III

Category Name

Organizational Infrastructure

Program Purpose

The purpose of the Title III program is to fund projects that will meet criteria set by the Secure Rural Schools and Community Self-Determination Act of 2000 or Public Law 106-393. The Title III program helps to meet county goals: (5) Work to enhance the natural and man-made attractiveness of the area; and (7) Make recreational, learning, and cultural opportunities accessible and available.

Program Description

The Title III program provides for separate accounting and grant management of special forest-related projects.

- **Grant management**

Strategic objective: Manage Title III projects in accord with the Public Law 106-393 requirements. Authorized uses include the following: 1) search, rescue, and emergency services – performed on federal lands; 2) community service work camps on federal lands; 3) easement purchases for conservation purposes or to provide access to federal lands; 4) forest-related educational opportunities; and 5) fire prevention and county planning to reduce the risk of wildfires.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Search, Rescue & Emergency Services	2	2	2	2
Community Service Work Camps	2	2	2	2
Easement Purchases	1	2	2	1
Forest Related Educational Opportunities	11	11	11	7
Fire Prevention & County Planning	10	11	12	12

Jackson County is in the sixth year of this program. The program has experienced a marked increase in interest as evidenced by the number of applications submitted in the first year versus the number submitted in the fifth year. During the first year, approximately 23 percent of available funding was expended. Expenditures have now risen to exceed the level of Title III appropriation received by the county, less approximately 10 percent held in reserve for unanticipated needs.

Title III

Significant Issues in the Year Ahead

This funding, unless extended by the U.S. Congress, will expire after the 2006-2007 fiscal year. Many programs, beneficial to Jackson County, have been created utilizing these funds. With the potential impending funding loss, efforts should be made to assess the applicants with an eye toward self-sufficiency. This may change some of the criteria by which applications are assessed.

Financial Condition

This program receives no general fund dollars. During the first few years of this program, there weren't enough projects developed to spend all of the money so a sizable reserve was built up. These reserves were spent by the end of fiscal year 2004-2005 so the total amount of projects were reduced in fiscal year 2005-2006, and will be reduced for 2006-2007 as well.

Currently, it is unknown whether this program will be extended by the United States Congress past the 2007 sunset date.

Program: 091501	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Finance

Highlights and Challenges

Department Summary

Purpose Statement: To provide support, control, and income generation (investment income) services to the organization, revenue collection services to all county taxing districts, and property tax assistance and support services to the public.

Major Issues and Service Level Goals for Fiscal Year 2006-2007

- Major components of the new EnterpriseOne system are live, but there remains work in terms of refining, and additional user training. Areas of emphasis for next year include expanding the use of “employee self-service” for payroll and human resources, additional departments utilizing the PayPoint cash receipting module and assistance, as needed, with the interface of data between the general ledger and budget modules. These efforts will take at least a year.
- Working with the State Department of Consumer and Business Services, streamline and improve the new system whereby counties implement title changes on manufactured structures. This used to be a responsibility of the Department of Motor Vehicles (DMV).
- Continued enhancement of the new Oregon Counties Assessment and Taxation System (ORCATS) software and the related cash receipting system developed by the same vendor.

Major Issues and Service Level Accomplishments for Prior Year

- The financial modules of the new EnterpriseOne system continue to be fine-tuned and new functionality is being made available to departments. A great deal has been accomplished along these lines, but this has also shown us that a lot of work remains in this area.
- On-line credit card and “e-check” payments for property taxes were implemented this year. It has taken more staff time than was anticipated, but the program has been well received by the public.
- The county is now processing ownership changes for manufactured structures. This is a significant service to citizens and gives the county better information than was available when DMV was handling this responsibility.

Benchmark

The benchmark that finance had been using for a couple of years, the LIBOR + 0.50 percent, is a short term rate based on 90 day paper. As such, when interest rates rise rapidly there is a lag in any portfolio that has longer investment horizons (longer than 90 days), such as ours. The county can invest up to three years (36 months) when rates and other considerations are favorable. Most local governments may only invest for 18 months.

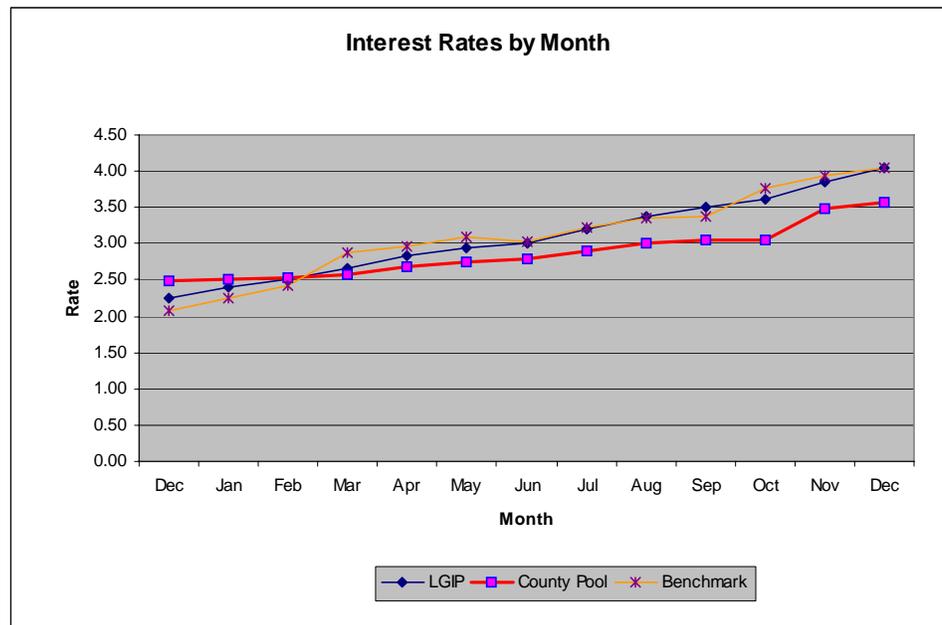

Our portfolio has recently not achieved the benchmark as a result of the investment horizon and rapidly increasing rates, but also because as investments mature the

Finance

proceeds have often been spent rather than reinvested. The local government investment pool (LGIP) is a state managed portfolio.

Given that our current benchmark is relatively easy to meet when interest rates are stable or falling, but almost impossible to meet when interest rates are rising rapidly, finance investigated an adjustment to the benchmark. Finance investigated the validity of the three month LIBOR + .50 percent less the effect (positive or negative) of federal fund movements during the previous 12 months. In an increasing interest rate environment, this lowers the benchmark. In a decreasing interest rate environment, this raises the benchmark. This proved, however, to be too large of an adjustment and the criteria was changed to back-out the effect of 6 months of federal reserve adjustments rather than 12 months. This remains a difficult benchmark during increasing rates, but is valid as a target for the county's investment pool.

Accounting

Category Name

Organizational Infrastructure

Program Purpose

The accounting program is responsible for providing a flexible, timely management information system that allows easy access to financial data important to decision making, while maintaining necessary internal controls, and encouraging competitive and effective procurement practices in a decentralized environment. The accounting program is helping to meet county goal: (11) Maintain public records to provide financial, historical, and statistical information.

Program Description

The accounting program provides the following services:

- **Service delivery efficiency**

Strategic objective: Maintain general accounting, payroll, and purchasing expense as a percentage of the county's budget (excluding capital projects).

<i>Outcome(s)</i>	FY 2003-2004 Actual	FY 2004-2005 Actual	FY 2005-2006 Expected	FY 2006-2007 Projected
Percentage of county budget	0.31%	0.33%	0.30%	0.30%

- **Timely and useful management information**

Strategic objective: With the goal of finishing PayPoint and the Labor Budget portions of E1 this year, the ten steps will be completed and emphasis shifts to training and fine-tuning. The objective is to, along with IT, develop an ongoing training program to train new employees and further train existing employees.

<i>Outcome(s)</i>	FY 2003-2004 Actual	FY 2004-2005 Actual	FY 2005-2006 Expected	FY 2006-2007 Projected
Steps completed	9.5/10	9.75/10	10/10	
Training sessions offered	n/a	n/a	4	8

Significant Issues in the Year Ahead

The accounting program staff will continue to gain knowledge in the new financial, payroll, and human resources system in the FY 2006-2007. This will include support to county departments to assure they are able to efficiently obtain the necessary financial data needed to effectively manage their programs. The accounting program staff will also continue to "fine-

Accounting

tune” the software so that there will start to be a positive impact on the program’s outcomes supporting the program’s purpose and enhancing organizational efficiency.

Financial Condition

This program is 99 percent funded by chargebacks to other county programs, 53 percent coming from general fund programs. The remaining 1 percent of funding is from direct charges to programs for services and rebates received from the countywide purchasing card program and the countywide office supply contract.

Payment Center

Category Name

General Government

Program Purpose

To maximize the collection of property taxes in a timely manner on behalf of the taxing districts and the citizens of Jackson County while utilizing the latest available technology. In addition, the payment center provides cost-effective collection of miscellaneous revenues for other departments in a manner that provides convenience to the public while protecting the county's financial assets. Since this program collects the taxes that help all taxing districts serve county citizens, this program helps the county to achieve goal: (2) Serve all citizens fairly and ensure access to county government.

Program Description

The payment center program provides the following services:

- **Efficient collection and posting of property tax receipts and miscellaneous revenues for other county departments**

Strategic objective: Process all collections in a timely manner by promoting lockbox and local bank drop-off sites for tax payments, and also by meeting the targeted number of days required for revenues of other departments to be deposited.

- **Cash controls**

Strategic objective: Maintain a system of cash controls that minimizes the possibility of fraud while enabling payment processing as quickly and efficiently as possible.

Payment Center

- **Distribution of taxes**

Strategic objective: Timely and accurate distribution of property taxes to the taxing districts.

Significant Issues in the Year Ahead

Working with the other six counties using Oregon Counties Assessment and Taxation System (ORCATS) software, payment center program staff and assessment staff will continue to be active in user group meetings to identify needed enhancements to be developed by the software vendor. The original consortium (first four counties) has sold this software to two other Oregon counties and others have expressed an interest. The goal is to enhance efficiency, and market this product to make it a significant multi-county state property tax system. The efficiency of a multi-county system is realized by all participating counties.

Ownership changes for manufactured structures transferred to counties in May, 2005. Finance staff has been active in this effort. This fiscal year we will work toward refining this new joint responsibility with the state, which is providing a needed service to owners of manufactured structures.

On-line payments were implemented in October, 2005. This year we plan to further market this option and assist other counties coming on-line with this option.

Financial Condition

Payment center expenses are covered 30.0 percent by the County Assessment and Tax Fund (CATF) grant from the state. An additional 21.8 percent is covered by other miscellaneous revenues.

Payment Center

Property Management

Category Name

Organizational Infrastructure

Program Purpose

To manage the county's real property assets including the granting of easements, negotiation of leases, and auctioning properties deemed to be surplus. The property management program is involved in the foreclosure process from the generation of files and records at the beginning of the two-year "judgement" period to the point of possible sale after properties are deeded to the county. Field visits are performed on properties in the foreclosure process to facilitate identification of missing owners or other parties with a recorded interest. This program manages county-owned property that is retained for operations, including maintaining records as to origin, restrictions in use, archeological designation, etc. This program is helping to achieve county goal: (10) Make the best use of Jackson County's human and material resources.

Program Description

The property management program provides the following services:

- **Management of county properties** (currently 835 accounts).

Strategic objective: Maximize payments on accounts in foreclosure with a goal of clearing as many accounts as possible. Obtain the highest return on properties the county does acquire, either through lease or disposal.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Percent of properties cleared	92%	75%	87%	90%

Significant Issues in the Year Ahead

Continued effort to reduce the number of small parcels that are in the county's inventory. The 2005 auction grossed \$173,500 and included 13 parcels, 9 of which sold. Two previously auctioned parcels that were of a size and type that made them marketable to the general public were listed with a realtor and sold. Parcels that do not sell at an auction are available for private sale at market value after the auction. This mix of marketing methods was successful and will be utilized in 2006-2007.

The new E1 financial system is being used to create a comprehensive, accessible, record of county owned property for all departments. The goal is to eliminate partial lists that have been maintained in two separate systems and that were not accessible to other county staff.

Property Management

Financial Condition

This program is funded through property sales, easements, and lease payments. Property sale revenues may only be retained to the extent that they cover actual costs. Additional receipts are distributed to all county taxing districts.

Program: 060202	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Treasury

Category Name

General Government

Program Purpose

To manage the county's funds for maximum return while meeting liquidity requirements, protecting investment principal, and adhering to statutory and policy restrictions and requirements. The treasury program receives county funds, disburses tax revenue to all taxing entities, provides debt service administration for the county and urban renewal agency, and maintains an investment pool for all funds as well as the urban renewal agency, law enforcement district, and lighting district. This program assists all departments in the implementation of systems to enhance the processing and security of receipts, including wire and credit card payments. The program is helping to achieve county goal: (10) Make the best use of Jackson County's human and material resources.

Program Description

The treasury program is providing the following services:

- **Maximization of investment income**

Strategic objective: Realize a return on pooled investments equal to or greater than the 90 day London Interbank Offered Rate (LIBOR) plus 50 basis points less 6 months of federal fund adjustments. Pooled interest to be allocated based on daily balances by fund; bond investments are to comply with Internal Revenue Code restrictions.

Outcome: The benchmark on the department summary page reflects actual results. It is expected that the benchmark will be met in 2006-2007.

- **Enforcement of cash controls**

Strategic objective: Retain a system of cash controls that minimizes the possibility of fraud or misuse of cash entrusted to the treasurer's office. Note cash control problems in other departments and, together with internal audit, work toward their resolution.

- **Distribution of taxes**

Strategic objective: Timely, accurate, and efficient distribution of property taxes utilizing Oregon Counties Assessment and Taxation System (ORCATS) software.

Treasury

Significant Issues in the Year Ahead

Emphasis for the new year includes further exploring the increased functionality and options that are available in the Sympro treasury software that was installed as part of the financial system conversion. Also, host or participate in a western U.S. Sympro user's group workshop. Treasury staff will also work to help expand the use of the PayPoint cash receipting module. This cash receipting module improves audit trails and cash controls in the various departments in which it is installed, as well as the interface with the new financial software. Additionally, go out to bid for the county's banking services.

Financial Condition

This program is funded primarily through chargebacks to other departments, based on actual workload statistics. Chargebacks account for 97.9 percent of the treasurer's budget, and 2.1 percent is revenue received through the state County Assessment and Tax Fund (CATF) grant. Approximately 39.5 percent of chargebacks are attributed to the general fund.

Program: 060102	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

FULL-TIME EQUIVALENTS	256.48	239.74	234.87	235.39	230.92

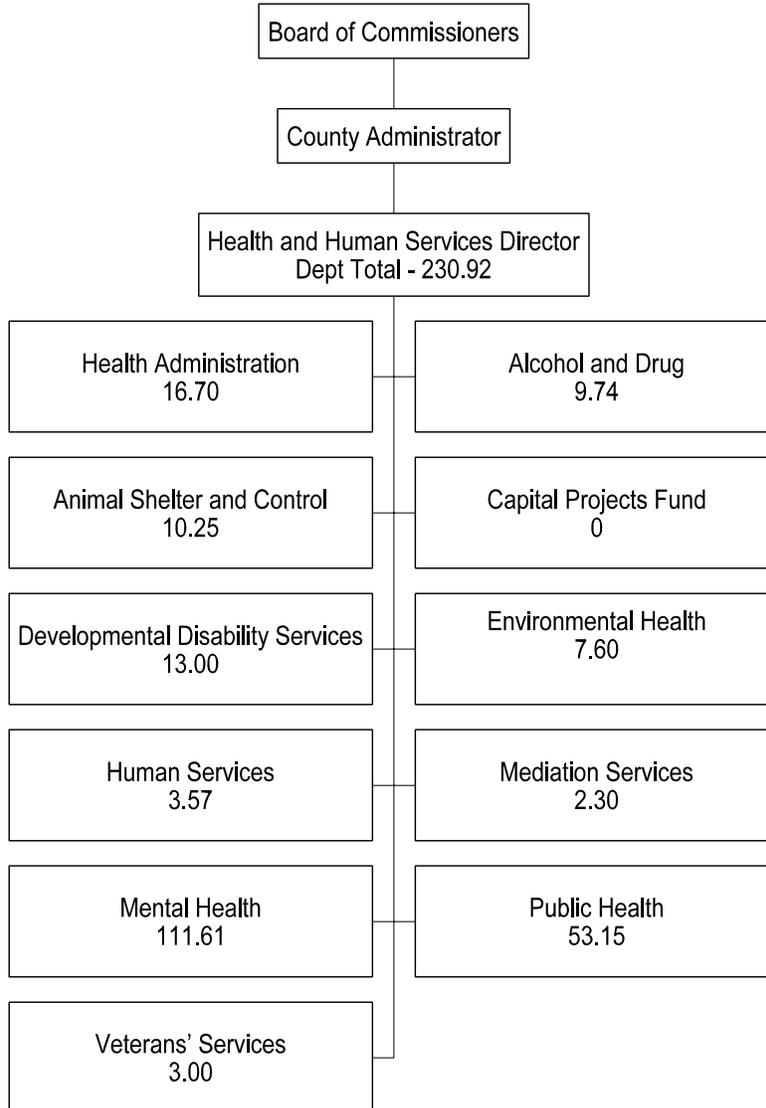

Numbers for FY 02-03 through FY 04-05 are actual revenues and expenditures. FY 05-06 represents the revised budget and FY 06-07 is the adopted budget. For an explanation of the differences between the actual expenditures and budgets, see the Differences Between "Actual" and "Budgeted" Numbers located in the Budget Summary section of this document on page 32.

There are no significant changes in this budget. There is a slight decrease of FTEs which is a result of a decrease in state reimbursed programs.

Organization Chart

All employees are reported as full-time equivalents.

Health and Human Services

Highlights and Challenges

Department Summary

Purpose Statement: Protect and promote the health of Jackson County citizens.

Major Issues and Service Level Goals for Fiscal Year 2006-2007

- More than 75 percent of the health and human services budget is comprised of grants and reimbursements from the state and federal governments. Two issues will have a significant impact on our continued ability to provide services:
 - The state Department of Human Services budget is \$172,000,000 out of balance for the current biennium, primarily due to overruns in the Oregon Health Plan; and
 - President Bush's federal 2006-2007 budget proposes significant cuts to Medicaid and other human services programs and threatens continued O&C funding.

How these issues are resolved will impact the HHS budget. At the same time PERS, health insurance costs, and inflation further restrict our ability to maintain service levels.

- We will continue to work with a broad community coalition to fight our methamphetamine epidemic; will improve mental health services to children and families; will expand services to veterans with new state funds; and will continue to plan for our response to avian flu and other public health emergencies.

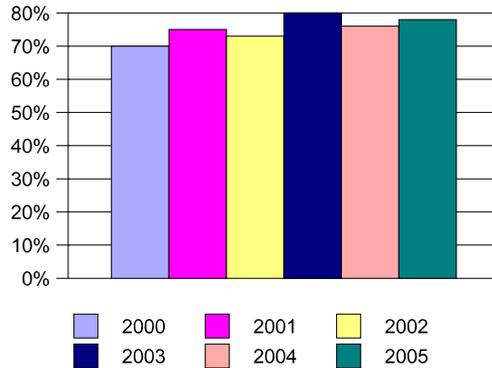

Major Issues and Service Level Accomplishments for Prior Year

- Worked with private health care providers to insure that influenza vaccine was distributed to highest risk individuals.
- Implemented system change initiative for children's mental health services creating a more child/family centered treatment approach using evidence based practices.
- Expanded nursing coverage at the jail to include weekends.
- Transferred the healthy start program to a private non-profit provider achieving significant increase in home visiting services to first time parents.
- Continued to work with the methamphetamine task force. Invested more than \$400,000 in treatment and prevention programs. More than 150 people attended the second annual methamphetamine summit; launched a county funded treatment improvement project.
- In cooperation with ASANTE, Providence and Ashland Community Hospital launched the JRHA Behavioral Healthy system study.
- Completed a pandemic influenza plan and held regional exercises to test the plan and mass prophylaxis protocols. Allocated more than \$500,000 to hospitals and other health providers to improve their preparedness.

Health Administration

Category Name

Community Advocacy & Health

Program Purpose

Provide direction and administrative support, including budgeting, contracts, personnel, and planning for all health and human service programs. Maintain collaborative relationships with other agencies who serve the same population. The health administration program is helping to meet county goals: (1) Protect health, safety and well-being of all citizens; (4) Strengthen cooperation between public agencies; (10) Make the best use of Jackson County's human and material resources; and (12) Plan for the future.

Program Description

The health administration program provides the following services:

- **Administration**

Strategic objective: Provide overall direction and administration of all health and human services programs. Services include budgeting, contracts, personnel, and program planning.

- **HIPAA compliance**

Strategic objective: Provide leadership and direction for all county agencies affected by the HIPAA (Health Insurance Portability and Accountability Act of 1996) regulations.

- **Integrated services**

Strategic objective: Work with other health and human services providers (state agencies and non-profits) to continue to work toward more integrated services.

Significant Issues in Year Ahead

The program faces significant challenges as attempts are made to preserve the most basic health and human services in light of state and county budget difficulties.

Financial Condition

This program is funded by chargebacks to other health and human service programs and rents collected from partners at integrated facilities. The ability to collect rents representing each partner's share of the costs at the integrated facilities will be dependent on economic conditions affecting the state as well as local non-profits. The general fund support to this program is approximately .1 percent.

Alcohol and Drug

Category Name

Community Advocacy & Health

Program Purpose

The alcohol and drug program seeks to address the impact of substance abuse on the children and adults of Jackson County by providing a full continuum of treatment and prevention services. The alcohol and drug program is helping meet county goal: (1) Protect health, safety, and well-being of all citizens.

Program Description

The alcohol and drug program provides the following services:

- **Prevention**

Strategic objective: Prevent substance abuse and other risk behavior by county youth by collaborative planning, community coordination, and outcome-based community services. Priority strategies for 2006-2007 include youth mentoring, middle-school life-skills education, parent education, and community safety net services to prevent child abuse.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Percent of 8 th grade students using alcohol	28%	28%	28%	28%

The goal of prevention services is to reduce the alcohol use of Jackson County 8th grade students. While the use of marijuana by 8th graders declined in 2005, the use of alcohol increased and tobacco stayed the same.

- **Community treatment services**

Strategic objective: Deliver an effective continuum of substance abuse treatment services through citizen planning, community contracts, community coordination, and revenue enhancement. Five collaborative grant projects have focused on community services to targeted high-risk youth and adults. Treatment services include: residential, outpatient, DUI, case management, and specialized projects.

Alcohol and Drug

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Jackson County's treatment completion rate	64.17%	64.17%	Not Available	64%

The goal of our community treatment services is to have the Jackson County treatment completion rate be greater than the completion treatment rate in the state of Oregon (Oregon completion rate is 58 percent).

Strategic objective: Provide methadone treatment to reduce risks associated with heroin and other opiate use.

The goal of the methadone program is to reduce the use of illegal opiates in the methadone program to not more than 10 percent. In 2004, 7.1 percent of client urinalysis (184/2418) tested positive for illegal opiates.

- **Gambling services**

Strategic objective: To provide gambling prevention and treatment services to reduce the negative effects of gambling.

The goal of the gambling services program is to have 27 percent of people in gambling treatment successfully complete treatment. In 2004-2005, 27 percent of those treated successfully completed treatment.

Significant Issues in the Year Ahead

Methamphetamine addiction and the negative impacts it has on the community has been identified as the top priority in the alcohol and drug program area. In accordance with this, the county has provided leadership to the Meth Task Force and helped sponsor the Methamphetamine Summit, which brought together 180 community leaders from across Jackson County to develop community strategies to battle methamphetamine. Methamphetamine is overloading our jails, our law enforcement resources, and our child welfare system. Treatment providers are having to redesign their treatment systems to deal with the physical and behavioral damage caused to the body by methamphetamine addition.

Jackson County has initiated a treatment improvement project to assist providers in developing effective recovery programs for use with methamphetamine addicted clients. Both major public treatment providers have developed some transitional housing capacity to ensure that families trying to recover from meth have access to safe housing. The Moore Center, a sobering program administered by ARC through county funding, includes a transitional housing component for single men who have substance abuse histories and are clients of either mental health or the corrections system.

Alcohol and Drug

Jackson County has just started an adult drug court that will be available to adult offenders referred through the criminal court. Our family court, in operation for four years, serves families, particularly families in the child welfare system, who have abused or neglected their children because of drugs. It has shown early success and was used as a model by the state when they developed their Family Court Initiative this year.

Jackson County administers several grants that support treatment and services provided by the drug court.

The second issue that has emerged in this program area in the last year is the abuse of prescription drugs. An increasing population in the methadone program are there because of prescription drug use. All licensed treatment providers in the county are showing increasing populations coming in for substance abuse treatment because of the misuse of prescription drugs, whether obtained legally from physicians or illegally on the street. Health and human services has initiated a program to help educate the medical community about how to effectively deal with both substance abuse and chronic pain issues.

Jackson County has augmented somewhat the financial crisis by obtaining resources through competitive state and federal grants. However, these grants are dependent on a certain level of base community services and will be at risk if the loss of community services keeps them from achieving their goals and objectives. A strength for the county is the strong community partnerships which have supported the collaborative community projects involved in these grants.

Financial Condition

State budget cuts and the ending of federal grants will impact our ability to continue these services. The general fund contributes 3 percent of the funding for this program.

Alcohol and Drug

Animal Shelter and Control

Category Name

Community Safety

Program Purpose

Protect human and animal health and safety, increase responsible pet ownership, and reduce the number of unwanted pets through education and enforcement of animal control and welfare laws and standards. The animal control program is helping to meet county goal: (1) Protect health, safety, and well-being of all citizens.

Program Description

The animal control program provides the following services:

- **Animal control**

Strategic objective: Pick up and take in stray dogs and cats to reduce health concerns and the risk of bites or attacks to people and other animals/livestock.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Dogs handled	2,981	2,800	2,800	2,700
Cats handled	3,457	3,599	4,253	4,500
Dogs/cats returned/adopted (5 year average = 1,712)	2,618	2,452	2,604	2,700

While efforts by staff and volunteers from Friends of the Animal Shelter to return/adopt a current average of 60 percent of the incoming animals, the other 40 percent are wild, aggressive, have medical or behavior issues that make them difficult or unsafe to place. These animals are humanely euthanized.

- **Case investigations**

Strategic objective: Investigate dangerous dogs, potential livestock damage by dogs, nuisance dog complaints, and concerns of animal neglect/abuse. Take necessary actions to prevent ongoing problems.

Animal Shelter and Control

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Dangerous dog/livestock offense	240	249	393	500
Nuisance	561	584	538	550
Cruelty/neglect	240	241	314	380

We are seeing a growing number of aggressive breed dogs with irresponsible owners. This has created a serious human safety issue that will be our priority to address. The same irresponsible ownership results in a growing number of neglected animals. This trend seems to go along with the growing drug issues in Jackson County.

- **Licensing**

Strategic objective: Assure current rabies vaccination and licensure of all dogs over six (6) months of age.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Annual dog licenses	21,579	21,500	22,000	22,500

The ability to conduct more license checking activities, when fully staffed, will swell these numbers.

- **Animal adoptions**

Strategic objective: Maximize the number of sheltered dogs that are adopted or redeemed to their owners.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
% of dogs adopted/ returned to owner (5 year average = 43%)	58%	60%	60%	63%

Numerous activities have helped return more and more dogs to their owners or find new homes for dogs who come to the shelter.

Animal Shelter and Control

Significant Issues in the Year Ahead

Fill vacant kennel technician position with qualified person to enable full standards of operation. This has been difficult as euthanasia of animals is required causing many applicants to decline taking the position.

The division has spent the last year investigating dog and cat breeders to identify those that need to have kennel licenses. The result has shown that we need to revise our current Kennel Ordinance to address Dog/Cat Fanciers, infrequent breeding/selling, and overall requirements for the conditions of kennels.

The increasing drug problems have also produced an increase in dogs trained to be aggressive and left uncontrolled and has increased the cases of animal neglect. During 2005 we have found a significant increase in the number of animals found dead or starving. There has also been a 30 percent increase in dangerous dog reports. More dogs will be impounded using the Dangerous Dog Ordinance. Our challenge will be to use the ordinance and hearing process effectively reducing the impact on other departments involved.

Financial Condition

Ninety-four percent of the animal control program is funded through dog license sales, reimbursement contracts, adoption and other fees, fines, and in some areas through donations. However, a poor local economy may reduce dog license numbers and increase the number of stray dogs not redeemed by their owners. The county general fund contributes 6 percent of the cost of this program.

Animal Shelter and Control

Program: 240107	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Capital Projects

Category Name

Organizational Infrastructure

Program Purpose

The main buildings housing the health and human services department were purchased in the late 1980's and are no longer adequate to meet our space needs. The department has purchased additional nearby properties in recent years and has leased space to meet ever increasing program growth. Funds will come from the health and human services fund and will be dedicated to meeting the long term capital needs of the health and human services department.

The health and human services capital projects fund is helping to meet county goal: (1) Protect health, safety, and well-being of all citizens.

Significant Issues in Year Ahead

In fiscal year 2005-2006, health and human services acquired four lots comprising a cul de sac off of Grand Avenue in Medford. It is anticipated that the department will begin to develop this property in fiscal year 2006-2007. Long term plans are to build much needed housing for mental health patients on these vacant lots.

Financial Condition

Costs incurred will be associated with easements, engineering and surveying. Health and human services plans to acquire funding for this development from both the State Mental Health Division and Community Development Block Grants. Once developed, operational costs will be minimal; normal upkeep of residential properties will be the only expense.

Developmental Disability Services

Category Name

Community Advocacy & Health

Program Purpose

The developmental disabilities program provides specialized case management to eligible individuals who experience the effects of mental retardation, cerebral palsy, autism, seizure disorder, and other developmental disabilities. Responsibilities also include abuse and protective service investigations for adults; crisis intervention; quality assurance in sub-contracted residential and vocational services; licensing and monitoring of foster homes; administration of family support for minor children; and authorization of Medicaid support services for adults. The developmental disabilities program is helping to meet county goal: (1) Protect health, safety, and well-being of all citizens.

Program Description

The developmental disabilities program provides the following services:

- **Case management**

Strategic objective: Complete an assessment of support needs, and implement a plan for meeting those needs for each client enrolled in case-management only, at least one time a year.

- **Abuse investigation**

Strategic objective: Respond to all complaints of neglect within 24 hours. Identify those rising to the level of abuse requiring investigation and initiate investigation immediately. Complete investigation reports within prescribed 45-day time line.

- **Residential group homes and foster homes**

Strategic objective: Complete a quality assurance monitoring visit to each site at least one time each month.

- **Family support**

Strategic objective: Decrease the likelihood of neglect and need for out of home placement by providing families of minor children specialized equipment, consultation, training, and respite.

Significant Issues in the Year Ahead

The retirement of the developmental disabilities program manager in March 2006 will have a significant impact on the program. Efforts to recruit a successor have thus far proven futile. An interim plan has been developed and recruitment efforts will continue. Plans are also underway to transfer

Developmental Disability Services

the regional crisis/diversion program from Josephine County to Jackson County.

Financial Condition

Increasing costs (salaries, PERS, etc) and no increased state funds. Caseloads and state requirements have increased steadily over the past several years while funding from the state has remained stagnant. To avoid staff reductions, the county general fund contribution to the program will be approximately .3 percent. This will bring in \$45,000 in federal matching funds.

Program: 240109	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Environmental Health

Category Name

Community Safety

Program Purpose

Ensure safe food and drinking water to our citizens and visitors through education, problem identification, and resolution and enforcement of safe food and water standards. The food and water inspection program includes ambulance service planning, restaurant and other food service inspections, drinking water system consultations, food handler education, inspection of camps, RV parks, motels/hotels, day care centers, and school food service. The air quality program provides field consultation services, advisories, education and ongoing information and necessary code enforcement to enable citizens of Jackson County to adhere to burning practices that reduce smoke buildup.

The food and water inspection program and the air quality program are helping to meet the following county goal: (1) Protect health, safety, and well-being of all citizens.

Program Description

The food and water inspection program is providing the following services:

- **Food handlers testing, and facility licensing and inspections**

Strategic objective: Prevent illness and physical suffering through education of food handlers and others; providing inspection/problem solution services, and promptly respond to complaints and reports of food/water borne illness to ensure prompt resolution.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Annual inspections completed	2,073	2,100	2,100	2,200
Food handlers tested	4,760	4,700	4,750	4,700

- **Wood smoke control**

Strategic objective: Reduce the impacts on the airshed from open burning and wood stove use through education, monitoring, and utilization of a ventilation based advisory.

Environmental Health

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of citizen complaints that require field response	75	60	120	150

Significant Issues in the Year Ahead

Emphasis will be put on maintaining inspection frequencies while improving inspection effectiveness through utilization of modified inspection processes and focusing on education, high risk behaviors, data management, and staff training. Food service inspection results are now posted on the county web site for consumer access.

The national and regional policy of active forest fuels reduction, especially in rural/urban interface areas will increase the volume of forest and yard debris to be burned. This may increase the burden on our airshed and require a more active education and field consultation program.

The open burning and wood stove curtailment programs are an essential element of the proposed PM₁₀ maintenance/attainment plans. The EPA proposes to adopt new PM₂₅ particulate standard this next year. Historical data indicates the valley will probably violate this standard. Without effective implementation of these programs, the valley will not demonstrate compliance.

Financial Condition

This program is funded through license, testing and inspection fees, and a contract from the state department of Health Services for drinking water services. State and local economics may impact resources and stress local businesses increasing the need for surveillance, technical assistance, and in some cases, enforcement. There is no general fund support provided to this program.

The air quality program is funded through a contract with the state Department of Environmental Quality. The amount of the grant remains the same from year to year so, as costs rise, program hours are diminished. There is no general fund support for this program.

Human Services

Category Name

Community Advocacy & Health

Program Purpose

The human services program ensures there is a basic safety net of human services for Jackson County citizens and seeks to maximize community wellness and supports for children and families in Jackson County. The human services is helping to meet county goal: (1) Protect health, safety, and well-being of all citizens.

Program Description

The human services program provides the following services:

- **Commission on children and families**

Strategic objective: Develop and implement a comprehensive plan through citizen planning, community contracts, and outcome-based services. The four priority objectives are to lower juvenile crime, reduce child abuse, increase service integration, and lower youth substance abuse.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Child abuse rates per 1,000	13.3	13.3	15.9	15.0

The 2000 target of the commission was to work with the community to lower the child abuse rate to 13.5 percent by 2005. The rise in child abuse is attributed to the soaring methamphetamine epidemic.

- **Human services**

Strategic objective: Provide a safety net of contracted human services to Jackson County citizens. The safety net provides support services for families and victims, health care, emergency services, alcohol and drug services, and legal/public safety services.

- **Juvenile crime prevention**

Strategic objective: Lower juvenile delinquency through collaborative planning, community and juvenile department contracts, and outcome-based services.

Human Services

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Juvenile recidivism rate	32.2	32.2	32.1	32.0

The goal of the commission is to work with the community to lower the juvenile recidivism rate to 32 percent.

- **Healthy start**

Strategic objective: Screen first-birth parents and provide preventive home-visiting services to high-risk parents to prevent child abuse and to assist each child to reach their developmental potential.

Significant Issues in the Year Ahead

Human services program funding was continued on the allocation recommendations for the 2003-2004 RFP process. Each of the grantees submits project reports twice a year, which report progress on their grant objectives and outcomes. Ninety-two percent of the grant objectives were accomplished in the 2004-2005 funding year. We have scheduled two site evaluations this year for projects receiving human service funding.

The commission on children and families survived a somewhat rocky legislative session. There was a 20 percent reduction in healthy start funding and a slight (less than 1 percent) reduction in basic capacity. The biennial plan update, which covers the updated commission plan, the juvenile crime plan, and the substance abuse prevention plan was completed in January of this year and approved by the Board of Commissioners.

Healthy start, as directed by the last county budget process, was transferred from the county to La Clinica del Valle, a nonprofit organization that submitted the grant application selected by the allocation panel. La Clinica began the full healthy start service program in October 2005. La Clinica hired the county program manager to direct the program and the program is fully operational at this time.

The present commission director will be retiring from that position in June of 2006. She will be replaced by a full-time commission director to be selected by the commission and the county. A full-time commission director will mean a stronger commission presence in the community and increased capacity to work on commission goals and programs.

Human Services

Financial Condition

Commission on children and families, juvenile crime prevention, and healthy start programs are 100 percent funded with state and federal dollars. The human services grant program is 100 percent funded with county general funds.

Program: 240102	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Mediation Services

Category Name

Community Advocacy & Health

Program Purpose

Provide mediation services for parents who are disputing custody or visitation of their children and for couples who are divorcing and desire financial mediation. The mediation services program is helping to meet county goal: (1) Protect health, safety, and well-being of all citizens.

Program Description

The mediation services program provides the following:

- **Mediation services**

Strategic objective: Provide mediation services for custody, visitation, or financial disputes.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Cases mediated that achieve agreement	78%	78%	78%	80%

High rates of agreement continue in both the financial and child custody mediation programs, thus, relieving the courts of additional cases to settle.

Significant Issues in the Year Ahead

Program costs are increasing, and the addition of office support has led to an increase in the divorce filing fees.

Financial Condition

This program is supported by divorce filing fees.

Mental Health

Category Name

Community Advocacy & Health

Program Purpose

Provide medically necessary mental health services to eligible people in Jackson County with severe or chronic psychological or emotional problems. Help individuals resolve crisis situations in their lives, develop skills to improve their functioning in daily life, and reduce criminal justice involvement. The mental health services program is helping to meet county goal: (1) Protect health, safety, and well-being of all citizens.

Program Description

The mental health services program provides the following services:

- **Crisis/intensive services**

Strategic objective: Provide rapid appropriate response to people who are experiencing a mental health crisis and are at risk of hospitalization and people who are being discharged from the hospital, including assessments, referral, pre-commitment services, discharge planning, respite care, intensive case management, transitional housing and psychiatric services.

- **Adult outpatient services**

Strategic objective: Provide a range of brief cognitive behavioral psychotherapeutic interventions to adults individually and in treatment groups.

- **Community support services**

Strategic objective: Provide a full range of services to severe and persistent mentally ill adults, including medication management, strength-based case management, skills training, supported employment, benefit management, and counseling.

- **Children's services**

Strategic objective: Provide mental health services to children with severe and acute mental health disorders including crisis intervention, assessment, psychiatric services, and therapy. Provide intensive community-based treatment supports to families raising children with serious emotional disorders.

Mental Health

- **Residential services**

Strategic objective: Provide mentally ill adults with 24 adult foster homes providing 24-hour supervision and care services, four transitional homes with support services enabling disabled persons to reside in independent housing, and one crisis/respite facility to serve persons in psychiatric crisis and who are at imminent risk of hospitalization.

- **Age wise age well**

Strategic objective: Provide clinically supervised peer counseling services to senior citizens in the community.

- **Psychiatric secure residential treatment**

Strategic objective: *Hazel Secure Residential Treatment Facility:* House and treat 16 severely mentally-ill persons after prolonged stays in State hospitals to promote community integration with consideration for public safety. Eight of the residents are supervised by the psychiatric review board (PSRB).

Transitional Living Cottage: Provide a residence for five clients under PSRB supervision who learn to manage their daily lives after long stays in group homes with a goal of moving to fully independent living situations.

PSRB Case Management and Supervision: Provide services for up to 20 clients living in group homes who need intensive case management, skills training, and supervision in the community while under conditional release from the State Hospital.

- **Medical services**

Strategic objective: Provide psychiatric evaluations, treatment planning, coordination of medical services, and medication management to adults and children.

Significant Issues in the Year Ahead

Mental health services will continue to implement intensive community based treatment support services as required by the Oregon Children's Mental Health State Change Initiative. This will require continued flexibility

Mental Health

as the system is still being developed. The issue is further complicated by the difficulty recruiting medical personnel, particularly child psychiatrists. Mental health services will also be challenged to work with the State Mental Health Division to solve the overcrowding issues at the State Hospital and to more fully integrate the services for mental health and alcohol and drug treatment. Mental health services will continue it's efforts to assist indigent residents at risk of hospitalization. Mental health services will continue to focus on increasing the use of evidence-based practices and monitoring outcome measures, fidelity and effectiveness.

Financial Condition

Mental health services is funded 100 percent with fees, charges, state and federal funds.

Public Health

Category Name

Community Advocacy & Health

Program Purpose

The public health program seeks to protect and promote the health of all Jackson County citizens. Services include maternal and child health, family planning, tobacco prevention and education, breast cancer screening and education, teen pregnancy prevention, dental health, and health services for incarcerated youth and adults.

The communicable disease and control program seeks to reduce the incidence of communicable diseases among Jackson County citizens by providing clinical, epidemiological and educational services. Services include HIV/AIDS prevention, comprehensive immunization services for infants, children and adults; communicable disease control for all citizens, sexually transmitted disease prevention and treatment, and bioterrorism planning.

Both the public health and communicable disease and control programs are helping to meet county goal: (1) Protect health, safety, and well-being of all citizens.

Program Description

The public health program provides the following services:

- **Maternal and child health**

Strategic objective: Improve the health of women and children by providing prenatal care, home based pregnancy and parenting support, and nutrition education and support services.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
% women delivering babies who have received adequate prenatal care	85	95	93	95

- **Family planning**

Strategic objective: Provide contraceptive services to low-income women to prevent unintended pregnancies. Provide outreach/education to high risk groups and to school age youth.

Public Health

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of pregnancies in teens 10 through 17-years-old per thousand.	9.20	10	9	9

Ongoing activities (outreach to high risk adolescents, school based health centers in high schools, STARS program) appear to be significantly influencing teen pregnancy rates.

- **Corrections health**

Strategic objective: Provide health services to inmates in county correctional facilities.

- **Breast cancer screening and education**

Strategic objective: Provide education/outreach to women and payment for screening, diagnostic and initial treatment for breast and cervical cancer.

The communicable disease and control program provides the following services.

- **Communicable disease control**

Strategic objective: Control the spread of communicable diseases among Jackson County citizens by providing case investigations, clinical services, testing, and case management.

- **Immunizations**

Strategic objective: Provide comprehensive immunization services for infants, children, and adults.

- **HIV/AIDS prevention and treatment**

Strategic objective: Provide counseling, testing, case management, and community education about HIV/AIDS.

- **Bioterrorism planning**

Strategic objective: Increase Jackson County's public health readiness to respond to mass threats to public health.

Public Health

Significant Issues in the Year Ahead

Financial problems at both the state and county levels continue to pose serious threats to our ability to provide the most basic public health services. Jackson County ranks approximately 30 out of 36 Oregon counties in the per capita amount of county funds spent on public health services. Changes to the Oregon Health Plan (restrictions on eligibility, premiums, and copays) will inevitably lead to many poor Oregonians losing their health insurance. This will definitely impact the public health program as 27 percent (\$1.6M) of revenue for public health services is reimbursement from the Oregon Health Plan.

Federal funds for bioterrorism were received during fiscal year 2004 and are expected to continue through 2007. This will allow the strengthening of planning activities directed at these threats.

Financial Condition

County general funds pay 100 percent of costs of health services provided to prisoners in the county jails and 15 percent of the cost of providing other public health services. The majority of the programs are fully paid with state/federal grants and fees.

County general funds support 70 percent of the communicable disease and control program.

Program: 240105	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Veterans' Services

Category Name

Community Advocacy & Health

Program Purpose

Assist veterans, their children, and surviving widows to obtain benefits from the federal government. The veterans' services program is helping to meet county goal: (1) Protect health, safety, and well-being of all citizens.

Program Description

The veterans' services program provides the following services:

- **Claims assistance**

Strategic objective: Help veterans, widows, and their children to obtain benefits due them from the federal government because they were wounded, became ill while in the military, because they are now disabled and low income, or because they are in need of the care and assistance of another person.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Recoveries from the new claims filed	\$5,353,482	\$9,750,000	\$5,647,766	\$6,000,000

Significant Issues in the Year Ahead

Fulfill the requirements of Senate Bill 1100 and Senate Bill 5629-A which stipulate that county veterans service offices shall: 1) enhance outreach efforts; 2) enhance staff training; 3) facilitate the coordination of computer systems to ensure the seamless transfer of information.

Financial Condition

County general funds support 50 percent of the cost of the veterans' service program.

Information Technology

Highlights and Challenges

Department Summary

Purpose Statement: Implement, develop and manage county information systems including the hardware, infrastructure and software necessary to support the variety of county business functions performed by county departments, their business partners and the community.

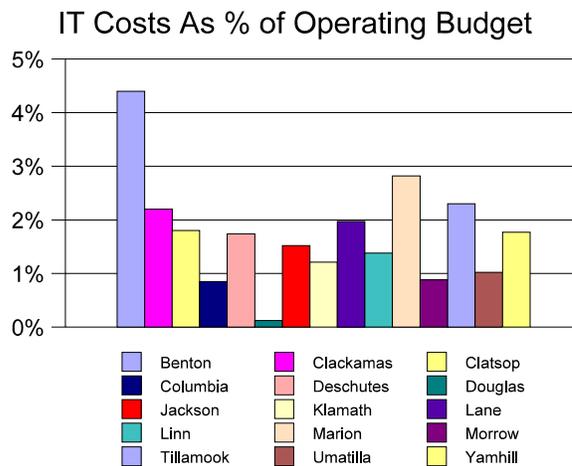

Major Issues and Service Level Goals for Fiscal Year 2006-2007

- The major issue this year will be to begin positioning the department for the impacts of major funding reductions resulting from the impending loss of federal funds.
- Continue to manage the new Enterprise One financial/payroll/human resources system to meet the expectations of users.
- Continue to manage the speed, security and reliability of the county-wide information systems.
- Continue to improve the accuracy and usability of geospatial based information systems.

Major Issues and Service Level Accomplishments for Prior Year

- We completed phase III implementation of the new Peoplesoft Enterprise One financial/payroll/human resources system.
- Continued to utilize federal grant funds to upgrade and enhance the accuracy and usability of the county's geospatial data for use by wildland firefighters and the public primarily through the internet.

Benchmark

Based on a survey conducted by the Oregon Association of County Data Processors

Computer Replacement

Category Name

Organizational Infrastructure

Program Purpose

This program was established in 1998 to provide a means for county departments to make annual contributions towards the replacement of their personal computers as they reach obsolescence. The current program provides for replacement of each PC every four years, in addition to supporting the following county goals: (9) Promote employee pride, high standards of performance, and productivity; and (10) Make the best use of Jackson County's human and material resources. This program supports each department's efforts to achieve county goals by providing stable funding for regular replacement of outdated PC's.

Program Description

The computer replacement program provides funds for the replacement of county owned personal computers on a four year cycle through annual contributions by departments based on the number of PC's in their programs. This program provides for regular replacement of aging systems without departments incurring major expense in one budget year or being forced to forgo replacement and suffer the effects of slow, outdated, hard to maintain personal computers.

- **PC replacement cost control**

Strategic objective: Maintain the annual contribution rate per PC consistent with the cost of replacement equipment.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Contribution per PC	\$275	\$275	\$275	\$275

- **PC life-cycle management**

Strategic objective: Replace approximately one-fourth of PC's in county service each year. (Approximately 800 in service.)

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
PC's replaced	204	210	210	210

Significant Issues in the Year Ahead

Continue to monitor PC pricing trends to ensure sufficient revenue for the program. Monitor advances in technology to ensure our replacement cycle meets the county's needs. Replace sufficient numbers of PC's each year to stay on track with our replacement cycle.

Computer Replacement

Financial Condition

Funds are contributed by departments based on the number of PC's they operate. Approximately 2/3 of county PC's are in the general fund. The remainder are in programs supported by other revenue sources.

Information Technology

Category Name

Organizational Infrastructure

Program Purpose

Implement, develop and manage county information systems including the hardware, infrastructure and software necessary to support the variety of county business functions performed by county departments, their business partners and the community. The information technology program provides technology tools to help all county departments meet their county goals.

Program Description

The information technology program provides the following services:

- **Systems management**

Strategic objective: Provide information systems and infrastructure to enable employees, partners and the community to access information when and how they need it.

- **Geographic information systems**

Strategic objective: Develop automated map-based information systems with the necessary accuracy and geographical detail to support land use, natural resources and emergency management.

- **Voice systems**

Strategic objective: Provide efficient and effective telephone voice communications to meet each department's operational requirements.

Significant Issues in the Year Ahead

Balancing available resources with the work load will remain challenging. This year will require efforts to position the department for the impacts of major reductions in funding resulting from the impending loss of federal funds.

Financial Condition

The information technology program receives the vast majority of its revenue through charges to other departments. Less than 1 percent comes from outside revenue and approximately 68 percent comes from departments within the general fund.

Numbers for FY 02-03 through FY 04-05 are actual revenues and expenditures. FY 05-06 represents the revised budget and FY 06-07 is the adopted budget. For an explanation of the differences between the actual expenditures and budgets, see the Differences Between "Actual" and "Budgeted" Numbers located in the Budget Summary section of this document on page 32.

A second justice court was established in FY 04-05; however, the original court was closed in FY 05-06. The change in FTE is the result of adding a judge and then eliminating the original position. History has been combined for comparison.

Justice Court District

Organization Chart

All employees are reported as full-time equivalents.

Justice Court District

Highlights and Challenges

Department Summary

Purpose Statement: To provide the citizens of Jackson County with judicial service in accordance with the Oregon Revised Statutes and operate the court in a cost-effective manner.

Major Issues and Service Level Goals for Fiscal Year 2006-2007

- Provide a growing county with judicial services in a cost-effective manner.
- Facilities remodel.
- Explore intergovernmental agreements to provide services to local municipal governments.
- Participate in local court security committee.

Major Issues and Service Level Accomplishments for Prior Year

- Implemented electronic download of 95 percent of citations filed, increasing accuracy and efficiency.
- Developed and implemented policies and procedural forms [violations bureau, traffic school, transfers to circuit court, driving while suspended (DWS) information, trial by affidavit, subpoenas, appeals].
- Consolidation of Gold Hill and Southern County Justice courts into one countywide court, the Justice Court District of Jackson County.
- Established collections policy; assigned 1998-2005 Gold Hill accounts receivables to collections.
- Public education: website links to traffic laws, media presentations, manuals and handouts.
- Manage and process higher volume caseload from traffic team and state weighmaster citations.

Justice Court District

Category Name

Community Prosecution & Justice

Program Purpose

To provide the citizens of Jackson County with judicial services for state and county violations in accordance with Oregon Revised Statues; operate the court in a cost-effective manner; educate citizens regarding traffic, boating and the Department of Transportation trucking laws and regulations. The court enforcement program is helping to meet county goals: (1) Protect health, safety, and well-being of all citizens;. and (2) Serve all citizens fairly and ensure access to county government.

Program Description

The court enforcement program operates the court’s facilities to serve public needs within jurisdictional limitations as authorized by Oregon Revised Statutes and efficiently and fairly processes increased filings from all law enforcement agencies within the county. The court enforcement program is providing the following service:

- **Justice Court District**

Strategic objective: Strengthen cooperation between public agencies; encourage and ensure compliance with applicable laws; efficiently and fairly process increased case filings.

<i>Outcome(s)</i>	FY 2003-2004 Actual	FY 2004-2005 Actual	FY 2005-2006 Expected	FY 2006-2007 Projected
Total number of case filings per fiscal year	0	6,429	12,200	12,500

Significant Issues in the Year Ahead

Facilities remodel.

Financial Condition

The court enforcement program is self supported through fines collected from traffic and misdemeanor citations.

Justice Court District

Library

Highlights and Challenges

Department Summary

Purpose Statement: To strengthen our communities through centers for lifelong learning, and to improve the lives of our citizens through knowledge and ideas.

Major Issues and Service Level Goals for Fiscal Year 2006-2007

- **Planning:** Unless Congress renews PL 106-393 by summer, the Board of Commissioners anticipates asking voters in November to approve a library levy. The Library Advisory Committee and library administration will assist to determine the five-year tax rate; help ensure that election requirements are met; and provide information about the measure to the public. If the levy is not approved, library managers will help determine the next steps, including possibly closing libraries if operational funding cannot be secured.
- **Fundraising:** The library and its foundation will seek grant support to expand the Butte Falls branch library and to supplement the general fund budget to enhance patron services. The library will continue aggressively to recruit volunteers.
- **Services:** If grants are awarded, the library will initiate a new “Babies in the Library” lapsit series to help parents develop their children’s skill with language and their love of books. Other initiatives begun in 2005-2006 will mature in 2006-2007.
- **Buildings:** The new Talent, Shady Cove, and Phoenix branch libraries will be completed and opened to the public. Depending on fundraising successes, the Butte Falls branch will be repaired and may be expanded.

Major Issues and Service Level Accomplishments for Prior Year

- **Planning:** The library completed its study of options for sustainable funding. The only feasible source of long-term support is a library district with a dedicated permanent property tax. However, it was determined that sufficient public support for a permanent district does not exist at this time. Should Congress not renew PL 106-393, the county’s “implementation plan” anticipates a November 2006 election for a five-year tax levy.
- **Fundraising:** The library received a \$20,000 LSTA grant to use computers to improve reading skills in partnership with School District 9; the Jackson County Library Foundation received a Trust Management Services grant of \$7,450 to recruit library volunteers; the Talent Friends of the Library raised \$325,000 for enhancements to their new branch; the Phoenix Friends of the Library secured at least \$38,000 for the same purpose. The Library Foundation hired a new executive director and applied for grants to expand the Butte Falls branch library, and for a new “Babies in the Library” lapsit program.
- **Services:** The library system and foundation undertook the first annual “Jackson County Reads” event; the Storyteller @ the Library series brought nationally and regionally distinguished storytellers to children throughout the county; many more children joined the summer reading program; “Library2Go” offered patrons downloadable audio books; most library databases became accessible

Library

from home 24 hours a day 7 days a week; patron self-check machines were placed in seven libraries; and a new computer lab allowed reference staff to bring classes to smaller branches.

- Buildings: The Central Point branch held its grand opening; construction of the Talent, Shady Cove, and Phoenix branches is underway.

Library Administration

Category Name

Culture, Education & Recreation

Program Purpose

To ensure the effective and efficient provision of library services to citizens throughout all the communities of Jackson County. The program helps to meet county goals: (2) Serve all citizens fairly and ensure access to county government; (4) Strengthen cooperation between public agencies; (7) Make recreational, learning, and cultural opportunities accessible and available; (9) Promote employee pride, high standards of performance, and productivity; (10) Make the best use of Jackson County's human and material resources; and (12) Plan for the future.

Program Description

Library administration services include:

- **Employee recruitment and development**

Strategic objective: Recruit well-qualified, skilled, and reliable regular and on-call employees; increase performance and morale through training and personal growth opportunities.

Employee training in 2005-2006 encompassed workplace safety; customer service; leadership skills; handling stress; new electronic databases; new technologies; Polaris upgrades; and early literacy development/early brain development.

- **Volunteer recruitment and development**

Strategic objective: Recruit well-qualified, skilled, and reliable volunteers to enhance library services; strengthen performance and morale through training and recognition.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of volunteers	139	160	160	170
Number of volunteer hours	14,763	14,000	15,550	16,000

The library proactively recruits new volunteers via newspaper and bus ads paid by a Trust Management Services grant.

- **Public communications**

Strategic objective: Increase awareness of library services, promote use and give effective assistance through notices and announcements, web sites, and newspaper and magazine columns.

Library Administration

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of press releases and articles	92	100	98	100

The library continues to produce a bi-weekly column for the *Mail Tribune* and regular book reviews for *Rogue Valley Parent*. Staff appear monthly on KDRV's "Morning Show." A "Hispanic Task Force" supports staff efforts to promote library use among Spanish-speaking families. The Jackson County and library web pages are other key communication tools.

- **Planning/policy**

Strategic objective: Develop plans, budgets, and policies to ensure efficient and effective library services in coming years.

Anticipating the likely end of O&C revenue for Jackson County, the library undertook a study and learned that the only feasible option for sustaining library services beyond June 2006 will be the creation of a library district with a permanent property tax.

- **Facility development and maintenance**

Strategic objective: Provide attractive, convenient, clean, safe, and welcoming library buildings with a broad collection of library materials; appropriate technology; community meeting and gathering places; and comfortable spaces to learn, read, and reflect.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Construct new library buildings	3	1	1	3

A new Central Point branch opened in summer 2005. The final tier of new or remodeled branch libraries in Talent, Phoenix, Shady Cove, and Butte Falls are in the planning and construction phases. In the central library, security guards help maintain a safe and welcoming atmosphere.

Library Administration

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Public meetings held in library meeting spaces	3,048	3,000	3,775	4,200

Library community meeting rooms are booked constantly by non-profit and private organizations.

- **Budgeting and fund development**

Strategic objective: Provide library services as effectively and efficiently as possible with available resources; seek grants and gifts; provide assistance and support services to the Library Foundation.

The Talent Friends of the Library raised \$325,000 for enhancements to their new branch. The Phoenix Friends of the Library secured at least \$38,000 for the same purpose; other grant applications are pending. The Friends of the Medford Library provided “extras” from book shop proceeds. Other Friends of the Library, individuals, and community organizations support longer open hours at the Applegate, Jacksonville, Rogue River, and White City branches. The Jackson County Library Foundation hired a new executive director.

Total Library Operating Expenditure

	Total	Per Capita
Josephine County Library System	\$1,290,348	\$16.42
Klamath County Library	\$1,649,914	\$25.46
Douglas County Library System*	\$2,276,836	\$22.25
Salem Public Library*	\$3,816,813	\$26.56
Hillsboro Public Library Shute Park*	\$4,934,220	\$32.01
Corvallis-Benton County Public Library	\$4,938,482	\$60.41
Deschutes Public Library System	\$6,111,098	\$45.12
Jackson County Library Services	\$7,487,127	\$39.16
Eugene Public Library	\$8,895,724	\$61.50
Multnomah County Library	\$44,473,684	\$64.84
Beaverton City Library *	No data	No data

*Not included in budgeted expenditures for this library are costs of support services provided by local government or library district. Examples of such support provided by others and not charged back to this library are: building maintenance and utilities; human resources; payroll and finance; courier deliveries; cataloging; information technology; electronic networks, and databases.

Libraries serving populations of 64,550+

Information provided is from Unverified 2004-2005 Public Library Statistics, Oregon State Library, as of 12-30-05.

Library Administration

Significant Issues in the Year Ahead

The most important issue is placing a library levy on the November 2006 ballot. Library administration will help ensure that all election requirements are met, and provide information about the measure to the public. If the library levy not approved, next steps must be decided.

Three new or expanded branches will open: Talent and Shady Cove in fall/ winter 2006, and Phoenix in spring 2007. Whether the Butte Falls branch will be expanded or only repaired will depend on private fundraising.

The library will seek more Spanish-speaking employees and volunteers at all levels. Volunteers will be actively recruited and trained.

Financial Condition

Library construction and furnishings are provided by a bond measure passed in May 2000. Rogue Community College and Mellelo's coffee shop lease space in the central library. Rental fees are charged for use of library meeting rooms. A materials recovery agency collects overdue materials and fines. The library received grants of \$20,000 for computer-assisted reading; \$29,609 for children's services; and \$8,000 for 6th grade booktalks. The Jackson County Library Foundation received \$7,450 to recruit volunteers for the library. Friends of the Library, individuals, businesses, and organizations help support open hours, collections, and services.

Library Administration

Adult/Young Adult Services

Category Name

Culture, Education & Recreation

Program Purpose

To enable adults and teens to make informed decisions and lead more fulfilling lives by providing unrestricted access to information, and by serving as community centers for lifelong learning. The program helps to meet county goals: (2) Serve all citizens fairly and ensure access to county government; (6) Encourage citizen understanding and participation in county government; (7) Make recreational, learning, and cultural opportunities accessible and available; and (11) Maintain public records to provide financial, historical, and statistical information.

Program Description

Adult and young adult library services include:

- **Reference service**

Strategic objective: Help teens and adults find, evaluate, and use information for their jobs, health, education, and other needs.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Reference and reader's advisory questions answered	184,868	180,000	174,250	175,000

The library web page has handy links to specialized databases and internet sites by subject, from automotive to weather. Most of the library's databases and eBook reference sets can be accessed 24 hours a day, seven days a week, from patrons' own computers. Grant seekers and non-profits use The Foundation Center's "cooperating collection" in the central library (one of only four in Oregon). Southern Oregon University library has a grant to digitize out-of-print local history documents in the Jackson County library and elsewhere.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of adults attending computer research classes	439	400	500	585

Reference librarians give computer classes in: how to use a mouse; searching the library catalog; setting up a free e-mail account; internet searching; and using research databases. A new portable computer lab lets staff bring these classes to smaller branches.

Adult/Young Adult Services

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of sessions booked on computer workstations	241,014	225,000	245,000	260,000

Computer workstations are used by the public to access the internet, word processing, database management, and children's educational software. Public sessions are limited to one hour per day because demand exceeds availability.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Non-reference questions answered	254,657	255,000	280,800	280,000
Numbers of teens attending senior project day	230	350	250	250

For individualized help with required school "projects," the central library opened to Medford seniors on two successive Saturday mornings, and the Rogue River branch opened to high school juniors on a Sunday.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Teens attending class visits	1,396	1,780	1,400	1,400

Adult/Young Adult Services

- **Promote reading and literacy**

Strategic objective: Increase the number of teens and adults who read for enjoyment; promote literacy and cultural enrichment.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Teens hearing booktalks in 6 th to 8 th grade classrooms	5,182	5,600	5,200	5,200

Every sixth, seventh and eighth grade classroom in Jackson County has an opportunity to hear a once-a-year booktalk program. Sixth graders get a paperback to keep, thanks to grants from the Anna May Family Foundation and the Jackson County Library Foundation. The public library partners with School District 9 and the Educational Service District (ESD) to improve students' reading skills using computers. (In District 9, only 50 percent of students read at grade level or above, and 26 percent are learning disabled.) A Library Services and Construction Act grant pays for this partnership project.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Teens and adults attending cultural programs, e.g. author visits	3,162	4,300	3,175	3,500

Cultural programs are sponsored by Friends of the Library and other supporters: "Second Saturday" in Eagle Point; Chatauqua series in Rogue River; "Author Nights" in Ashland; piano and guitar concerts in Rogue River; and a second annual "Reading in the Rain" program for adults. In April, the library and foundation will co-sponsor the first annual "Jackson County Reads," to encourage reading and talking about a single book. (*The River Why* by David James Duncan is this year's title.) Library events are listed on the Jackson County web page.

- **Circulation services**

Strategic objective: Make library materials available to the public for home use.

Adult/Young Adult Services

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of adult and teen items checked out, checked in and reshelved	963,351	980,000	999,723	1,030,000

Circulation continues to grow as new libraries open. Patrons may check out their own books in the central, Ashland, and Eagle Point branches; four more branches will offer self-check by June. (In Eagle Point, where patrons also pick up their own "holds," 65 percent of checkout is done by patrons on their own.) By using a collection agency, the library recovered \$75,000 in fines and \$111,000 worth of long-overdue books.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of adult and teen items used in library	98,067	111,000	114,897	118,000

*Libraries serving populations of 64,550+
Information provided is from Unverified 2004-2005 Public Library Statistics, Oregon State Library, as of 12-30-05.*

- **Outreach to the homebound**

Strategic objective: Provide access to books and other library materials for individuals who are unable to come to the library due to physical disability or age, and who lack a family member, friend, or caregiver to assume this role.

Adult/Young Adult Services

Note: This service uses volunteers to supplement paid staff.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Items delivered to homebound	28,102	35,000	29,470	31,000

In addition to printed books delivered to their door, computer-savvy homebound patrons can download audio books and do research on library databases.

Significant Issues in the Year Ahead

Staff in all branches continue to be challenged by heavy workloads. Active recruitment and training of volunteers is essential. Reference librarians will bring computer classes to branch libraries with a portable lab. Downloadable audiobooks will expand the public's reading options.

Financial Condition

The Oregon State Library subsidizes electronic databases. The Jackson County Library Foundation, friends groups, individuals and organizations support cultural programming. Grants provide paperback books for sixth graders who hear booktalks, and support a computer-assisted reading program in partnership with School District 9 and the ESD. A collection agency helps ensure timely return of material and payment of fines. However, this program is funded 100 percent by the general fund.

Children's Services

Category Name

Culture, Education & Recreation

Program Purpose

To start children on the road to lifelong reading and learning, which will benefit them professionally and personally as adults. The program helps to meet county goal: (7) Make recreational, learning, and cultural opportunities accessible and available.

Program Description

Children's library services include:

- **Preparing children for success in school**

Strategic objective: Increase the number of Jackson County children who begin school ready to read and ready to learn by promoting language skill development in toddlers and preschoolers.

Note: Volunteers and the Storytelling Guild help librarians provide some of these services.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of children attending storytimes in all branches	13,934	13,300	13,800	13,800

Trained volunteers provide regular storytimes in most branches. The library has applied for a three-year grant for "Babies in the Library," a lapsit series to encourage parents to support their children's language skills and love of books.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of child care homes and centers receiving monthly storytimes and picture book collections	60	68	64	68

During the summer months, providers receive incentives for reading to the children in their care.

- **Promoting reading and literacy**

Strategic objective: Increase the number of children who read for enjoyment.

Children's Services

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2006 Projected
Number of children's items checked out, checked in, and reshelved	412,864	420,000	428,453	442,000
Number of children's items used in library	42,028	46,000	49,241	50,700
Number of children participating in summer programs for reading skill retention	4,825	5,000	5,516	5,500

"Dragons, Dreams, and Daring Deeds," the 2005 summer reading program, saw 14 percent more children signed up than in 2004; 43 percent more finishing the program by reading at least ten books; and 75 percent more books read – 54,000 books countywide. The 2006 summer reading theme is "Paws, Claws, Scales, and Tales."

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2006 Projected
Number of books read for summer programs	30,762	32,000	53,963	54,000
Attendance at Children's Festival	7,537	7,600	7,283	7,300

The Storytelling Guild actively promoted the Children's Festival with posters in Spanish as well as English, with gains in attendance by Hispanic families.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2006 Projected
Children attending cultural programs	5,057	4,800	4,950	5,000

"Storyteller @ the Library" brings distinguished after-school presenters monthly to Medford and Ashland, and twice a year to most other branches. Friends groups sponsor additional children's programs, like Eagle Point's weekly film series.

Children's Services

- **Reference service**

Strategic objective: Help children find, evaluate, and use information as they explore personal interests or work on school assignments.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Reference and reader's advisory questions answered	35,213	33,000	30,750	30,800

Booklists and bookmarks are included on the library's web pages for children.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Non-reference questions answered	19,122	20,000	31,200	31,500
Children attending class visits	8,561	8,000	8,000	8,000

School enrollment is down in some districts. Two elementary schools closed in Ashland.

Children's Services

Significant Issues in the Year Ahead

School librarians have been eliminated in most public schools and home schooling is flourishing. Children and parents look to the public library for educational resources and research skills training, as well as for recreational reading. Pending a grant, the library may offer "Babies in the Library," a lapsit series to encourage parents to support their children's language skills and love of books.

Financial Condition

The Oregon State Library gives an annual grant for children's services. The Jackson County Library Foundation, Friends of the Library, and the Ashland Springs Hotel support the "Storyteller @ the Library" series. The Eagle Point Friends of the Library provide an after-school film series. The Umpqua Bank supports summer reading. However, 100 percent of the program funding comes from the general fund.

Program: 310404	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Law Library

Category Name

Culture, Education & Recreation

Program Purpose

Help make the legal system work effectively in Jackson County by providing access to legal research materials. The program helps to meet county goals: (1) Protect health, safety, and well-being of all citizens; (2) Serve all citizens fairly and ensure access to county government; and (7) Make recreational, learning, and cultural opportunities accessible and available.

Program Description

Law library services include:

- **Collection development and maintenance**

Strategic objective: Provide a collection of materials needed by lawyers and judges to answer their legal research questions. The law library collection, though technical, is also available to the general public.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Expenditures for collection	\$92,204	\$110,000	\$110,000	\$110,000

Westlaw's "Patron Access" service provides on-line access to a broader range of legal publications, saves money, and saves space. Print titles have been added in the fields of criminal defense, landlord-tenant law, and intellectual property.

- **Access to computer research services**

Strategic objective: Provide access to statutes and case law in electronic format.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Computers available for public use	2	2	3	3

A third computer workstation is being installed in the law library for internet access.

- **Reference service**

Strategic objective: Assist patrons by suggesting likely sources of information and explaining ways to do legal research. Staff will not, however, do such research for patrons or give legal advice.

Law Library

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Reference questions answered	4,280	3,820	4,134	4,100

A statewide "law librarians listserv" makes it easier to get help with reference questions, and obtain copies of needed legal materials, from other libraries.

Significant Issues in the Year Ahead

The law library will remain closed to the public on Fridays.

Financial Condition

A portion of court filing fees, as specified by Oregon statute and Jackson County ordinance, provides 95 percent of the law library revenue. The balance is from fees for photocopying and printing, and interest from a non-dedicated fund balance. The law library receives no general fund support.

Program: 310601	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Mail Courier

Category Name

Organizational Infrastructure

Program Purpose

Support communication between all county departments and the general public in an efficient and cost effective manner. The program helps to meet county goals: (4) Strengthen cooperation between public agencies; and (10) Make the best use of Jackson County's human and material resources.

Program Description

The mail/courier program includes the following:

- **Deliver to/from county departments**

Strategic objective: Pick up, sort, and deliver mail, interoffice correspondence, and supplies to and from all county departments.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Items delivered	170,612	200,000	200,000	200,000

- **Prepare outgoing mail and parcels**

Strategic objective: Prepare outgoing items for the U.S. Postal Service and United Parcel Service. It has become cost effective to presort by zip code only on days when mail volumes are guaranteed to be at or above the presort minimum of 500.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Items prepared	342,842	355,000	355,000	355,000

Significant Issues in the Year Ahead

Due to changes being implemented by the U.S. Postal Service in 2006 and 2007, it will be necessary to replace the mailing machine currently in use. After investigation, it appears that purchasing outright is the best value for the county. Courier staff and management continue to implement new ideas for efficient operation of the county's mail room.

Mail Courier

Financial Condition

This program is funded by chargebacks to the departments that use the services. The amount of each department's chargebacks is based on the volume of outgoing mail from the department and interoffice deliveries made to and from the department, from counts taken quarterly each year. A few non-county government agencies contract with Jackson County for mail/courier services.

Technical Services

Category Name

Culture, Education & Recreation

Program Purpose

To provide the information and learning resources needed to help people lead productive and fulfilling lives. The program helps to meet county goals: (7) Make recreational, learning, and cultural opportunities accessible and available; (10) Make the best use of Jackson County’s human and material resources; and (11) Maintain public records to provide financial, historical, and statistical information.

Program Description

Library technical services include:

- **Collection development**

Strategic objective: Ensure that Jackson County residents of all ages have affordable access to print and audiovisual materials of lasting value and quality.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of items chosen for the library collection	40,054	39,000	40,000	40,000

“Library2Go” kicked off in January 2006. It lets library patrons download audio books to their own computers and to portable MP3 players or CDs. The eight largest libraries in Oregon share the cost of the books, and there is no labor for check out, check in, and reshelving.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of physical units in collection	613,616	640,000	629,652	660,000

Total Physical Units Per Capita

Hillsboro Public Library Shute Park	1.83
Josephine County Library System	2.10
Multnomah County Library	2.47
Beaverton City Library	2.55
Deschutes Public Library System	2.79
Eugene Public Library	2.84
Klamath County Library	3.13
Jackson County Library Services	3.22
Douglas County Library System	3.25

Technical Services

Salem Public Library	4.02
Corvallis-Benton County Public Library	4.53

Collection Expense Per Capita

Josephine County Library System	\$1.09
Douglas County Library System	\$1.85
Hillsboro Public Library Shute Park	\$3.04
Salem Public Library	\$3.14
Jackson County Library Services	\$3.41
Deschutes Public Library System	\$5.04
Eugene Public Library	\$6.21
Klamath County Library	\$6.31
Multnomah County Library	\$6.91
Corvallis-Benton County Public Library	no data
Beaverton City Library	no data

*Libraries serving populations of 64,550+
Information provided is from Unverified 2004-2005 Public Library Statistics, Oregon State Library, as of 12-30-05.*

- **Collection acquisition and maintenance**

Strategic objective: Purchase, organize, and maintain books and other media so library users can identify and receive them in a timely, efficient, and effective manner.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Items added to collection	40,054	39,000	40,000	40,000

The Library Foundation's "Buy-A-Shelf" promotion and miscellaneous cash gifts supplement the book budget. Donations of used books add to the collection.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Items discarded	5,091	6,500	7,000	7,000
Items mended	8,615	7,300	8,750	8,750
Records and electronic sources maintained	613,616	640,000	640,000	640,000

Technical Services

- **Library information technology**

Strategic objective: Provide and support electronic networks and computer applications to link individuals in Jackson County with worldwide information resources.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Workstations maintained	310	335	324	385

Wireless connectivity is available in six branches: central (Medford), Ashland, Eagle Point, Rogue River, Gold Hill, and White City. This allows patrons use their own laptops to access the internet. All staff workstations on the SOLIS network were replaced for compatibility with Polaris upgrades. Some staff computers were recycled for public use.

- **Web page**

Strategic Objective: Make the library catalog and electronic resources available 24 hours a day, seven days a week.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of web page hits by the public	201,642	195,000	231,275	240,000

The library's web pages provide fast links to proprietary databases and internet sites by title and subject, e.g. "automotive," "baby names," "business/investing," and "online auctions."

Significant Issues in the Year Ahead

Opening day collections will be added to the new Talent, Shady Cove, and Phoenix branch libraries. Data lines will be moved to temporary "pocket" libraries during construction, and then to the new branches. Wireless nodes will be installed in branches that now lack them. The Polaris automated catalog and circulation system will be upgraded at least once during the year. Although productivity has increased, there remains a backlog in processing donated books.

Financial Condition

Telecommunications costs are subsidized through the Schools and Libraries Universal Service Program. Cash gifts, grants, and used book donations supplement the budget for acquisitions. However, 100 percent of the program funding comes from the general fund.

Ted Gerlock Fund

Category Name

Culture, Education & Recreation

Program Purpose

This trust fund was established in 1984 with donations in memory of Ted Gerlock, a Jackson County resident and small woodlot owner. Interest from the trust fund is dedicated to the purchase of books and magazines about forestry.

Program Description

Use of interest earned on the original gift amount of \$1,500 enhances the library's collection of materials about forestry.

Financial Condition

Low interest rates result in a very small sum available with which to purchase library materials. This is a non-expendable trust fund. The general fund does not provide any support.

Program: 310301	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

D. Houlihan Fund

Category Name

Culture, Education & Recreation

Program Purpose

This trust fund was established in 1987 with a bequest from Dorothy L. Houlihan. Her will specified that the interest was to be used "for the general purposes of the Senior Outreach program of the Jackson County Library System, it being my direction that said trust income be utilized to support the extension of library services to homebound persons and those persons being cared for in nursing homes within Jackson County, Oregon."

Program Description

Use of interest earned on the original gift amount of \$23,339 helps support the library's Senior Outreach services.

Financial Condition

Low interest rates result in a small sum available with which to help support the Senior Outreach program.

Program: 310201	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

E.J. Smith Fund

Category Name

Culture, Education & Recreation

Program Purpose

This trust fund was originally established in 1954 with a bequest from Ella Juliet Smith. Interest from the trust fund is dedicated to the purchase of books about the Pacific Northwest. These may be non-fiction or fiction, and may be for the reference or circulating collections.

Program Description

Use of interest earned on the original gift amount of \$8,500 expands the library's collection of books about the Pacific Northwest.

Financial Condition

Low interest rates result in a very small sum available with which to purchase library materials. This is a non-expendable trust fund. The general fund does not provide any support.

FULL-TIME EQUIVALENTS	138.83	138.28	134.27	133.30	134.00

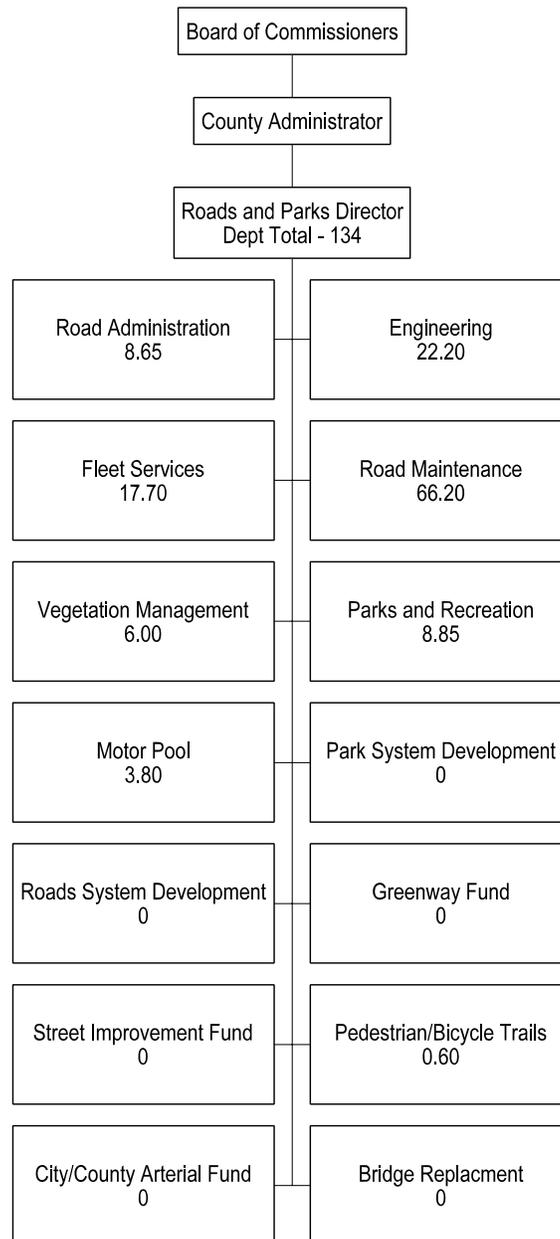

Numbers for FY 02-03 through FY 04-05 are actual revenues and expenditures. FY 05-06 represents the revised budget and FY 06-07 is the adopted budget. For an explanation of the differences between the actual expenditures and budgets, see the Differences Between "Actual" and "Budgeted" Numbers located in the Budget Summary section of this document on page 32.

During FY 04-05 the road fund received a grant from the state in the amount of \$39 million to rebuild 16 bridges. The decrease between FY 05-06 and FY 06-07 is a result of the work being accomplished and grant funds being spent. There is a slight change in FTEs as a result of splitting off the development services department.

Roads and Parks

Organization Chart

All employees are reported as full-time equivalents.

Roads and Parks

Highlights and Challenges

Department Summary

Purpose Statement: To provide and maintain the Jackson County road system; to provide and maintain a variety of quality recreational opportunities for the citizens and visitors of Jackson County.

Major Issues and Service Level Goals for Fiscal Year 2006-2007

- Complete construction of replacement bridges funded under the Oregon Transportation Investment Act III (OTIA III) funding package that addressed replacement of girder cracked bridges in Jackson County.
- Complete an update to the Parks 1981 Comprehensive Plan. The plan will address a twenty-year time frame for capacity, upgraded facilities and recreational needs.
- Update the Strategic Plan for the Parks and Recreation Advisory Committee.
- Receive bids and begin construction on a two mile section of Greenway Trail.
- Undertake a review of the Road Fund Programs and service levels with the intent of resizing the organization and its mission to meet the PL106-393 re-authorization or replacement legislation.
- Implement a Joint Powers Management Agreement involving the five cities along the Bear Creek Greenway. The collaborative nature of this agreement will ensure participation by all affected cities in the maintenance and preservation of the Greenway Trail.
- Review road maintenance activities performed by the department that have the greatest potential for increased efficiencies; develop plans implementing the recommended efficiencies which may include increased contracting for services.
- Continue to work with affected communities on the Jackson County Storm Water Management Plan.
- Complete and seek approval of the Sports Park Master Plan.
- Apply to the State ATV Grant program for funds to install a CXT vault toilet at the Hoover Ponds ATV area.
- Work to comply with all of the Conditional Use Permit (CUP) requirements at the Britt Park.
- Work with the Rogue River Greenway group and State Parks on a vision plan for a Rogue River Recreation Corridor.

Major Issues and Service Level Accomplishments for Prior Year

- Completed construction on a 4.4 million dollar widening of Table Rock Road. Phase I included five lanes and other improvements between Biddle Road and Wilson Road.
- Completed construction on eight replacement bridges under OTIA III. Began construction on seven bridges.
- Completed construction on a two and one-half mile segment of Greenway Trail between the Medford Sports Park and the Phoenix Blue Heron Park.
- Applied for and completed \$223,000 in grant funding for park infrastructure capital improvements.

Roads and Parks

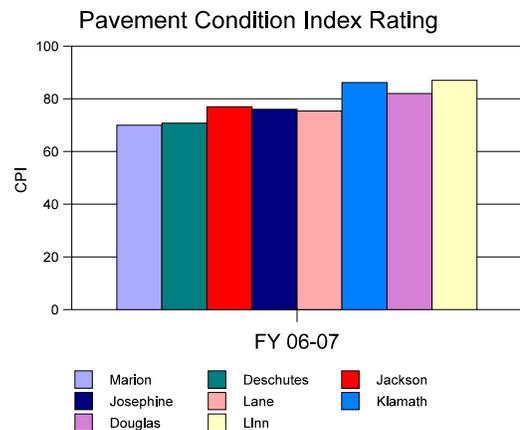

- Completed construction of the 12 million dollar Depot Street bridge.
- Completed a maintenance and operations plan for the Bear Creek Greenway.
- Completed acquisition of a five acre parcel of river front property for public ownership on the Applegate River that will provide future public access for recreational purposes.
- In cooperation with Britt Festivals, gained approval for a new Conditional Use Permit (CUP) with the City of Jacksonville to operate Britt Gardens.

Benchmark

Most Oregon counties utilize the Metropolitan Transportation Commission (MTC) Pavement Management System to guide management decisions regarding their paved road systems. The MTC system uses a universal Pavement Condition Index (PCI) rating of between 0 PCI indicating a non-existent surface and 100 indicating a new road with paved surface. Asphalt pavements are evaluated and then scheduled to be maintained utilizing proven strategies and techniques to ensure that maintenance dollars are spent appropriately. A long-term view is best when viewing the system ratings. As systems age and as work is performed, some fluctuation in the PCI numbers is expected.

Roads in the Jackson County system have been maintained utilizing input from a pavement management system since the late 1980's. Pavement conditions appear to be stable and current strategies being employed to maintain them are working. Current policy is to try and maintain pavements in the Jackson County road system near an overall 80 PCI rating.

An overall rating too much above 80 PCI may indicate higher than necessary maintenance has been performed. An overall system rating too far below 80 PCI could indicate less than necessary maintenance is being performed and deterioration may be getting ahead of maintenance.

Of the seven similar counties surveyed, Jackson County's rating is the median and within one point each of both the mode and mean rating.

Roads Administration

Category Name

Transportation

Program Purpose

The administration program is responsible for issuing permits, processing payroll, tracking costs, budgeting, accounts payable, accounts receivable, personnel records, training, safety, and some information services. The administration program is helping to meet county goal: (9) Promote employee pride, high standards of performance, and productivity.

Program Description

The administration program oversees the general operations of the roads and parks department.

- **Fiscal services**

Strategic objective: Use management information systems and provide analyses that allow program managers to have relevant cost accounting and budget data necessary to make informed decisions.

- **Safety**

Strategic objective: Provide a safe and healthful work environment for all employees. Promote safety by providing necessary resources to implement prevention programs. Train employees to be responsible and accountable for a safe work environment.

- **Clerical**

Strategic objective: Prepare and maintain the business and statistical records of the department. Ensure that legally mandated records are kept and reports of significant events documented.

Significant Issues in the Year Ahead

PL 106-393 provides nearly 30 percent of road fund revenues. If PL106-393 is not re-authorized, a significant reorganization of the department will occur. In addition to the reorganization, strategies will be followed to develop alternative funding sources which will allow continuation of transportation services. Strategies will address the issue on multiple levels: locally and at the state level, and provide support for the county efforts at the federal level.

Financial Condition

The administration program is part of the road fund which receives no revenue from the general fund. The Secure Rural Schools and Community Self-Determination Act or Public Law 106-393 continues to provide for stable replacement of dedicated Forest Service timber receipts through FY 2006-2007. Failure of Congress to renew this revenue guarantee will result in the

Roads Administration

loss of 30 percent of funding to the road fund in FY 2007-2008. Services provided will need to drop correspondingly.

The second primary revenue source for the road fund is the state gas tax. Vehicle registration fees were increased by the legislature in 2003 to support the OTIA III Bridge Bond program. The actual gas tax receipts received for the county road maintenance have not kept up with the increasing costs associated with maintaining roads. Continued flat revenues and increasing costs mean the level of maintenance service will need to be reduced whether PL106-393 is re-authorized or not.

Bridge Replacement

Category Name

Transportation

Program Purpose

The goal of the bridge replacement program is to administer the county's share of the Oregon Transportation Investment Act III (OTIA III) funding related to bridge replacements.

The bridge replacement program consists of capital funding using bond proceeds as a result of the OTIA III legislation. The legislation provided funding for replacement of deteriorating bridges on Oregon highways. Funds are used to pay for design engineering, construction engineering, and construction costs for bridges that were selected for replacement. The emphasis is on ensuring freight mobility across Oregon's roads and ensuring the bridges are adequate to handle legal and permitted loads. This program is helping to meet county goal: (8) Provide and maintain multiple transportation systems.

Program Description

The bridge replacement program provides the following service:

- **Replace bridges**

Strategic objective: Utilize the bond funds to design and replace sixteen bridges that were selected as meeting the criteria for replacement under the OTIA III legislation. Manage the program to ensure that all sixteen bridges are replaced using only bond proceeds.

Significant Issues in the Year Ahead

The preliminary engineering/design phase on bridge replacements under county direction has been completed. Management of the consultant contracts to ensure on time and on budget delivery of the construction phase will be the priority in FY 2006-2007. Twelve of the sixteen bridges will be completed before the end of FY 2005-2006.

Financial Condition

The bridge replacement program is 100 percent funded by Oregon Transportation Investment Act III (OTIA III) bond proceeds. The funds can be utilized in any manner for replacement of the sixteen bridges. Unused funds will be returned to the Oregon Department of Transportation who is the sponsor of the bond sale. The bridge replacement program receives no general fund support.

City/County Arterial Fund

Category Name

Transportation

Program Purpose

The city/county arterial program provides funding to cooperatively upgrade county roads that are within jurisdictional limits of cities in Jackson County. The program pays for a portion of the cost to upgrade county roads to city standards with the city accepting jurisdictional ownership and maintenance of the road. The county generally covers the cost of asphaltic concrete overlay on the road, plus 20 percent. Projects under this program are identified and developed throughout the year on a cooperative basis with city officials and are subject to the Board of Commissioners' approval. The city/county arterial program is helping to meet county goal: (8) Provide and maintain multiple transportation systems.

Program Description

The city/county arterial program is providing the following services:

- **Jurisdictional transfers**

Strategic objective: Transfer jurisdiction of county roads that lie within the city limits. Develop multi-year jurisdictional transfer plans with each city to facilitate transfer of streets.

Significant Issues in the Year Ahead

Interest continues to be shown by several cities in jurisdictional transfer agreements. Funding for all requested transfers in one year is not always possible so they are prioritized as received.

Financial Condition

The city/county arterial program receives 100 percent of its revenues via transfers from the road fund. Requests that are received after resources have been expended will be prioritized in the following year. There is no general fund money utilized for this program.

City/County Arterial Fund

Engineering

Category Name

Transportation

Program Purpose

The engineering program provides engineering services for roads, parks, and other county departments. The program provides in-house engineering for the design of road improvement projects to ensure that projects are properly engineered to provide the most efficient balance of service, life, and cost. The program also provides construction surveying, project inspection, and contract administration for road improvement projects to ensure that improvements are properly constructed, and the contractors are paid only when their work meets county specifications. The engineering program is helping to meet county goal: (8) Provide and maintain multiple transportation systems.

Program Description

The engineering program provides the following services:

- **Pavement condition**

Strategic objective: Maintain the pavement condition on county roads at a Pavement Condition Index (PCI) rating indicating a "good condition." Using management and systems techniques to maintain the surface condition at a PCI rating in the good category ensures the system is well maintained at a low cost.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Average pavement condition index (PCI) rating for the county road system	78 PCI	80 PCI	77 PCI	80 PCI

The pavement condition index (PCI) rating is a universally accepted standard for measuring pavement condition. Acceptable averages for an entire road system are between 75 PCI and 85 PCI. The goal is to manage the system to achieve close to 80 PCI.

- **Bridge management**

Strategic objective: Manage the county's bridges to ensure safety and accessibility. Use of county, state, and federal funding to provide inspection, maintenance, and replacement of the county's bridges.

Engineering

- **Weighmaster**

Strategic objective: Utilize weighmasters in the county to ensure that commercial vehicles comply with size, weight, and safety laws of Oregon. Compliance with Oregon vehicle codes by commercial vehicles ensures that the county's investment in road infrastructure is protected along with the safety of all road users.

Significant Issues in the Year Ahead

The program continues to manage the replacement of OTIA III funded bridge replacements. The bridge construction program will be completed by the end of 2007. One bridge, however, is being built under the direction of ODOT in conjunction with their Upton Road overpass project and will be completed during 2008.

The pavement condition rating remains in the accepted area of "good." The rating dropped slightly for the second year in a row after evaluations were completed in November of 2005. Efforts will be made to reallocate resources to ensure that the conditions remain in the good category. A continued decline over several years indicates deterioration in the overall condition of pavements.

Financial Condition

The engineering program is part of the road fund which receives no revenue from the general fund. The Rural Schools and Community Self-Determination Act or Public Law 106-393 revenues and gas tax revenues fund this program. Refer to the roads administration program's "Financial Condition" discussion for additional information.

Engineering

Fleet Services

Category Name

Organizational Infrastructure

Program Purpose

The fleet services program ensures the county's equipment and fleet maintenance needs are met. It also provides services for outside entities such as the state motor pool, Oregon State Highway Division, Oregon Department of Forestry, Rogue Valley Sewer Services, Fire District 3, Central Point School District, and Vector Control. Strategies employed utilize preventative maintenance programs consisting of vehicle inspections for safety, lubrication, and oil changes. Efforts are made to replace county equipment when most cost effective to do so. Fewer breakdowns and lower costs result from a well-managed, preventative maintenance program and scheduled equipment replacements. The fleet services program is helping to meet county goal: (10) Make the best use of Jackson County's human and material resources.

Program Description

The fleet services program provides the following services:

- **Vehicle acquisition and replacement**

Strategic objective: Acquire equipment and vehicles for the departments that budget for additional units. Operate an equipment replacement program for existing equipment that may have met or exceeded its useful life.

- **Service equipment**

Strategic objective: Utilize sound principles of preventative vehicle maintenance to ensure vehicles are available when needed.

Utilize flexible shop scheduling techniques to perform service when vehicles are not needed.

Significant Issues in the Year Ahead

Outsourcing for specialized maintenance and repairs in the fleet is an important strategy. Shop rate comparisons show that fleet services continues to be competitive with local area shops. Reliance on specialty providers has proven to be an effective method for dealing with specialized repair needs while keeping department technicians focused on preventative maintenance and areas with in-house expertise. Both efficiency and effectiveness continue to be monitored to ensure the most effective service is being provided.

Fuel costs continue to be the largest materials cost impacting the fleet budget. The fuel budget in FY 2005-2006 had to be adjusted based on continued higher cost. Fuel costs and consumption during the next fiscal year will continue to be closely monitored.

Fleet Services

Financial Condition

The fleet services program is part of the road fund which receives no revenue from the general fund. The Rural Schools and Community Self-Determination Act or Public Law 106-393 revenues and gas tax revenues fund this program. Refer to the roads administration program's "Financial Condition" discussion for additional information. Fleet services does provide service to general fund departments on a reimbursable basis amounting to 7 percent of the total program.

Program: 390206	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Greenway Fund

Category Name

Transportation

Program Purpose

The goal of the greenway program is to complete construction of a continuous trail between the City of Ashland and the Seven Oaks interchange, north of the City of Central Point. The greenway program is helping to meet county goals: (7) Make recreational, learning and cultural opportunities accessible and available; and (8) Provide and maintain multiple transportation systems.

Program Description

The greenway program provides funding for construction of new greenway trail and special assessments for county-owned land within the greenway system.

- **Add trail segments**

Strategic objective: Two trail segments are currently being worked on. A new funding source from Federal Highway Administration programs is being used to complete the final trail links between Central Point and Ashland.

Significant Issues in the Year Ahead

Construction of one new trail segment will be completed in FY 2006-2007. Funding for the final segment is now available due to a federal earmark which will fund the design and construction. The final segment is targeted for construction in FY 2008-2009, but may be delayed due to ODOT's south Medford interchange project.

The Greenway Foundation continues to advocate for completion and assists with planning and fund-raising for future improvements and new construction.

Financial Condition

The greenway program currently receives no general fund support. Funding for this program comes from donations and grants.

Greenway Fund

Program: 390701	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Motor Pool

Category Name

Organizational Infrastructure

Program Purpose

The motor pool program has responsibility for providing clean, safe, and economical transportation to county departments. The motor pool program is helping to meet county goal: (10) Make the best use of Jackson County's human and material resources.

Program Description

The motor pool program provides the following services:

- **Vehicle acquisition and replacement**

Strategic objective: Acquire vehicles for departments that budget for or need additional units. Operate a vehicle replacement program for existing vehicles that have met or exceeded their useful life.

Vehicles are scheduled for replacement when mileage and years of service indicate that their average useful life has been reached. Most vehicles in Jackson County's fleet will travel at least 100,000 miles before being replaced. Replacement is planned when maintenance and servicing costs begin to increase significantly. A replacement table has been developed and indicates on average when vehicles should be replaced to receive good service at low cost.

- **Cost effective transportation**

Strategic objective: Provide vehicles to user departments at a cost less than the reimbursement rate allowed by the IRS (currently .445 per/mile).

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Cost per mile average	\$0.49	\$0.39	\$0.59	\$0.56

User rates were higher than planned in FY 2005-2006 as a result of the high cost of fuel. Recent moderation in the cost of fuel and an increase in the number of vehicles in the motor pool should help reduce some costs. The increase in vehicles required that an additional service technician be added at motor pool. The new ratio is one technician for every 121 vehicles (1:121).

Significant Issues in the Year Ahead

The single largest expenditure in addition to vehicle replacement is gasoline. To ensure the best price possible, every load of fuel continues to be bid on the open market. With continued high fuel prices, interest and opportunities for alternative fueled vehicles is being monitored to ensure that the most cost effective vehicles will be provided. Research on hybrid and alternative fuel

Motor Pool

vehicles continues to show they are not yet cost effective as replacement vehicles. Recommendations will continue to be made to acquire the most cost effective vehicles for the fleet.

Financial Condition

The motor pool program is an internal service fund which continues to generate revenues from the fees charged to its users. A three-tier rate structure is utilized to recover capital, fixed, and variable program costs. It is estimated that 60 percent of this program's revenues come from general fund departments.

Program: 390401	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Pedestrian/Bicycle Trails

Category Name

Transportation

Program Purpose

The goal of the pedestrian/bicycle trails program is to develop and maintain a network of trails and paths, and to encourage the use of alternative and non-motorized modes of transportation.

The pedestrian/bicycle trails program provides planning, development, administration, and maintenance functions for the county trails system. The program is financed by Jackson County's one percent share of the state gasoline tax. These funds are dedicated to trail construction and management within county road rights-of-way and to maintenance of trails in park and recreation areas. The pedestrian/bicycle trails program is helping to meet county goals: (7) Make recreational, learning and cultural opportunities accessible and available; and (8) Provide and maintain multiple transportation systems.

Program Description

The trails program provides the following services:

- **Maintain trails**

Strategic objective: Leverage the one percent bike fund money by coordinating the trail maintenance with road maintenance for best efficiency. The Citizen Bicycle Committee reviews and makes recommendations on bicycle-friendly maintenance practices on the road system.

- **Encourage use of trails**

Strategic objective: Publish maps of pedestrian/bicycle routes in Jackson County. Collaborate with ODOT, cities in Jackson County, and RVTD to expand support for, and use of, non-motorized transportation options.

Significant Issues in the Year Ahead

An older section of the greenway path needs significant repair. Due to a lack of program funding, maintenance being performed is minimal.

A collaborative Maintenance and Operations Plan for the greenway trail with five cities as partners is nearing completion. The process is being guided by Rogue Valley Council of Governments (RVCOG). All elements of facility management and funding are being addressed. Adoption of the plan is essential to ensuring a consistent level of funding for maintenance of the entire system.

Pedestrian/Bicycle Trails

Financial Condition

The pedestrian/bicycle program is funded 87 percent from state gasoline taxes. The remaining 13 percent comes from a transfer from the solid waste fund, water sales, and interest income. There is no general fund support.

Program: 390301	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Road Maintenance

Category Name

Transportation

Program Purpose

The road maintenance program provides maintenance services on the county road system. Maintenance on the road system in Jackson County preserves an investment in infrastructure and ensures safe roads. The road maintenance program maintains 914 miles of road, 357 bridges, 13,349 traffic signs, and other road related appurtenances. The program is comprised of road surface maintenance, roadside drainage, traffic control, bridge and guardrail maintenance, snow removal, and miscellaneous activities. The road maintenance program is helping to meet county goal: (8) Provide and maintain multiple transportation systems.

Program Description

The road maintenance program provides the following services:

- **Surface maintenance**

Strategic objective: Maintain the safety and longevity of the paved road system by continuing to apply chip seals annually to county roads. Appropriate use of chip sealing is a cost effective way to maintain asphalt pavements to achieve a Pavement Condition Index (PCI) rating for county roads in the “good” category.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Chip seal applied annually to county roads	548,627 sq/yds	620,000 sq/yds	568,000 sq/yds	360,000s q/yds

Chip seal can be applied to paved surfaces as a maintenance technique to repair minor defects and extend the pavement life. An average mile of road, which is approximately 12,900 square yards, can be chip sealed for about \$13,000. The Pavement Management System predicts the annual amount necessary to ensure the entire road system is maintained.

County crews additionally provide chip sealing on a reimbursable basis for several local entities as well as for ODOT.

- **Drainage maintenance**

Strategic objective: Maintain the drainage systems along county roads to ensure the road base is drained. Use “Best Management Practices” employing appropriate techniques and frequency to ensure good drainage while not adversely impacting water quality. Good roadbed drainage contributes to maximum infrastructure life.

Road Maintenance

Significant Issues in the Year Ahead

Road maintenance activities will be performed at a slightly reduced level during the coming year. Asphalt costs have doubled in the past three years, gasoline and diesel costs are impacting total quantities of work that can be accomplished. Subsequently fewer employees, reduced levels of materials, and reduced quantities of work will be achieved.

There continues to be a need for increases in maintenance funding for existing roads and small bridges.

Financial Condition

The road maintenance program is part of the road fund which receives no revenue from the general fund. The Rural Schools and Community Self-Determination Act or Public Law 106-393 revenues and gas tax revenues fund this program 100 percent. Refer to the roads administration program's "Financial Condition" discussion for additional information.

Program: 390204	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Roads System Development

Category Name

Transportation

Program Purpose

The goal of the roads system development program is to fund the portion of projects related to increased capacity under the capital improvements program. The roads system development program provides capital improvement funds under County Ordinance No. 91-5 and Board Order No. 207-94. System development charges (SDC) are fees on new development to be used for capacity-increasing arterial and collector road improvement projects. The roads system development program is helping to meet county goals: (8) Provide and maintain multiple transportation systems; and (12) Plan for the future.

Program Description

The roads system development program provides the following service:

- **Increased capacity of roads**

Strategic objective: Fund capacity-increasing projects on county roads by charging new development for the added impact.

Significant Issues in the Year Ahead

System development fees currently fund approximately 49 percent of the capacity-increasing projects on county roads. There are no significant issues related to this program for the coming year.

Financial Condition

There is no general fund money utilized for this program. System development revenues are generated through traffic impact fees charged on new development.

Roads System Development

Program: 391001	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Street Improvement Fund

Category Name

Transportation

Program Purpose

The street improvement program provides financing to property owners along local access roads who wish to improve the condition of a road to county road standards. The county then accepts jurisdictional ownership of the road and provides future road maintenance. The street improvement program is helping to meet county goal: (8) Provide and maintain multiple transportation systems.

Program Description

The street improvement program is providing the following service:

- **Form Local Improvement District (LID)**

Strategic objective: Provide guidance and assistance to citizens who wish to improve their non-county road to a county road standard and have the county accept jurisdiction.

Significant Issues in the Year Ahead

Continuing interest in this program has resulted in several additional projects coming under development. As a consequence of growth in the county, increased interest in this program means projects competing with Transportation System Plan (TSP) projects for funding. Future LID projects may need to be funded utilizing debt financing to ensure that all projects can be completed.

Financial Condition

The street improvement program receives 100 percent of its revenues via transfers from the road fund. Refer to the roads administration program's "Financial Condition" discussion for additional information. There is no general fund money utilized for this program.

Street Improvement Fund

Vegetation Management

Category Name

Transportation

Program Purpose

The goal of the vegetation management program is to provide a comprehensive, countywide approach to vegetation maintenance and control. The vegetation management program consists of two subprograms: landscape maintenance for county properties and roadside maintenance for right-of-way vegetation control.

Landscaping on county properties ensures a clean, neat appearance at the lowest possible cost. Management of vegetation along county roads is intended to ensure that unwanted vegetation does not cause safety problems or hazards for the driving public and that road features such as drainage ditches can perform as designed. The vegetation management program is helping to meet county goals: (1) Protect health, safety, and well-being of all citizens; (5) Work to enhance the natural and man-made attractiveness of the area; (8) Provide and maintain multiple transportation systems; and (9) Promote employee pride, high standards of performance, and productivity.

Program Description

The vegetation management program is providing the following services:

- **Landscape maintenance**

Strategic objective: Provide landscape maintenance for county and non-county properties using the most effective professional methods. Neat, well-maintained properties contribute to the natural beauty of the area while promoting employee pride and stewardship within the county.

- **Roadside maintenance**

Strategic objective: Properly manage the 914 miles of road right-of-way to reduce negative impacts from vegetation. Ensure drainage ways are treated to allow water to escape without causing excessive adverse water quality impacts. Remove vegetation encroaching on the right-of-way that may cause safety problems.

Significant Issues in the Year Ahead

Department of Agriculture regulations will require reporting on herbicide use beginning in 2007. Administrative Rules are being revised and adopted detailing how the use is to be reported. Efforts will be made to automate this process as much as possible in order to maintain efficiency during herbicide application.

Vegetation Management

Vegetation management crews continue their efforts to use the most appropriate blend of mechanical, manual and chemical vegetation treatments for managing roadside brush.

Financial Condition

The landscape maintenance subprogram receives 26 percent of its revenues by providing service to general fund departments. The remaining 74 percent of revenues come from services provided to other local governments, school districts, and non-general fund county departments.

The roadside maintenance subprogram is part of the road fund which receives no revenue from the general fund. The Rural Schools and Community Self-Determination Act or Public Law 106-393 revenues and gas tax revenues fund this program. Refer to the roads administration program's "Financial Condition" discussion for additional information.

Parks and Recreation

Category Name

Cultural, Education & Recreation

Program Purpose

The goal of the parks and recreation program is to provide a variety of quality recreational opportunities for the citizens and visitors of Jackson County. The parks and recreation program operates twenty-two developed parks within Jackson County encompassing over 5,000 acres.

Recreational opportunities available include: picnicking; camping; fishing; boating; waterskiing; windsurfing; swimming; water sliding; river boating; rafting; hiking; rock climbing; hang gliding; cycling; reserved group camping; reserved group picnicking; motor sports including drag racing, karting, and autocross; softball; little league baseball; target shooting; music concerts and festivals; bird watching; nature hikes; equestrian camping and activities; and indoor/outdoor facilities on a reservation basis for meetings, weddings, and concerts.

The parks and recreation program strives to make each park facility as self supporting as possible. To accomplish this goal, a revenue strategy of user fees, grants, entitlements, revenue generating events, concession contracts along with volunteers, social agency cooperation, and public/private partnerships are utilized. Continual reorganization and cost containment strategies are employed to provide a variety of recreational experiences at the lowest available cost.

A Parks Strategic Plan was developed in 1993 and is revised annually. The plan is used to guide the parks program to effectively manage and utilize resources and facilities. The parks and recreation program is helping to meet county goal: (7) Make recreational, learning, and cultural opportunities accessible and available.

Program Description

The parks program provides the following services for recreational enjoyment.

- **Day use recreation**

Strategic objective: Provide a variety of recreational opportunities in a day-use park setting.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Percent of park visitors satisfied with the facilities provided	95%	95%	95%	95%

Comments received from park visitors were positive toward services being provided in the parks. Weather during the recreational season was generally favorable and contributed to a successful year. Water levels at the lakes and

Parks and Recreation

river parks, while initially low in the 2005 recreational season, were near enough to normal levels that recreation was unaffected. The number of park visits were again higher than the previous year.

- **Overnight camping**

Strategic objective: Provide high quality camping opportunities for visitors and citizens in Jackson County.

Significant Issues in the Year Ahead

Costs are increasing faster than revenues which impacts the ability of this program to provide services. Major maintenance on the park facilities will be reduced to compensate for the imbalance.

Funding for completion of the Sports Park Master Plan will be dependent upon external funding sources.

Implementing selected recommendations from the 2004 Parks Business Plan including promotions to increase park use during non-peak periods; review park fee schedule annually to ensure fees remain competitive; and investigating and possibly developing a corporate sponsorship program for Jackson County Parks.

Work with Medford Water Commission and the Community Planning Workshop at the University of Oregon to complete the Willow Lake Master Plan.

Investigate the potential for contracting the operations at the Emigrant Lake Water Slide.

Work with the Rogue River Greenway group and State Parks on a vision plan for a Rogue River Recreation Corridor.

Continue to seek funding for a Gold Ray Dam Feasibility Study.

A good recreational season and high facility use during FY 2006-2007 will be important for a continuation of current levels of service.

Financial Condition

The parks program receives approximately 10 percent of its revenues directly from the general fund.

Parks and Recreation

Program: 390501	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Park System Development

Category Name

Cultural, Education & Recreation

Program Purpose

The goal of the system development program is to provide funding for a 5-Year capital improvement plan. The plan focuses on acquiring additional park lands and funding capital improvement projects to accommodate increased capacity at existing and future parks.

The system development program provides capital improvement funds under county ordinance No. 2000-4. The System Development Charges (SDCs) are fees assessed on new residential developments within the county, outside cities' urban growth boundaries, to be used for land acquisition and capacity increasing park improvement projects. The park system development program is helping to meet county goal: (7) Make recreational, learning, and cultural opportunities accessible and available.

Program Description

The park system development program provides the following service:

- **Fund increased capacity of parks**

Strategic objective: Provide funding for capacity increasing projects in county parks. Use SDC funds to pay for new improvements or provide matching funds for grants that build new parks or increase park capacity.

Significant Issues in the Year Ahead

There are no significant issues affecting this program as it enters its sixth year.

Financial Condition

There is no general fund money utilized for this program. System development revenues are generated through development related impact fees. Fees are increasing slightly due to building that is occurring in the county.

Numbers for FY 02-03 through FY 04-05 are actual revenues and expenditures. FY 05-06 represents the revised budget and FY 06-07 is the adopted budget. For an explanation of the differences between the actual expenditures and budgets, see the Differences Between "Actual" and "Budgeted" Numbers located in the Budget Summary section of this document on page 32.

There is no significant increase in this budget. There is a slight increase in FTEs related to airport security.

Sheriff

Organization Chart

All employees are reported as full-time equivalents.

Sheriff

Highlights and Challenges

Department Summary

Purpose Statement: The sheriff's department is dedicated to providing the people of Jackson County with a professional public safety team committed to serve ethically, respectfully, and equally.

Major Issues and Service Level Goals for Fiscal Year 2006-2007

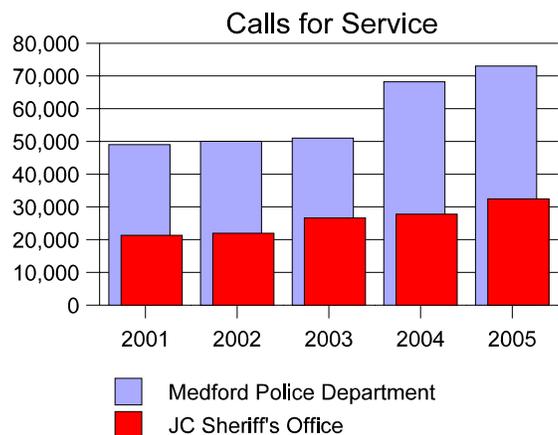

- Increase effective jail bed capacity through fully utilizing all county resources.
- Increase positive public opinion through better communications and presence.
- Better address the needs of the law enforcement community by continued grant coordination.
- Increase public contacts with a more proactive patrol division.
- Continue to reevaluate the operations of the office to ensure cost-effective service to the community.
- Cooperate with agencies to further increase county criminal justice system effectiveness.

Major Issues and Service Level Accomplishments for Prior Year

- Increased effective jail beds available to Jackson County by contracting for available beds and beginning integration with community justice.
- Continued patrol focus on reducing response time to citizens' calls for service.
- Obtained grant funding which allowed 21 police and fire agencies in Jackson County to upgrade their communications abilities.
- Instituted "communications" initiative to provide enhanced public information regarding major sheriff's office projects and issues.

Benchmark

The graph shows the calls for service that MPD and JCSO handled during the time frames listed. MPD covers approximately 26 square miles. JCSO covers 2,800 square miles. For FY 2005, MPD had 63 patrol officers and JCSO had 32 patrol deputies. Both agencies are seeing an alarming increase in workloads assigned to their personnel.

Sheriff Administration

Category Name

Community Safety

Program Purpose

To provide a high level of citizen safety, develop and implement programs that protect the county from liability, ensure officer safety, and to ensure that the department's legal mandates are met. The administration program is helping to meet county goals: (1) Protect health, safety, and well-being of all citizens; and (10) Make the best use of Jackson County's human and material resources.

Program Description

The sheriff's administration program provides the following services:

- **Administration**

Strategic objective: To ensure compliance with county policy relating to budget, human resources, labor negotiations, and records management; set policy for the sheriff's office; and present a positive image to the public.

Increase utilization of citizen reserves and citizen volunteers to assist with customer service followup and an increased presence in the community while giving interested citizens a place to serve their fellow Jackson County residents.

Continue with the objective of creating a traffic safety division fully funded by revenue outside of the general fund and focused on reducing injuries and deaths on county roads.

Move to create greater cost savings and efficiencies in criminal justice programs by continued reorganization and consolidation.

Continue to expand county effective jail beds by seeking creative solutions to adding capacity which do not rely on unsupported emergency contingency funding.

- **Training**

Strategic objective: To minimize civil liability, promote officer safety, and assure competence in all tasks done by employees.

- **Civil**

Strategic objective: To meet statutory requirements in receiving and serving all court documents presented to the sheriff.

Sheriff Administration

<i>Outcome(s)</i>	FY 2003-2004 Actual	FY 2004-2005 Actual	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of civil documents received	10,153	9,246	11,306	12,097

The projected increase in civil documents received is, in part, attributed to the Central Point Police Department no longer serving subpoenas. The project is based on year to date figures.

Strategic objective: To meet mandated requirements for concealed weapon application and issuance which include a criminal history check, fingerprints, and a gun safety course and certification.

<i>Outcome(s)</i>	FY 2003-2004 Actual	FY 2004-2005 Actual	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of concealed handgun licenses issued	1,776	1,408	1,270	2,070

The fluctuation in the concealed handgun licenses issued is a function of the four year renewal cycle. While year to date figures indicate a decrease in applications, an increase in renewals is likely.

Strategic objective: To provide the citizens of Jackson County with fingerprinting service for a variety of application and licensing requirements.

<i>Outcome(s)</i>	FY 2003-2004 Actual	FY 2004-2005 Actual	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of fingerprints taken	3,161	3,748	3,778	4,345

The increase in fingerprints taken is reflective of a greater demand as well as the number of other agencies discontinuing this service.

Like the investigations division, the civil division is challenged by the increased workload.

Significant Issues in the Year Ahead

Maintain overall department service levels in light of budget constraints and increasing calls for services; increase citizen understanding of the limited resources available and the need for a new jail facility to meet the needs of

Sheriff Administration

our increased population; provide for stable funding for the increased patrol resources necessary to adequately serve and protect our community.

Financial Condition

The administration program is primarily funded by the general fund with the remainder of the program financed by county fees and civil process fees outlined in Oregon Revised Statutes.

Program: 410101	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Corrections

Category Name

Community Prosecution & Justice

Program Purpose

To provide for community safety and meet the department’s legal mandates, while minimizing the county’s civil liability. The corrections program is helping to meet county goal: (1) Protect health, safety, and well-being of all citizens.

Program Description

The corrections program provides for the incarceration of pretrial and convicted prisoners of the criminal justice system in Jackson County by the following:

- **Main jail**

Strategic objective: Hold people waiting for trial – those not fit for release. Increase effective jail bed capacity.

<i>Outcome(s)</i>	FY 2003-2004 Actual	FY 2004-2005 Actual	FY 2005-2006 Expected	FY 2006-2007 Projected
Forced releases	n/a	2,994	1,343	1,100

Forced releases are those inmates released because of the 2003 cap of 230 inmates imposed by the commissioner at the request of the sheriff in February 2004.

- **SB 1145 enhancement funding**

Strategic objective: Continue to partner with community justice to effectively make use of all jail and program beds in Jackson County to ensure that inmates are serving their appropriate sanctions while reducing the number of forced releases.

The introduction of a new release matrix identifies the risk of offenders for pre-trial release and at the same time identifies the appropriate placement, release, jail, or community justice programs that each inmate should be considered for. The partnership with community justice is strengthened by implementing this evidenced based matrix system.

- **Court security**

Strategic objective: To eliminate access breaches of security and provide for a safer and secure environment for the administration of justice. Reduce and eliminate violent instances involving visitors as well.

Corrections

Significant Issues in the Year Ahead

Continue to manage the contracted jail beds in other counties to reduce the amount of inmates forced to release from the Medford jail.

Implement a new evidenced based matrix that will evaluate both the appropriateness of an inmate for pre-trial release and identify which programs available in Jackson County are appropriate for each inmate.

Implement the use of video arraignment to reduce the amount of corrections staff necessary to escort prisoners to court. This reduces potential liability by enhancing the overall security of the jail by allowing more staff to remain in the building.

Implement changes in data gathering to ensure that the appropriate statistical information is being gathered and can be extracted. Use this information to better define the prisoner population so strategic prisoner groups can be targeted for services or programs.

Financial Condition

The corrections program is approximate 90 percent funded by the general fund with the remainder of the program financed by contracts with state and federal agencies and recoverable programs. Senate Bill 1145 funding monies from the state continue to decrease as many of the jail's operating costs continue to climb. State budget problems will continue to increase the general fund's support of this program.

Program: 410103	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Criminal Services

Category Name

Community Safety

Program Purpose

To protect the public through education, impartial investigations, and enforcement of laws, as well as complete those duties that the county is legally obligated to do, and guard against civil liability for the county, the department, and its employees. The criminal services program is helping to meet county goals: (1) Protect health, safety, and well-being of all citizens; and (2) Serve all citizens fairly and ensure access to county government.

Program Description

The criminal services program provides the following services:

- **Patrol**

Strategic objective: Increase the minimum number of patrol units on duty at any one time, and increase the frequency of patrols in the rural areas of Jackson County. Enhance patrol visibility and improve response times by increasing patrol vehicle fleet. Aggressively identify, pursue, and apprehend cartel members cultivating marijuana in Jackson County.

<i>Outcome(s)</i>	FY 2003-2004 Actual	FY 2004-2005 Actual	FY 2005-2006 Expected	FY 2006-2007 Projected
Daily average deputies on duty	13	20	22	21

These results arise from adjusting schedules for high activity days and reassigning patrol officers from low-priority assignments.

- **Traffic safety**

Strategic objective: Maintain traffic safety education programs as well as specialized traffic enforcement efforts, DUII enforcement, and grant-funded programs.

<i>Outcome(s)</i>	FY 2003-2004 Actual	FY 2004-2005 Actual	FY 2005-2006 Expected	FY 2006-2007 Projected
Victims impact panel (VIP) attendees	1,364	1,322	1,000	920

Mandated, state-funded victim assistance program, providing a forum for victims to redress grievances with offenders. Due to enforcement, fewer DUIIs are expected in fiscal year 2006-2007.

Criminal Services

<i>Outcome(s)</i>	FY 2003-2004 Actual	FY 2004-2005 Actual	FY 2005-2006 Expected	FY 2006-2007 Projected
Traffic school attendees	512	494	500	760

Traffic school attendees increased due to a new justice court and some limited referrals from circuit court.

<i>Outcome(s)</i>	FY 2003-2004 Actual	FY 2004-2005 Actual	FY 2005-2006 Expected	FY 2006-2007 Projected
Why seat belt attendees	1,920	1,269	1,300	1,100

Seat belt attendees decreased due to a higher rate of usage due to consistent enforcement; lowered due to issues with the justice court criteria for referrals.

- **Investigations**

Strategic objective: Conduct impartial, high quality, in-depth investigations of serious crimes in Jackson County.

<i>Outcome(s)</i>	FY 2003-2004 Actual	FY 2004-2005 Actual	FY 2005-2006 Expected	FY 2006-2007 Projected
Cases assigned to detectives	388	427	518	624

The criminal investigations section added one investigator position in fiscal year 2004-2005. This position became active on June 1, 2005, with cases being assigned to the investigator shortly thereafter. The number of cases assigned to all investigators for the entire calendar year increased 20 percent over 2004 totals and approximately 60 percent over 2003 totals. The average number of cases assigned per investigator fell from 130 per investigator to 124 per investigator. If the expected increase in case totals continues, this per investigator case load will increase overtime.

- **Marine program**

Strategic objective: Continue to meet or exceed Oregon State Marine Board policy stating 50 percent of total patrol hours during May - September should be boat patrol hours. The remainder of funds are spent on equipment, maintenance, travel, and training.

Criminal Services

<i>Outcome(s)</i>	FY 2003-2004 Actual	FY 2004-2005 Actual	FY 2005-2006 Expected	FY 2006-2007 Projected
Boat patrol hours	59%	62%	56%	59%

Strategic objective: Continue to meet and/or exceed Oregon State Marine Board's contract for marine patrol hours.

<i>Outcome(s)</i>	FY 2003-2004 Actual	FY 2004-2005 Actual	FY 2005-2006 Expected	FY 2006-2007 Projected
Contract patrol hours	130%	123%	115%	115%

Strategic objective: Continue to meet Oregon State Marine Board policy of one (01) boating examination report (BER) per one (01) boat patrol hour (BPH).

<i>Outcome(s)</i>	FY 2003-2004 Actual	FY 2004-2005 Actual	FY 2005-2006 Expected	FY 2006-2007 Projected
One BER to one BPH	1.24:1	1.09:1	1.05:1	1.20:1

The marine program strives to present a professional image for the sheriff's department through: marine in-service training; marine unit briefings; marine unit uniforms; patrol boat markings; and timely response to calls for service resulting in improved customer service overall.

In the year ahead, the marine program will: increase training in the field of marine identification within the sheriff's department to help with the recovery of stolen marine property; increase efforts in mandatory education by offering education programs through the public schools; and increase patrol presence on all water ways.

- **Medical examiner program**

Strategic objective: Investigate deaths that fall under the jurisdiction of the medical examiner's program.

<i>Outcome(s)</i>	FY 2003-2004 Actual	FY 2004-2005 Actual	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of medical examiner cases	1,635	1,175	1,112	1,300
Number of autopsies	162	199	257	300

Criminal Services

These cases include suspicious deaths, homicides, suicides, hospice, and accidental deaths. The drop in the number of cases from 2003 to 2004 was due to a policy adjustment in previously required reporting that was deemed unnecessary.

An FTE was added to the medical examiner program making two full time deputy medical examiners. This addition was required to relieve the one position from an extraordinary workload and reduce the overtime required for the out-calls per the JCSEA contract. This change was not effective until late in the calendar year (October) so the impact on overtime reduction will not be apparent until sufficient statistics are compiled to evaluate the totals.

Significant Issues in the Year Ahead

The budget for this next year will increase primarily due to the self-insurance fund chargebacks being recalculated. Additional revenue will be expected due to increased traffic enforcement, now that the justice court is operational.

The department is aggressively pursuing homeland defense grants as they relate to disaster preparedness and inter-agency communications.

The patrol division has relocated to White City in an effort to improve response times for calls for service.

Financial Condition

The criminal services program is primarily funded by the general fund with the remainder of the program financed by county fees, contracts, and grants. It is anticipated that general fund support will decrease by 2008 and alternate funding methods are being investigated.

Criminal Services

JACNET

Category Name

Community Safety

Program Purpose

The Jackson County Narcotics Enforcement Team (JACNET) is helping reduce the availability of illegal narcotics in the community. JACNET strengthens the cooperation between local, state, and federal law enforcement agencies by administering Office of National Drug Control Policy funding received by Jackson County through the Oregon High Intensity Drug Trafficking Area (HIDTA) program. JACNET is helping to meet county goals: (1) Protect health, safety, and well-being of all citizens; and (4) Strengthen cooperation between public agencies.

Program Description

The JACNET program provides the following services:

- **Coordinate drug investigations**

Strategic objective: Reduce the availability of illegal narcotics in Jackson County by enforcing narcotics laws and prosecuting offenders in either state or federal court based upon the offenders level of involvement with drug trafficking organizations and evidence obtained during the investigation.

<i>Outcome(s)</i>	FY 2003-2004 Actual	FY 2004-2005 Actual	FY 2005-2006 Expected	FY 2006-2007 Projected
Prosecutions - federal/state	8/107	2/179	10/134	8/100

JACNET has seen a decrease in meth lab activity from last year due to new precursor legislation that began in 2005. This legislation made it more difficult for meth cooks to obtain and purchase the required precursor item necessary to make meth. The reduction in meth labs seized was anticipated once the new legislation was passed and task forces throughout the state are showing reductions in meth labs as well.

- **Gather intelligence**

Strategic objective: Investigate all information received concerning illegal methamphetamine production. Arrest and prosecute those involved in illegal methamphetamine production and seize/ destroy those chemicals that pose a health risk to citizens of Jackson County.

JACNET

<i>Outcome(s)</i>	FY 2003-2004 Actual	FY 2004-2005 Actual	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of meth labs seized	16	15	6	6

Significant Issues in the Year Ahead

JACNET staffing levels remain a critical factor in their ability to meet their expected HIDTA outcomes for the year. There are presently two full-time investigators assigned to the unit. Due to JCSO staffing issues, JCSO has been unable to continue to augment JACNET staffing from the patrol and investigations divisions. To offset the decrease in staffing, JACNET will increase federal participation by directly teaming with DEA.

Financial Condition

For fiscal year 2006-2007, member agency assessments will again be decreased as the only additional agency besides JCSO contributing staff, in the form of one investigator, to JACNET is the Medford Police Department. HIDTA funding to JACNET was reduced in the 2004-2005 fiscal year. In 2005-2006 there are more agencies competing for HIDTA funding and personnel costs have gone up without any expected increase in HIDTA funding. Funding for operations will need to be further reduced to offset the increase in personnel costs.

Program: 410106	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Law Enforcement District

Category Name

Business, Private & Special Location Development

Program Purpose

To create a safe community and improve the livability of the residents of White City. The White City Enhanced Law Enforcement District program is helping to meet county goal: (1) Protect health, safety, and well-being of all citizens.

Program Description

The White City Enhanced Law Enforcement District provides enhanced police services to the residents within the unincorporated area of White City.

- **Community policing**

Strategic objective: To provide an enhanced level of service and presence in White City, providing more active and direct programs to neighborhoods and schools.

<i>Outcome(s)</i>	FY 2003-2004 Actual	FY 2004-2005 Actual	FY 2005-2006 Actual	FY 2006-2007 Requested
Number of officers assigned	3	2	2	2

The present funding formula for the White City Enhanced Law Enforcement District does not allow for increased cost adjustments which has caused a reduced level of service.

Significant Issues in the Year Ahead

Seek alternative funding that will maintain a level of service that will provide for the citizens in the district until the Urban Renewal projects are completed in four or five years.

Financial Condition

The White City Enhanced Law Enforcement District is 100 percent funded by the citizens of White City. The tax dollars which can be collected have been frozen until the Urban Renewal projects are completed. Over the years, increases in personnel and operational costs have reduced the number of full-time employees from six to three. Unless an additional taxing measure is passed in the White City district, further reductions in staff can be expected. For FY 2006-2007, JCSO has altered deputy and community service officer assignments in an effort to continue the above levels of service for as long as possible.

Law Enforcement District

Search and Rescue

Category Name

Community Safety

Program Purpose

Search and rescue responds to and assists citizens who are overdue, lost, injured, or killed during ground or marine recreational use of the out-of-doors. The search and rescue program is helping to meet county goal: (1) Protect health, safety, and well-being of all citizens. The primary customers are the citizens of Jackson County.

Program Description

The search and rescue program provides the following services:

- **Training/education**

Strategic objective: Train volunteers in search and rescue techniques, survival rescue, tracking, and communication technology

Strategic objective: Provide educational opportunities to public schools and citizens to insure better preparedness in emergency situations.

Strategic objective: Provide services to the community during times of need such as floods or fire or other major difficulties.

- **Search and rescue**

Strategic objective: Respond in a timely manner to citizens lost or missing while hunting, fishing, hiking, or generally recreating on public land. To maintain or increase the percentage of missing, injured, and deceased persons located or recovered.

<i>Outcome(s)</i>	FY 2003-2004 Actual	FY 2004-2005 Actual	FY 2005-2006 Projected	FY 2006-2007 Expected
Percent of persons located	100%	95%	98%	95%

- **Recruitment of volunteers**

Strategic objective: Recruit citizens who provide essential talents and skills specifically needed for the search and rescue missions.

Significant Issues in the Year Ahead

Conduct recruitment to increase and improve the volunteer list. Provide necessary training and equipment for new volunteers. Increase interagency

Search and Rescue

cooperation. Increase media contacts and interviews. Procure new search and rescue equipment to update search and rescue resources.

Financial Condition

Search and rescue is mostly funded by the general fund with the remainder of the program financed by Title III funds. Materials and services have increased due to self-insurance costs and facility maintenance expenses provided by the county. Personnel costs have increased due to the increase in search and rescue missions.

Program: 410105	2002-2003 Actual	2003-2004 Actual	2004-2005 Actual	2005-2006 Revised	2006-2007 Adopted

Surveyor

Highlights and Challenges

Department Summary

Purpose Statement: To review, approve, maintain, and make available to the public all surveys, subdivisions, partitions, and public land survey corner monumentation, and to provide control information for the county assessor and GIS mapping.

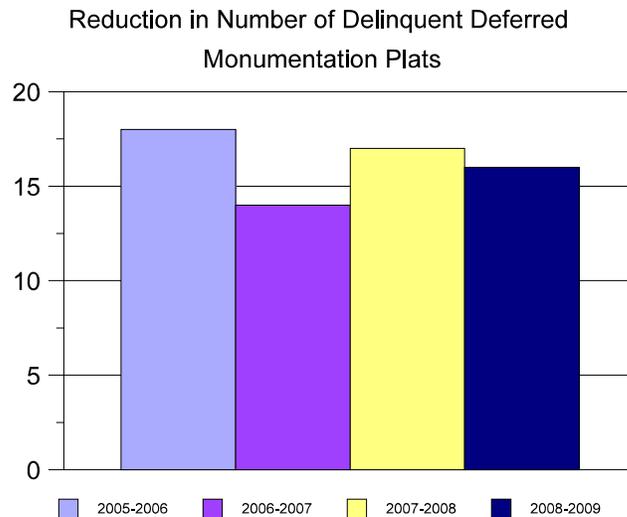

Major Issues and Service Level Goals for Fiscal Year 2006-2007

- Maximize the amount of survey monumentation available for public use.
- Meet increased demand for internet access to survey map information and public land corner information.
- Reduce the number of overdue deferred subdivision lot corner monumentation.

Major Issues and Service Level Accomplishments for Prior Year

- Development of web site.
- Continued efforts to decrease the amount of overdue subdivision lot corner monumentation.
- Completed control survey of boundary problem area in Township 35 South, Range 2 West.

Benchmark

Surveyor

Category Name

Natural Resources & Environment

Program Purpose

To maintain records of all surveys in Jackson County and provide copies of any map or plat as needed. To preserve or rehabilitate all public land survey corner monuments, check and approve all subdivision plats prior to recording, and provide control information for the county assessor and for Geographic Information System mapping. Efforts are being directed toward maximizing the amount of survey monumentation available, primarily through the public land corner restoration project, and also pursuing the completion of overdue subdivision lot corner monumentation. The surveying and review program is helping meet county goal: (11) Maintain public records to provide financial, historical, and statistical information.

Program Description

The surveying and reviews program pursues the following objectives:

- **Public land corner restoration**

Strategic objective: To maintain the on-the-ground marking of the location of the approximately 9,000 public land corners within Jackson County (most of which date from the 1800's). The legal description for locating all properties in our county are referenced to these corners. Retaining the accurate location of these corners is important in protection of property boundaries and minimizing the cost of property boundary surveys to the public.

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Number of restored corners	178	160	180	200

- **Delinquent deferred monumentation**

Strategic objective: Completion of delinquent deferred monumentation for certain recorded subdivisions. At the time of recording a subdivision plat, the marking of lot corners can be delayed until construction activities are completed. There are many subdivisions for which the construction has been completed long ago, but the property lines have not been properly marked. Having those corners marked is important to adjoining land owners, utility companies, mortgage and title insurance companies, contractors, etc.

Surveyor

<i>Outcome(s)</i>	FY 2004-2005 Actual	FY 2005-2006 Budgeted	FY 2005-2006 Expected	FY 2006-2007 Projected
Remaining plats with delinquent monumentation	18	17	17	16

Significant Issues in the Year Ahead

Revenue from fees covers over half of our budget, with the remainder of our budget coming from the Public Land Corner Fund.

Financial Condition

The public land corner restoration program is wholly funded by fees collected by the county clerk at the time of recording of certain documents. At the present time, the fund has a reserve account equal to four to five years operating costs for the program.

The time and expense of the surveyor's office directed toward the completion of the delinquent deferred monumentation is a small percentage of the overall responsibilities. The expense that is incurred is covered by the collection of plat review and filing fees by this office.

FIVE-YEAR BUDGET PROJECTIONS

This section of the budget is presented in accordance with Jackson County's Home Rule Charter Chapter 4, Section 16, which requires that "The Board of Commissioners shall be responsible for the preparation and presentation of a five-year projection of the operating budget and capital program to accompany the proposed annual budget and its presentation to the county budget committee. This projection and the proposed budget shall be presented in a form, which compares them to such projections made in the five years immediately proceeding the year of submission. The projection shall be considered as information and not be binding upon the future actions of the Board." Projections for this report were made independently by the various departments and were consolidated with minimal editing by the budget staff. It highlights certain projects and events that have a significant impact on the county operating budget. With a few exceptions, fiscal year 2006 through 2010 were projected at a 4 percent increase from the 2006-2007 adopted budget. Not all capital outlay has been detailed in this projection.

This page is for notes.

APPROPRIATIONS

This section includes a copy of the order whereby the Board of Commissioners, after approval of the Jackson County Budget Committee, adopted this budget. Following the order is a printout by fund and department. The fund and department is listed at the top of the page. All expenses and revenues are listed out as object totals. This will be useful if you want to find the total revenues for a department for a specific revenue source, such as fees and contracts with local governments.

Several changes have taken place with regard to functions and services provided by funds and departments. In order to provide a basis of comparison for prior years, when a move has taken place, the history of revenues and expenditures have been moved with the function or service. The action will result in discrepancies between the budget printouts and the county's comprehensive annual financial report.

BEFORE THE JACKSON COUNTY BUDGET COMMITTEE
STATE OF OREGON, COUNTY OF JACKSON

IN THE MATTER OF ADOPTING THE 2006-2007)
FISCAL YEAR BUDGET FOR JACKSON COUNTY,) ORDER NO. 249-06
OREGON)

WHEREAS, on April 18 and 20, 2006, the Jackson County Budget Committee held public hearings on the 2006-2007 budget; and

WHEREAS, the Budget Committee approved the budget for fiscal year 2006-2007; and

WHEREAS, the Board of Commissioners held a public hearing on June 7, 2006, to receive public comment on the budget approved by the Budget Committee and may make modifications within the 10 percent limit set by Oregon Revised Statute 294.435.

Now, therefore,

The Board of County Commissioners of Jackson County ORDERS:

1. The Jackson County budget in the amount of \$287,264,942 and FTEs in the amount of 1071.53 for the fiscal year beginning July 1, 2006, through June 30, 2007, are hereby adopted.

2. The amounts for the fiscal year beginning July 1, 2006, for the purposes shown below, are hereby appropriated as follows:

GLOSSARY OF TERMS

Accrual Basis of Accounting	The recording of expenditures and revenues when transactions actually occur.
Action Plan	Represents the actions necessary to improve or maintain the program performance under a specific balanced scorecard perspective.
Adopted Budget	The annual budget document as approved by the budget committee and then by the Board of Commissioners before the beginning of each fiscal year.
Agency and Trust Funds	Accounts for assets received and held for the county under specific trust instructions.
Appropriation	An expenditure level approved by the Board of Commissioners allocating funds for a specific purpose.
Assessed Valuation	A valuation set upon real estate or other property by the County Assessor and the state as a basis for levying taxes. This amount is multiplied by the tax rate to determine the total amount of property taxes to be collected.
Basis of Budgeting	A measurement focus that differs from the basis of accounting in the treatment of beginning fund balances, debt service, vacation benefits, and capital outlay in enterprise funds.
Beginning Fund Balance	A revenue classification indicating those financial resources which, because they were not expended in one fiscal year, are available in the following fiscal year.
Bond	A written promise to pay a specified sum of money (face value or principal amount) at a specified date or dates in the future (maturity date(s)), together with periodic interest at a specified rate.
Budget	A policy statement detailing the county's plan for the accomplishment of stated goals within a particular fiscal year, including estimates of required expenditures and anticipated revenues to carry out state goals.
Capital Outlay	An expenditure category encompassing all material and property expenditures in excess of \$5,000. This includes, but is not limited to, expenses incurred in the purchase of land; the purchase, improvement, or repair of county facilities; or the acquisition or replacement of county equipment.
Capital Projects	Those activities resulting in the acquisition or improvement of major capital items such as: land, buildings, and county facilities.
Capital Reserve Fund	A fund established to carry dedicated funds for a specific future capital into the next fiscal year.

CASA	Court Appointed Special Advocate - A non-profit service that provides advocates for abused children involved in the justice system.
Category	A major division of the program budget that contains programs and activities. Categories are also known as functional areas.
Contingency	An expenditure classification for those funds reserved to fulfill unanticipated demands and expenses.
Current Financial Resources Measurement Focus	A measurement focus that recognizes the net affect of transactions on current financial resources by recording accruals for revenue and expenditure transactions occurring by year's end.
Debt Service	Payment of interest and principal on an obligation resulting from the issuance of bonds.
Department Request	The annual budgetary alternative prepared by department directors indicating an appropriate, justified, and needed level of service for their department together with associated expenditures and revenues.
Depreciation	The charging of a fixed asset as an expense over the estimated service life of that asset.
Enterprise Funds	Funds that are financed and operate in a manner similar to private business enterprises.
Expenditures	A fund liability incurred for operations, capital outlay, or other requirements during a budgetary period.
FTE	Full time equivalent. One FTE is the equivalent of one employee who works 40 hours per week on average. A .5 FTE equals one employee who averages 20 hours per week.
Fiduciary	A program set up in the general fund and the central services fund to act as a bank account to receive funds and make disbursements that cannot be easily attributed to a specific operating program.
Fund	A fiscal entity consisting of a self-balancing set of accounts that are segregated from other funds for the purpose of fulfilling specific activities or attaining specific objectives in accordance with regulations, restrictions, or limitations. A fund is also an available quantity of financial resources.
General Fund	A fund established for the purpose of accounting for all financial resources and liabilities of the county except those required to be accounted for in other funds by special regulations, restrictions, or limitations.
General Obligation Bonds	This type of bond is backed by the full faith, credit, and taxing power of the government.

Governmental Funds	Funds that support governmental-type activities.
Interdepartmental Charges	An expenditure and revenue classification for those expenses charged to one department by another within the same fund for materials or equipment used for services rendered.
Internal Service Funds	Accounts for services, materials, and administrative support that are charged to other county departments.
Lockbox	A term used for the process of paying bills at a remote location. The money is counted, receipted, deposited, and then transferred electronically to the intended entity. This process is used to collect property tax payments.
Materials and Services	An expenditure category encompassing major non-capital, non-personnel expenditures. These include expenses for travel and training, operations, data processing, property, equipment, and contracted services.
Measurement Focus	The accounting for and reporting of the financial operations of funds.
Modified Accrual Basis of Accounting	A basis of accounting where revenues are recognized when they are both measurable and available and expenditures are recognized at a time when liability is incurred pursuant to appropriation authority.
NOC	Not Otherwise Classified. A designation denoting miscellaneous items such as grants and reimbursements.
O & C Revenues	Revenues received by the county from the federal government for timber harvested on federal government land formerly belonging to the Oregon and California Railroad. This is the primary source of revenue for Jackson County's general fund. Beginning in 1994-95, O & C funds were no longer linked to the timber harvest and were guaranteed by the federal government for five years. See Budget Message, Appendix B, page 19 for a more detailed explanation.
OAR	Oregon Administrative Rules. Rules established by a given state department who have authority granted by an ORS to operate a specific function. For example: the Oregon Department of Revenue (ODR) has authority to provide oversight of county assessors. ODR, therefore, writes administrative rules to interpret those ORS which govern collection of property taxes.
Operating Budget	That portion of the Jackson County annual budget that applies to non-capital projects and non-capital outlays, transfers, contingency, and ending fund balance; that is, the combined categories of personal services and materials and services.
ORS	Oregon Revised Statute. The set of laws established by a vote of the people or the state legislature.
Other Requirements	An expenditure classification encompassing all miscellaneous expenditures that cannot be appropriately classified as personal services, materials and services, or capital outlay. This includes transfers to other funds and contingencies.

Personal Services	An expenditure classification encompassing all expenditures relating to county employees. This includes union and nonunion labor costs, employee benefits, and payroll tax expenses.
Program	A group of related activities performed by one or more organized units for the purpose of accomplishing a function for which the county is responsible (sub-unit or categories or functional areas).
Program Budget	Budget that allocates money to the functions or activities of the county rather than to specific items of cost.
Public Law 106-393	See Federal Revenue information on page 48 of the Budget Summary.
Required to Balance	A revenue classification indicating funds that have been transferred into one department or fund from another in order to eliminate any difference between self-generated revenues and anticipated expenditures.
Revenue	Income for the fiscal year including transfers and excluding proceeds from the sale of bonds and notes. The major categories of revenue include local taxes, state-shared revenues, fees and charges, interest on investments, and fines and forfeitures.
Revenue Bond	A written bond backed by funds (revenue) generated by a specific fund.
Revised Budget	A budget alternative indicating all changes made to the adopted budget as the result of budget adjustments and the supplemental budget process.
S.B. 587	A Senate bill which requires certain building, electrical, and plumbing inspection response times. It also allows fees sufficient to fund 100 percent of the costs of those programs.
Special Revenue Funds	Funds used to account for receipts from revenue sources that are earmarked for special projects.
System Development Charge	A fee paid at the time of construction which goes to projects which will mitigate the impact on a specific service. The county has two SDCs: one to increase the park facilities and the other for road development.
Tax Levy	The total amount eligible to be raised by general property taxes.
Tax Rate	The amount of tax levied for each \$1,000 of assessed valuation. The tax rate is multiplied by the assessed valuation to determine the total amount.

Title III Projects

Refers to Title III of Public Law 106-393 or the "Secure Rural Schools and Community Self-Determination Act of 2000." The act requires the county to set aside a portion (15-20%) of the funds made available by the act to be spent on improvements to or preservation of federally owned forest lands. The county determines what percentage of the improvements will be done as federal projects (Title II) or county projects known as Title III. Title III projects are limited to: 1) search and rescue and emergency services on federal lands; 2) community work camps; 3) easement purchases; 4) forest related educational opportunities; 5) fire prevention and county planning; and 6) community forestry.

Unappropriated Ending Fund Balance

An expenditure classification for those funds not appropriated for any purpose and reserved for ensuing fiscal years. This may include specific reserves for buildings or equipment or may be generally reserved funds for no specific purpose.
